### DESIGN OF RF COMPONENTS FOR RADAR APPLICATIONS

#### Objective:

The aim of the webinar is to provide a platform to the participant to grab knowledge in the field of Applied Electromagnetic in various applications and about the emerging technology of RF circuits

#### Course Content:

- Radar Measurements.
- Radar Range Equation.
- Propagation of RF Signals
- Radar Transmitter/Antenna/Receiver
- Radar Detection.
- How radars measure target range, bearing and velocity.
- How the radar range equation is used to estimate radar system performance including received power, target SNR and maximum detection range.
- System design and external factors driving radar system performance including transmitter power, antenna gain, pulse duration, system bandwidth, target RCS, and RF propagation.

#### About the Webinar:

The Webinar begins by describing how radar sensors perform critical measurements and the limitation of those measurements. The radar range equation in its many forms is derived, and examples of its applications to different situations are demonstrated. The generation and reception of radar signals is explained through a holistic rather than piecemeal discussion of the radar transmitter, antenna, receiver and signal processing. The course wraps up with an explanation of radar detection and tracking of targets in noise and clutter. The course is valuable to engineers and scientists who are entering the field or as a review for employees who want a system level overview. A comprehensive set of notes and references will be provided to all attendees. Students will also receive Matlab scripts that they can use to perform radar system performance assessments.

#### Outcomes:

The webinar will help to know how Radars are now used to help navigate ships in fog and airplanes in bad weather. Radar can detect a speeding car and track a satellite. Most importantly for meteorologists, radars can detect all sorts of atmospheric phenomena.

## REPORT ON RF COMPONENTS FOR RADAR APPLICATION

Department of Electronics and Communication Engineering & Electronics and Communication Scientia Association (ECSA) has organized a Webinar on Design of RF components for Radar Application on 03.10.2020 at 02:00PM. It was presented by Ms. G. Kanimozhi, M.E, Junior Research Fellow, DRDO, Chennai through Google meet platform. Nearly 40 students from IV, III & II Year ECE & 10 Faculty members has attended the event.

Antennas are the backbone of any wireless solution. In fact, antennas are the single most important electrical component to our daily lives as phones, cars, and computers, wearable's and even medical devices completely rely on them to talk with each other. This webinar provides an in-depth analysis of RF technology and students were really benefited by this webinar.

## REPORT

Department of Mechanical Engineering organized a webinar on “Renewable Energy for Sustainable Development in India” on 27.11.2020 Dr.Elammaram Jayamani, Senior Lecturer and Discipline leader for Mechanical Department, Swinburne University of Technology, Sarawak Campus. Malaysia. He was the resource person for this program. Via google meet. He explained lots of factors to the students as follows

Renewable energy sources play a vital role in securing sustainable energy with lower emissions. It is already accepted that renewable energy technologies might significantly cover the electricity demand and reduce emissions. In recent years, the country has developed a sustainable path for its energy supply

Sustainable energy, such as wind and solar energy, creates zero carbon emissions that can harm the atmosphere and contribute to global warming. It offsets the need for fossil fuels, which are actively increasing climate change and polluting our earth.

Renewable electricity projects and energy efficiency measures can improve health and reduce air pollution. Creating electricity from clean energy sources like wind and solar—and cutting energy demand—reduces the need for fossil fuel power generation.

### Benefits

- Less global warming.
- Improved public health.
- Inexhaustible energy.
- Jobs and other economic benefits.
- Stable energy prices.
- Reliability and resilience

Dear sir,

I am very glad to invite you as Resource Person for the webinar on "Materials for energy conservation" which is to be scheduled on 14<sup>th</sup> December 2020.

I request you to accept my requisition letter attached with this mail and send back acceptance mail.

Regards,  
Dr. John Peter,  
Head, Department of S&H,  
St. Anne's College of Engg. and Tech.

## REPORT:

Event Title: Webinar

Event Theme: "Materials For Energy Conservation"

**Description:** The Department of Science and Humanities had organized a webinar on "Materials For Energy Conservation". This lecture was conducted for students of First Year. Dr.A.John Peter, HOD & Professor in Physics gave brief introduction of Dr. R. Krishnan, Post-doc Research Associate, Department of Physics, University of the Free State, Bloemfontein-9301, Free State Province, Republic of South Africa and later on addressed the First year students regarding the topic. Later Dr. R. Krishnan interacted with the students and following Points where Discussed.

