To: stannescet@gmail.com

Dear ganapathy:

Thank you for licensing your Xilinx® software or IP core product. This email confirms your product registration and includes the license file to enable your product.

The license file can also be obtained by returning to the Xilinx Product Licensing Site:

<http://www.xilinx.com/getlicense>

For complete instructions on installing this license file, see the ISE Design Suite 12: Installation, Licensing, and Release Notes document on the Xilinx web at:

English: http://www.xilinx.com/ise/notes_eJapanese: http://www.xilinx.com/ise/notes_j

Quick-Start License Installation Instructions

Node-locked Licenses:

These steps will copy your license file to the appropriate default directory (the .Xilinx directory under your home drive - typically HOMEDRIVE= C: for Windows).

1. Save the attached license file to your desktop or some other folder on your computer
2. Run the Xilinx License Configuration Manager
Windows: Run 'Manage Xilinx Licenses' from Xilinx ISE Design Suite 12 program group
Linux: Type 'xlcm' in a command-line window
3. Select the 'Manage Xilinx Licenses' tab and click on the 'Copy License...' button
4. Browse to the downloaded license file and click 'Open'

Note: IP licenses generated from the Xilinx Product Licensing Site are designed to be used with both ISE Design Suite 12, 11 and 10.1 IP. If IP licenses are to be used with a 10.1 ISE Design Suite software installation, the license file should be copied to .Xilinx\Coregen\CoreLicenses. ISE 10.1 software looks in this location for IP licenses.

Floating Licenses:

- If you have an existing FLEXnet floating license server, it may be easiest to simply copy the license keys in the attached file into the license file you are already using with your license server

Note: Please restart your floating license server to allow the changes to take effect

- If you are setting up a FLEXnet floating license server for the first time, please see the ISE Design Suite 12: Installation, Licensing, and Release Notes for more detailed directions
