## DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING VALUE ADDED COURSE ON FRONTEND WEB DEVELOPMENT REPORT

The Department of Computer Science and Engineering (CSE) has organized a Value added course on "FRONTEND WEB DEVELOPMENT" from 24.04.2018 to 28.04.2018.

### Report:

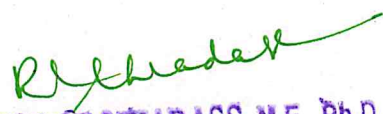

The students of Computer Science Engineering students had participated in the course. The course was Mr.S.Balabaskar, Assistant Professor, Department of Electronics and communication Engineering. He started the session from basics of Web development. The course aimed at introducing the basics of HTML, so as to cultivate among the students an interest in the area of Web Development and also help them to take steps in their journey as a web developer. The resource person focused more on understanding the logic behind the various lines of code and HTML tags. He gave helpful tips and hacks to the students to make their code stand - Out. The entire session was very interactive and students were allowed to ask their queries during the whole session and they were benefitted by learning a new tool. Finally, the students gave their valuable feedback about their experience in course.

### DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

#### “APPLICATIONS OF MATLAB IN ELECTRICAL ENGINEERING”

#### REPORT

With an objective to acquaint the students with practical knowledge of MATLAB in their electrical systems, the Electrical and Electronics Department organized a Five-Day Value Added Course on “Applications of MATLAB in Electrical Engineering” from 28<sup>th</sup> August to 01<sup>st</sup> September 2017, at St. Anne's College of Engineering and Technology Panruti, organized by the Department of Electrical and Electronics Engineering. The course was handled by Mr. K. Sriram AP/EEE. The endeavor was successful in creating a learning environment for the students and also in providing hands-on experience in programming and modeling skills through MATLAB. The course has also provided a forum for interacting and sharing ideas among the faculty and opened new avenues for academic collaborative activities. The session areas are of great benefit to the participants as the topics were in line with the advanced and recently emerged domain of electrical engineering. Participants were enlightened about the most widely used advanced technologies in this domain, which could have triggered an innovative seed in the minds of the participants. The participants have also successfully practiced and done the simulation exercises given to them for practice. Last, when the house is open for questions, the participants raised challenging queries with questions of enthusiasm. They were aptly answered by the resource person. The course has not only helped the participants to improve their programming and modeling skills and it also helped them to develop intellectually. The value added course ended with the valedictory and certificates were distributed.

### DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

#### REPORT ON

#### VALUE ADDED COURSE ON

#### ANTENNA DESIGNING FOR WIRELESS COMMUNICATION

The Department of Electronics and Communication Engineering (ECE) in association with Electronics and Communication Scientia Association (ECSA) has organized a value added course on “Antenna designing for wireless communication” from 06.01.2018 to 11.01.2018.

#### Report:

The final year students of Department of Electronics and Communication Engineering had participated in the course. On the first day of the course, the students were taught about fundamental working principle of an antenna. On the second day students were separated into batches and started with Hands-on training. The students started working with implementation of different feeding technique. The students learnt to design the wire antennas, micro strip antennas, and dielectric resonator antenna with the help of the instructions given by the resource persons. Finally, the students gave their valuable feedback about their experience in course. The session ended in a fruitful manner with a vote of thanks.

## DEPARTMENT OF MECHANICAL ENGINEERING HYDRAULICS AND PNEUMATICS

### REPORT

The Department of Mechanical Engineering has organized a five days value added course on "Hydraulics and Pneumatics" from 14.08.2017 to 19.08.2017 for III Year Mechanical Students. The training session was handled by Mr. M. Athithan, Senior Production Engineer, TVS Sundaram Fasteners Limited, Puducherry. Sr. Josephine Marry, AP/MECH, and Mr. Jayakumar, AP/MECH of St. Anne's College of Engineering and Technology. In this training program are Introduction to fluid power symbols, basic pneumatics, electro pneumatics, hydraulics, and electro hydraulics circuits. This training course really expanded students' perspective. Totally 60 Students participated and certificate was provided to every student.

### DEPARTMENT OF SCIENCE AND HUMANITIES

#### “INTENSIVE ENGLISH TRAINING”

#### REPORT

With the objective of acquainting the students in order to improve the spoken English of the students, the Science and Humanities Department organized a Five-day value-added course on “**INTENSIVE ENGLISH TRAINING**” from 29<sup>th</sup> January to 03<sup>rd</sup> February 2018, at St. Anne's College of Engineering and Technology, Panruti. The workshop led by Mr. D. Sampath Kumar AP/English, A.R. College of Engineering and technology and Mrs. S. Bharathi AP/English, St. Anne's College of Engineering and Technology. The workshop is aimed to encouraging young engineers of St. Anne's CET to learn and explore spoken English skills to enhance their communication skills.

Our Resource Person, Mr. D. Sampath Kumar, who has been in the field of teaching English, conducted the session for students and made the students understand the importance and the need of spoken English. The session includes a theory and practical session in which students are given a topic and invited for discussion at the desk to motivate and encourage others. Students are also asked to participate in games specially designed by experts to enhance their English language vocabulary.

Mrs. S. Barathi AP/English in her session has provided guidance regarding topics like how to enhance vocabulary in the English language, how to find good literature to read, the importance of English writing to learn about the language and motivated students to increase their command over English speaking and remove stage fear while speaking English. Finally, the session was followed by participant's feedback and concluded with high-tea.

## DEPARTMENT OF SCIENCE AND HUMANITIES

### “INTENSIVE ENGLISH TRAINING”

#### REPORT

With the objective of acquainting the students in order to improve the spoken English of the students, for the students of EEE and Mechanical Department the Science and Humanities Department organized a Five-day value-added course on “**INTENSIVE ENGLISH TRAINING**” from 05<sup>th</sup> to 09<sup>th</sup> February 2018, at St. Anne's College of Engineering and Technology, Panruti.

The workshop led by Mr. D. Sampathkumar AP/English, A.R. College of Engineering and Technology and Mrs. S. Barathi AP/English, St. Anne's College of Engineering and Technology. The workshop is aimed at encouraging young engineers of St. Anne's CET to learn and explore spoken English skills to enhance their communication skills.

During the workshop the whole students was divided into five groups. Each group will be focusing on one of the four basic language skills namely listening, speaking, reading and writing and the fifth group worked with communication skill. The main focus of the workshop was to develop material in form of a booklet to familiarize the children with the handy vocabulary so that they could make communication through second language in meaningful, interesting and real-life situation through the colorful visuals, pictures and graded content. Finally, the session was followed by participant's feedback and concluded with high-tea.