- Domestic energy consumption
- Efficient energy use
- Energy conservation law
- Energy crisis
- Energy monitoring and targeting
- Energy recovery
- Heat pump
- High-temperature insulation wool
- List of energy storage projects
- List of low-energy building techniques

**Start Date:** 14.12.2020

**End Date:** 14.12.2020

# REPORT

Department of Computer Science and Engineering and Computer Science Techxium Association (CoSTA) organized an International Webinar on “DEEP LEARNING” on 17<sup>th</sup> December 2020. Webinar was presented by Dr.FERDIN JOE JOHN JOSEPH, Ph.D., Lecturer, Faculty of Information Technology, Thai Nichi Institute of Technology, Bangkok. Webinar introduced about the concepts of Artificial Intelligence and Deep Learning.

The Webinar focused on Deep Learning in industries, the Importance of machine learning and deep learning, the Difference between artificial intelligence/ machine learning/ deep learning, etc. The main aim of this webinar was to enlighten the students about the world of Machine Learning and Deep Learning.

He also share about the Deep learning strategies and finding the best tool for DL.

Resource Person presented the webinar by giving practical examples based on his research findings. Nearly 90 students from Department of Computer Science and Engineering of our college actively participated in this knowledge gaining event and got benefitted.

## REPORT

Department of Computer Science and Engineering organized a webinar on “Networking Technologies” on 02.12.2020 for CSE students in our college. Webinar was conducted by Mr. S.Sivanesh, AP/CSE,CISCO Certified Instructor,Anna University,Trichirapalli. They started the session by giving introduction about basics of Network later they discussed about various networking tools. This webinar provided networking basics, taught by an experienced technical trainer.

Students learned about cabling, network protocols (including a close-up look at TCP/IP), network devices like hubs, switches, routers, firewalls, repeaters, gateways, and more. Students will learn how to create a secure network and avoid common network security mistakes. This networking Technology webinar had got students up to speed with practical tools and techniques that they can put to use right away to make their network run faster and more securely with fewer problems.

This webinar was presented with the goal to help students in academic studying environment to gain some industry-oriented training and deepen their understanding of networking technologies learned from textbooks and classroom lectures. It included network-device configuration, network topology design and setup, network packet analysis and network troubleshooting.

Finally They concluded the session by talking about real time applications. The entire session was very interactive and students were allowed to ask their queries during the whole session and they were benefitted a lot.

## REPORT:

**Event Title:** Webinar

**Event Theme:** "Ramanujan's Contributions To Mathematical World"

**Description:** The Department of Science and Humanities had organized a webinar on "Ramanujan's Contributions to Mathematical World". This lecture was conducted for students of First Year. Mr. V. Prakash, Associate Professor in Mathematics gave brief introduction of Dr. P. Julia Mary, MSc., M.Phil., SET., PhD., Assistant professor in Mathematics, St. Joseph's college(Autonomous), Trichy and later on addressed the First year students regarding the topic.

Later Dr. P. Julia Mary interacted with the students and following Points were Discussed.

