DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

VALUE ADDED COURSE ON JAVA

REPORT

The Department of Computer Science and Engineering (CSE)) has organized a Value added course on "JAVA" from 12.10.2020 to 16.10.2020.

Report:

The students of Computer Science Engineering students had participated in the course. The course was conducted by Mr.T.Vellai Varanan, M.com, PGDCA, Technical Trainer, Comet Soft wares, Chennai.. The students learned the fundamentals of object-oriented programming in Java, including defining classes, interfaces, creating objects, invoking methods, using packages. In the course, Resource Person presented the various features and current opportunities in the field of Java. Hands on training also provided to the participants. Participants gained a familiarity with standard Java He concluded the session by explaining the scope for the tool and its various applications which would be helpful for our students in doing their projects. The entire session was very interactive and students were allowed to ask their queries during the whole session and they were benefitted by learning a new tool. Finally, the students gave their valuable feedback about their experience in course.

DEPARTMENT OF ELECTRICAL AND ELECTRONICS ENGINEERING

Product Development using Internet of things (IoT)

REPORT

The Electrical and Electronics Department hosted a five-day value added course on product development using the internet of things (IoT) from March 16 – 20, 2021, with the aim of familiarizing the students with the practical understanding of IOT in their electrical systems. The II & III Year Students took part in this value added course. Dr. G.R. Kanagachidambaresan, Associate Professor, Vel Tech Rangarajan Dr.Sagunthala R&D Institute of Science and Technology was in charge of the course. He instructed our pupils in the use of Raspberry Zero and Raspberry Pi for remote device control and wireless sensor interface. Additionally, he helped the students create Raspberry Pi programs using Python and Node Red. Additionally, he helped the students create Raspberry Pi programs using Python and Node Red. For our pupils, this value added course was a great eye-opener about the Internet of Things. Students got more self-assurance in creating IoT products based on their original ideas thanks to this value added course. Additionally, Dr. G.R. Kanagachidambaresan chose the top five students from this value added course for a 15-day internship training program on a DRDO/ISRO project.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

VALUE ADDED COURSE ON

PROGRAMMING ARDUINO USING TINKER CAD

REPORT

The Department of Electronics and Communication Engineering (ECE) in association with Electronics and Communication Scientia Association (ECSA) has organized a Value added course on "Programming Arduino Using Tinker CAD "from 10.03.2021 to 15.03.2021.

Report:

The Department of Electronics and Communication Engineering has organized a three days Value added course on "Programming Arduino using Tinker CAD" from 10.03.2021 to 15.03.2021 for IV Year ECE Students. Students were given hands on training. The students were trained in basics of electronic circuit design using TINKERCAD. Students were trained to control various devices using Arduino Uno virtually. This training program was really an eye opener for students. Students participated enthusiastically and created their own design using Tinkercad software.

DEPARTMENT OF MECHANICAL ENGINEERING
ALTERNATIVE ENERGY SOURCES
REPORT

The Department of Mechanical Engineering has organized a five days value added course on "Alternative Energy Sources" from 05.10.2020 to 09.10.2020 for II year and III year Mechanical Students. The training session was handled by Mr.R.Sasikumar,AP/MECH, Dr.D.Ommurugadhasan,HOD/MECH and Mr.K.Shanmuga Elango,ASP/MECH of St. Anne's College of Engineering and Technology. In this course the increased power demand, depleting fossil fuel resources and growing environmental pollution have led the world to think seriously for other alternative sources of energy. Basic concept of Alternative energy relates to issues of sustainability, renewability and pollution reduction. In reality alternative energy means anything other than deriving energy via fossil fuel combustion. This course greatly enhanced the perceptions of the participants. Totally 34 Students participated and certificate was provided to every student.

DEPARTMENT OF SCIENCE AND HUMANITIES

“MS WORD AND EXCEL”

Report

The Science and Humanities Department organized a Five-day value-added course on “MS WORD AND EXCEL” from 01st to 05th June 2021, at St. Anne's College of Engineering and Technology, Panruti in order to improve the basics of computer knowledge of the students,

The Session was led by Mr. S. Venuganan System Analyst, and Mr. S. Ashok Lab Technician, Department of Computer Science and Engineering, St. Anne's College of Engineering and Technology. The purpose of this workshop was to train the students to know how to use and be capable in Microsoft Office Programs.

Mr. S. Venuganan System Analyst discussed about the significance, important features and functions of MS Word. He trained the students through a live demo of working on MS Word. He helped students to clear their doubts and at the end of this session, an assignment (Prepare a Resume) was handed by him. In session-2, the Presentation of the Assignment was done by the students. Mr. S. Ashok analysed the assignments & suggested required corrections.

In the next session Mr. S. Venuganan discussed about significance, importance and need of MS PowerPoint in the present scenario. He trained the students in using different features and functions of MS PowerPoint through a live demo of working on MS PowerPoint. He also informed about different do's & don'ts while making PPT's and helped students to clear their doubts and at the end of this session an assignment (Future Classroom/ E-Teaching Aid) was handed by him. In session-4, the Presentation of the Assignment was done by the students. Mr. S. Ashok analyzed the assignments & suggested required corrections. Finally in the last day discussed about the significance and importance of MS Excel in teaching Careers. He trained the students through a live demo of working on MS Excel. He helped students to clear their doubts and at the end of this session, an assignment (Prepare a Result for 40 Students) was handed by him. The Workshop was highly interactive and extremely motivated the students. Finally, the participants gave feedback of this program and the program concluded with high-tea.