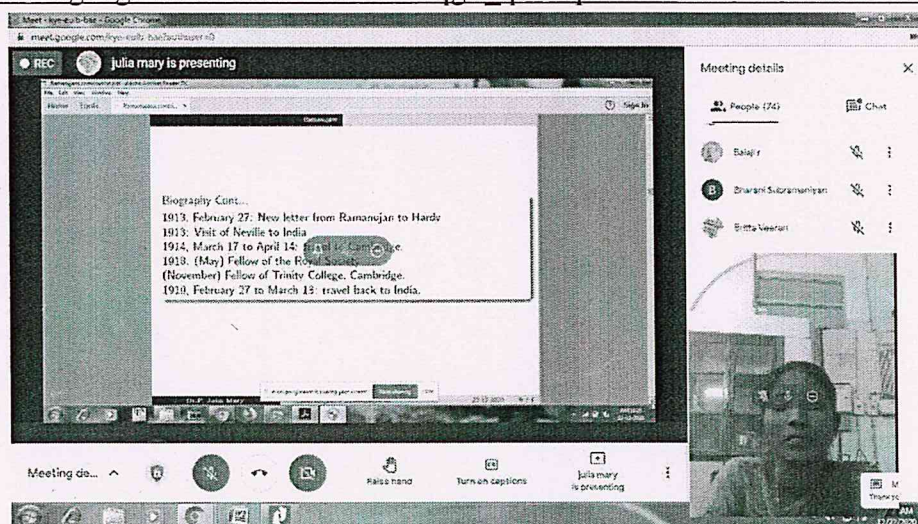

- Early life of Ramanujan
- Adulthood in India
  - ✚ Pursuit of career in mathematics
  - ✚ Contacting British mathematicians
- Life in England
  - ✚ Illness and death
  - ✚ Personality and spiritual life
- Mathematical achievements
  - ✚ The Ramanujan conjecture
  - ✚ Ramanujan's notebooks
- Hardy–Ramanujan number 1729
- Mathematicians' views of Ramanujan
- Posthumous recognition
- In popular culture
- Further works of Ramanujan's mathematics
- Selected publications on Ramanujan and his work
- Selected publications on works of Ramanujan

**Start Date:** 22.12.2020

**End Date:** 22.12.2020

## REPORT

Department of Computer Science and Engineering has arranged an Webinar on “WordPress” for III Year CSE students. Webinar was presented by Ms.V.Britta Devi, M.Tech.,AP/CSE, St.Anne’s College of Engineering and Technology, Panruti on 27.03.2021 between 11:50 a.m. to 12.50 pm. The webinar was conducted through Google Meet platform with the ID: szhtvyygpy. Presentation regarding Wordpress made the students to learn more about how to create blogs and websites of their own by using WordPress tool effectively and easily.

Focusing on the niche she helped them to build their own awesome blogs . It was an interactive webinar where you get to build amazing blogs on the top of Word-Press. Blogging is not all about content writing. A focus on the backend processes and hosting solutions for students and starters was included.

It also included designing and customization of Word-Press themes for start up. This also included a well-documented package of responsive layout framework and in-depth analysis and real-time working on the Search Engine Optimization (SEO) and Search Engine Marketing (SEM) to optimize blog. All students were very much benefitted by this webinar.

## REPORT

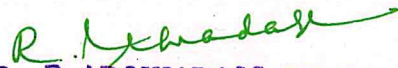

Department of Computer Science and Engineering has arranged an Webinar on “LaTeX” for II Year CSE students. Webinar was presented by Dr. A. Azhagappan, Ph.D., Prof./S&H, St. Anne’s College of Engineering and Technology, Panruti on 27.03.2021 between 11:50 a.m. to 12.50 pm. The webinar was conducted through Google Meet platform. Presentation regarding LaTeX made the students to learn more about how to write research articles by using LaTeX tool effectively and easily.

Presentation regarding LaTeX made the students learn more about how to write research articles by using LaTeX tool effectively and easily. Every student edited IEEE research paper on Latex and gain how to insert image, sub images, equation, table, cross reference in research paper. Now they can insert all these confidently in any kind of latex format of IEEE, Elsevier and Springer.

Also they learn how to make resume in different Latex format. Students experienced hands-on practice learning sessions through which they got a better understanding of the LaTeX tool and its applications. The content delivery was as per the needs of every student along with interaction. As part of the practical session explained how one can write mathematical equations easily in LaTeX.

She explained in detail about the Basics of Equations, Math mode, Mathematical Symbols, Sample codes, Brackets and braces. He also explained how the sections, tables, bibliography, etc are created in LaTeX and how Beamer can be used for preparing the power point presentation. All students were very much benefitted from this webinar. All students were very much benefitted by this webinar.

## REPORT

Department of computer science and engineering conducted Webinar on " GUIDELINES FOR GATE PREPARATION" presented by Ms.Sujithrasanthakumari.P, Assistant Professor/CSE through online with google meet id: tmz-dpjc-oci on 17-04-2021 between 11:00 AM to 12:00 noon. Students from II,III,IV year were attended this event. She spoke on the pattern of examination and scheme of marking at the GATE exam. She also enlightened the students on the various training centers present in India for GATE coaching and also shared some of her experiences on joining such classes.

In the present competitive scenario, where there is mushrooming of universities and engineering colleges, the only yardstick to measure and test the caliber of engineering students is the GATE. There is a misconception among students that GATE exam is meant for ME./M.Tech which finally leads to a teaching career only.

Many public sector undertakings such as BHEL, Indian Oil Corporation, NTPC, Bhabha Atomic Research Centre (there are PSUs totalling 217 in number) are using the GATE score for selecting candidates for their organisations. Students who qualify in GATE are entitled to a stipend of Rs 8,000 per month during their M.Tech course. Better remuneration is being offered for students of M.Tech/M.E as compared to those pursuing B.Tech /B.E. A good GATE rank assures a good job. After joining M.Tech. at IITs and IISc, one can look at a salary package ranging from Rs 7 lakh to 30 lakh per annum, depending upon specialisation and performance.

All students were benefitted by this event.

### Basics of Embedded Systems

#### Objectives:

- Understand the basics of an embedded system.
- Understand the typical components of an embedded system.
- To understand different communication interfaces.
- To learn the design process of embedded system applications.
- To understand the RTOS and inter-process communication.

#### Course Content:

- Introduction to Embedded Systems
- Typical Embedded System
- Communication Interface
- RTOS Based Embedded System Design
- the design process of embedded system applications

#### Outcomes:

Upon completion of this course, the students will be able to:

- Understand the design process of an embedded system
- Understand typical embedded System & its components
- Understand embedded firmware design approaches
- Learn the basics of OS and RTOS

## REPORT

# Workshop "BASICS OF EMBEDDED SYSTEMS"

The Department of Electronics and Communication Engineering (ECE) in association with the Electronics and Communication Scientia Association (ECSA) has organized a one-day online workshop "BASICS OF EMBEDDED SYSTEMS " on 01st May 2021. The aim of the workshop was to introduce the term embedded system. Around 40 students and our department faculties had participated in the workshop. The workshop started with a welcome address by Mrs. D. Umamageswari, Associate professor /ECE. The technical session was started by Mr. B. Arunkumar, AP/ECE with the evolution of Embedded systems from microprocessor and microcontrollers and introduction to Embedded systems. Students gained knowledge about the basics of Embedded systems and recent technology in Embedded systems and coding in Embedded systems using 'C' language using KEIL IDE. Next, the session was continued by Mr. S. Balabasker ASP/ECE. He gave a great explanation about embedded programming. The students gained knowledge in programming in Arduino UNO using the C language. He also discussed various applications of Embedded systems and various job opportunities in Embedded systems for ECE students across the world. The workshop was concluded with a vote of thanks by Miss. M. Sahinipriya, AP/ECE. E-certificate were provided to all participants who have attended the workshop.

### Some Wanderings in Medical informatics and Biometrics with Machine Learning and Deep Learning Some Baby Steps

#### Objective:

- To understand the basic theory underlying machine learning.
- To be able to formulate machine learning problems corresponding to different applications.
- To understand a range of machine learning algorithms along with their strengths and weaknesses.
- To be able to apply machine learning algorithms to solve problems of moderate complexity.
- To apply the algorithms to a real-world problem, optimize the models learned and report on the expected accuracy that can be achieved by applying the models.

#### Course Content:

- Overview of machine & deep learning
- Machine learning:
- Supervised & unsupervised algorithms
- Deep learning
- Deep neural networks (DNN)
- Convolutional neural networks (CNN)

#### Outcomes:

After completing this course, the student will be able to

- Appreciate the importance of visualization in the data analytics solution
- Apply structured thinking to unstructured problems
- Understand a very broad collection of machine learning algorithms and problems
- Learn algorithmic topics of machine learning and mathematically deep enough to introduce the required theory
- Develop an appreciation for what is involved in learning from data.

About the Congregation of the Sisters of St. Anne  
 Trichy

The Congregation of Sisters of St. Anne of Tiruchirapalli had its origin in the 19<sup>th</sup> century. Rev. Mother Annammal was the foundress of the Congregation, the marvelous beginner of this record in the history of womanhood. She had experienced the presence of God among the poor and the suffering people. The members of this Congregation always strive to live up to the charism of the foundress "Simplicity in life and Service to the poor" for the past 163 years. Being concerned with the upliftment of the poor and the socially backward, their ministry has taken different dimension in the involvement of our multifarious activities, namely, Evangelical, Educational, Social and Medical with an explicit involvement in working for the differently abled. As part of their educational ministry especially to work for the youth, they have started this esteemed institute.

About the Institution

St. Anne's College of Engineering and Technology, is an ISO certified institution, was established in the year 2009 - 2010

Our aim is to give hope and dignity through education by which character is formed, strength of mind is increased, intellect is expanded and also by which one can stand on one's feet. We train the youth to see the good in every human being and to take the best out of each individual, to inculcate a sense of values in every student and to help every person to promote justice, peace and love in society.

St. Anne's College of Engineering and Technology is approved by AICTE, New Delhi and affiliated to Anna University, Chennai. It is situated at Anguchettypalayam, near Panruti. The surrounding will provide opportunities for our students both for training and employment. Our students can reap the benefits from this Institute with proper coordination. Anna Velankanni Polytechnic College which is situated at Anguchettypalayam has also got a rapid growth in the last 12 years under the management of the sisters of St. Anne, Tiruchirapalli.

About the Conference

In recent days, research and development in Science, Engineering and technology has changed the techniques adopted in real time applications. International Conference on Research and Development in Science, Engineering and Technology' 2021 (ICRDSET 2021) is organized at St. Anne's College of Engineering and technology, aims to bring together innovative academicians, researchers and industrial experts to a common forum. It is to promote scientific information interchange between practitioners working in and around the world. The conference is an ideal platform for people to share views and experience in Recent Advances in Science, Engineering and Technology related areas and to explore the avenues for future work.

**CONFERENCE THEMES**

Computer Science

1. AI and Deep Learning.
2. Big Data Analytics
3. Cloud and Green Computing
4. Cyber Security
5. IoT and Networking
6. Soft Computing
7. Image processing
8. Robotics
9. Social media networks
10. Parallel and distributed system

Electrical and Electronics

1. Power Electronics ii. Power System
2. Power Converters for Renewable Energy System
3. Hybrid Electric Vehicles
4. Soft Computing Techniques
5. Process Control and Industrial Automation
6. Smart Grid Technologies and its Applications
7. Power System Restructuring and Deregulation
8. Energy Management and Auditing
9. Renewable Energy Engineering
10. Variable Frequency Drives

### Electronics and Communication

1. Audio/ Video/ Medical Signal processing
2. Internet of Things
3. Smart Antennas
4. Smart Agriculture/ Infrastructure/ health sector
5. MEMS/NEMS
6. Smart Wearable Devices
7. Advance Robotics
8. 4G/5G Wireless Communications and Networks
9. Embedded, Robotics & Automation Systems
10. Green Communications/Energy Harvesting

### Mechanical

1. Fluid structure interaction and flow control
2. Composites, smart, nano and micro - materials
3. Materials behaviour, forming and processing
4. Automotive engineering, transporting systems and multi body dynamics
5. Manufacturing process, technology and simulation
6. Manufacturing process and ergonomics
7. Recycling, materials and industrial wastes, products and recycling systems
8. Mechanics of applied - statics and dynamics
9. Robotics and Mechatronics
10. Intelligent materials and structural mechanics

### Engineering Science

1. New functional materials
2. Emerging nano science
3. Renewable energy engineering
4. Energy storage technology
5. General mathematical research
6. Probability and statistics, game theory
7. Mechanism of technical innovation and the formation of engineering foresight
8. Philosophy of science and technology
9. Project management methodology in engineering
10. Heuristic methods in making of engineering decisions

### Paper Submission

Authors are invited to submit full length paper in the prescribed format available in the conference website. All the submitted papers will be peer reviewed and published in the conference proceedings with ISSN Number.

There is no registration fee for participating in the conference.

Selected papers will be published in the following SCI indexed journal (Anna university Annexure - I Serial No.6667) which will follow the editorial policy of the concerned journal.

### SCI Indexed Journal

1. Journal of Information Science and Engineering.

### Important Dates

Submission of full paper : 20-02-2021  
Intimation of acceptance : 25-02-2021  
Registration : 28-02-2021

### Organizing Committee

#### Chief Patron

Rev. Mother Reginal, SAT,  
Superior General.

#### Patron

Rev. Dr. Sr. Y. Yesu Thangam,  
Secretary,  
St. Anne's CET.

#### Organizing Chair

Dr. R. Arokiadass,  
Principal,  
St. Anne's CET.

#### Organizing Secretary

Sr. Punitha Jit,  
Vice Principal & HOD/CSE,  
St. Anne's CET.

#### Convenor

Dr. Sr. S. Anita,  
HOD/ ECE  
R&D Cell Convenor  
St. Anne's CET.

#### Steering Committee

Dr. D. Ommurugadhasan, HOD/ MECH.  
Dr. A. John Peter, HOD/ S&H.  
Mr. V. C. Eugin Martin Raj, HOD/ EEE.

### International/ National Advisory Committee

**Dr. Sarayut Nonsiri,**  
Thai-Nichi Institute of Technology,  
Bangkok.

**Dr. G. R. Kanagachidambaresan,**  
Veltech Rangarajan Dr. Sagunthala  
R&D Institute of Science and Technology,  
Chennai, Tamilnadu.

**Dr. Muhammad Rafiq Mirza Bin Julaihi,**  
Swinburne University of Technology  
Malaysia.

**Dr. Venkatesh Balasubramanian,**  
Indian Institute of Technology Madras,  
Chennai, Tamilnadu.

**Dr. Xavier Fernando,**  
Ryerson University,  
Toronto, Canada.

**Dr. S. Umashankar,**  
Prince Sultan University,  
Saudi Arabia.

**Dr. Dawit H. Demissie,**  
University at Albany,  
State University of New York (SUNY).

**Dr. Hiroaki Satoh,**  
Shizuoka university,  
Japan.

**Dr. V. Sittakul,**  
King Mongkut's University of Technology,  
Bangkok.

**Dr. A. Ananth,**  
University of Saskatchewan,  
Canada.

**Dr. S. Balakumar,**  
Arba Minch University,  
Ethiopia.

**Dr. C. Nithyananthan Kannan,**  
King Abdulaziz University,  
Saudi Arabia.

**Dr. P. Aruna Priya,**  
SRM Institute of Science and Technology,  
Chennai, Tamilnadu.

**Dr. P. Yogesh,**  
Anna University,  
Chennai, Tamilnadu.

**Dr. M. Pheemina Selvi,**  
University College of Engineering Villupuram,  
Tamilnadu, India.

**Dr. Ranjith Kumar Shaoa,**  
National Institute of Technology,  
Orissa, India.

**Dr. Dineshsingh Thakur**  
Defence Institute of Advance Technology,  
DIAT(Deemed university),  
Pune, India.

**Dr. N. V. Nanjundaradhya,**  
R. V. College of Engineering,  
Mysore, Karnataka, India.

**Dr. B. Balakrishna,**  
University College of Engineering Kakinada,  
Andhrapradesh, India.

**Dr. S. Kalaiselvan,**  
Alagappa College of Technology,  
Anna University, Chennai, Tamilnadu, India.

**Dr. Saravana Kannan Thangavelu,**  
Swinburne University of Technology,  
Malaysia.

**Dr. P. Kanakasabai,**  
Salala College of Technology,  
Oman.

**Dr. B. Vijayaraj,**  
AL Musanna College of Technology,  
Oman.

**Dr. Metin Guru,**  
Gazi University Engineering,  
Turkey.

**Dr. Zahru' Fauadi,**  
Syiah Kuala University,  
Indonesia.

**Dr. R. Gayathri,**  
Annamalai University,  
Tamilnadu, India.

**Dr. K. Suganya Devi,**  
National Institute Of Technology Silchar,  
Assam.

### Address for Communication

**Dr. Sr. S. Anita,**

Convenor,

ICRDSET 2021.

St. Anne's College of Engineering and Technology,

## INTERNSHIP

**EASYTHINGS TECHNOLOGY PVT. LTD.**

**15.04.21-30.04.21**

### Objective

The main objective of the internship is to learn the technologies using IoT.

### Outcomes

- Students learn the new IoT technology for various applications.
- Learn to apply IoT for a particular application “Vibration based tool wear monitoring for Industry 4.0”.
- Develop a prototype for the application.

**Dear St. Annes students**

Greetings, I am happy to provide you an internship opportunity in my research lab on your preferred date 15 days The internship tasks will monitoring and measuring the vibration and noise of the nozzle of the water jet machine and predicting the wear and tear. Internship students should follow the institution's norms during their internship time.

Note: This is a non-paid internship involving no money from both sides.

Let me know your confirmation through reply.

**Thanks in advance.**

**Dr. G. R. Kanagachidambaresan,**  
Principal Investigator, ISRO, DBT funded projects.  
Vel Tech Research Park.

## INTERNSHIP IN EAZYTHINGS PVT. LTD.

(15.4.2021-30.4.2021)

We had an internship on “**Vibration based tool wear monitoring for industry 4.0**”.

In this internship we did a prototype model for the project entitled. In this Prototype, we used MPU6050 Motion sensor, proximity sensor, Arduino Nano, sound monitor and jumpers. The Arduino Nano contains over all code like comment, Control, input and output and motoring the Nozzle wear.

We completed this Prototype in a month.

We got an experience about sensors and their technology. We gained knowledge about industrial projects. In this project our mentor motivated us a lot to do effectively within a stipulated time period.

By this project in industrial technology, we came to know that we should satisfy the customers' expectations also.

Through this internship, apart from the technical knowledge we learned the skills like

- Time management
- Working skills
- self-learning
- Team work

### Electronic Circuit Design in E-Sim

#### Objective:

The aim of the workshop was to design electronic circuits using Electronics Simulation (E-Sim) software and to gain hands on experience in designing electronic circuits and perform simulations.

#### About E-Sim:

E-Sim is a CAD tool that helps electronic system designers to design, test and analyze their circuits. But the important feature of this tool is that it is open source and hence the user can modify the source as per his/her need. The software provides a generic, modular and extensible platform for experiment with electronic circuits. This software runs on all Ubuntu Linux distributions and some flavors of Windows. It uses Python, KiCad and Ngspice.

#### Outcomes:

Learn how to develop and employ circuit models for elementary electronic components, e.g., resistors, sources, inductors, capacitors, diodes and transistors. Gain an intuitive understanding of the role of filter design, amplifiers, diode and rectifier circuits.

## Electronic Circuit Design in E-Sim

### COURSE CONTENT:

- ✓ Workshop Contents Getting Started with E-sim
- ✓ Introduction to E-sim Software and installation process.
- ✓ Explanation of step by step design process.
- ✓ Explanation of various process like EESchema, Kicad to NGSpice conversion and simulation.
- ✓ Designing of analog electronic circuits, conversion of file and simulation process

### PROGRAM SCHEDULE:

DATE	SESSION	TIME	TOPIC
11/07/2020	I	9.15 AM – 11.00 AM	Introduction to E - Sim software
<b>TEA BREAK(11.00 AM to 11.15 AM)</b>			
11/07/2020	II	11.15AM - 12.35PM	Design of RL,RC,RLC circuits
<b>LUNCH BREAK (12.35 PM to 1.15 PM)</b>			
11/07/2020	III	1.15 PM - 2.55 PM	Design of BJT amplifier circuits
<b>TEA BREAK(2.55 PM to 3.05 PM)</b>			
11/07/2020	IV	3.05PM - 4.45PM	Design the digital circuits MUX, Logic Gates

**Duration:** The duration of this workshop will be one day with 6 hours session

## REPORT

The objective of this workshop is to enhance student's practical & technical skill and to make them compatible with industry. To fulfill this, the department of Electronics & Communication Engineering has organized one day workshop on "Electronic circuit design in E-Sim" by Mrs. D. Umamaheswari, Asso. Professor & Mr. S. Durairaj, Asst. Professor for 2nd year ECE students held on 11<sup>th</sup> July 2020. The workshop was aimed to provide knowledge about simulation of electronic circuit in E-Sim software, implementation of electrical and Electronic circuit. They started with introduction of E-Sim, benefits of the using E-sim and its applications. They explained that before directly implementing the circuit, it is necessary to simulate it on software, so when the circuit is being performed on bread-board, it becomes easier. They explained schematic design of circuit on software E-Sim and pointers to make precise schematic design. basic circuits were taken like Full wave bridge rectifier, Dual power supply, Active filters and so on. They designed and explained the many circuits on E-Sim and simulated at the end. At the end of the workshop, there was a feedback session, in which students gave their genuine feedback of the workshop. Students actively participated in this workshop and requested for more such workshops and industrial visit in the similar way to gain more practical skills.

ANGUCHETTYPALAYAM, PANRUTI – 607 106

### Objective:

This HTML workshop is used to create Web pages and tells the browser how to display them. It designs the basic layout and formatting of Web pages. HTML is made up of elements or tags and attributes which work together to identify document parts and tell the browser how to display them.

### Outcomes:

To develop the ability to logically plan and develop web pages. To learn to write, test, and debug web pages using HTML.

## REPORT

Department of Computer Science and Engineering organized a workshop on "HTML web page creation" on 24.04.2021 in google meet platform. Workshop was conducted by Mrs.Z.Asmathunnisa, AP/CSE for both II and III year CSE students. Workshop revealed the students about basic structure of HTML document ,various HTML tags, tools for creating web pages. Creating hyperlinks adding colors and images to web pages are also practiced to the participants of the workshop. All students benefitted from this workshop.

## REPORT

Department of Computer Science and Engineering has organized a Online Workshop on “MS Package” in google meet platform using the google meet id :fxx-fhif-vsn on 30.04.2021 between 10.00am and 11.00 am. Workshop was conducted by Mr. N.Kumar,AP/CSE for II year CSE students. Workshop dealt with MS Word,MSpowerpoint and MS Excel. All important and basic points regarding using these 3 applications were discussed in detail by the resource person. Assignment were assigned to the students to make them very familiar in the various topics discussed. All students were really benefitted by this workshop.

Office on the web is a free lightweight web version of Microsoft Office and primarily includes three web applications: Word, Excel and PowerPoint.

The offering also includes Outlook.com, OneNote and OneDrive which are accessible through a unified app switcher. Users can install the on-premises version of this service, called Office Online Server, in private clouds in conjunction with SharePoint, Microsoft Exchange Server and Microsoft Lync Serve

The feedback of the participants was very positive and motivational for the organizers. The participants felt very happy for conducting the MS Office workshop which is very useful for them in Day-to-Day activities. They have learned a lot on MS Office in both theoretical and practical manner. They said that this program was very useful and helpful for them in their works and career also. All the participants appreciated the sessions by our Resource Person and the arrangements made by the organizers.

### Latex

#### Objective:

This LaTeX workshop was created to make it easier to produce general-purpose books and articles within TeX. Because LaTeX is an extension to the TeX typesetting system, it has TeX's ability to typeset technical documents that contain complex mathematical equations. This feature made LaTeX popular with scientists and engineers.

#### Outcomes:

After completion of workshop to makes the mathematical typeset easily.

## REPORT

Department of Computer Science and Engineering has arranged a Webinar on “LaTeX” for III Year CSE students. The webinar was presented by Mrs.E.Indhuma, AP/CSE, St.Anne’s College of Engineering and Technology, Panruti on 30.04.2021 between 10:00a.m. to 11.00 pm. The webinar was conducted through Google Meet platform with the ID: szhtvyygpy. Presentation regarding LaTeX made the students learn more about how to write research articles by using LaTeX tool effectively and easily. Every student edited IEEE research paper on Latex and gain how to insert image, sub images, equation, table, cross reference in research paper. Now they can insert all these confidently in any kind of latex format of IEEE, Elsevier and Springer.

Also they learn how to make resume in different Latex format. Students experienced hands-on practice learning sessions through which they got a better understanding of the LaTeX tool and its applications. The content delivery was as per the needs of every student along with interaction. As part of the practical session explained how one can write mathematical equations easily in LaTeX.

She explained in detail about the Basics of Equations, Math mode, Mathematical Symbols, Sample codes, Brackets and braces. He also explained how the sections, tables, bibliography, etc are created in LaTeX and how Beamer can be used for preparing the power point presentation. All students were very much benefitted from this webinar.
