DATE: 16-02-2021

PLACE: Irular village, A.C Palayam

The NSS unit of St. Anne's College of Engineering and Technology, Anguchettypalayam, Panruti, was organized a programme on bank passbook opening for village people at irular village, A.C Palayam on 16.02.2021. Dr. S. Anita, Associate Professor & Head/ECE and the volunteers are participated actively in the camp and help to the people for opening savings bank account in the BANK OF BARODA. The biggest problem in rural India with concerns of finances is that they do not have the financial stability to maintain a bank account which requires some service fees and a minimum balance account. With the other concerns related to proper documents, these people might not even know their date of birth. So, how do these people open or maintain a bank account. The answer is Zero Balance Account through PM Jan Dhan Yojana, launched to aid people who cannot afford a regular savings bank account. The zero balance account through PMJDY scheme has opened for village people. And also the Bank Manager explained about the various government schemes for irular communities.

CLEANING AND PAINTING PROGRAM

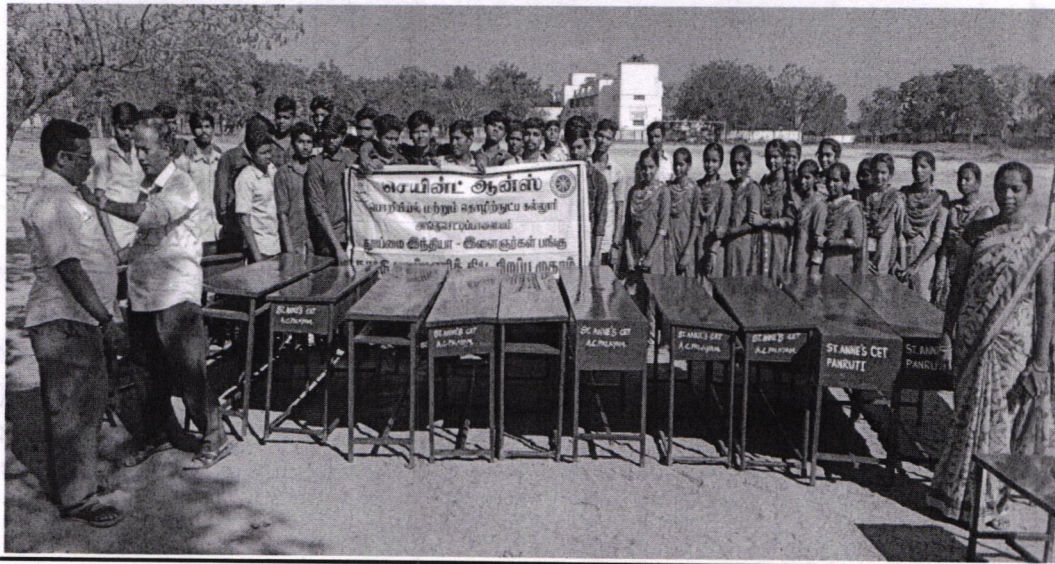

(Creating awareness on waste disposal)

REPORT

DATE: 06-03-2021

PLACE: Government Higher Secondary School, Thirunavalur.

The National Service Scheme (NSS) of St. Anne's College of Engineering and Technology conducted a one day camp on **creating awareness on waste disposal (degradable and non-degradable separately) and cleanliness** at Thirunavalur, on 6th March, 2021. The NSS Programme Officers, faculty members and the NSS volunteers actively involved in cleaning the Government Higher Secondary School premises and its surroundings. The volunteers collected the plastic and other wastes thrown by people and the school students and created awareness among the students and villagers on the importance of cleanliness, removal of all wastes and place them in the respective places. The volunteers also removed the mesquite plants from the school premises which reduce the herbaceous resources and dries the land by sucking the ground water. They painted the desks and benches in the school and carried out to create an awareness on keeping the campus clean and green. This camp instilled in the volunteers and the school students not only to preserve nature by planting trees and protecting them but also to maintain cleanliness in the surroundings. The school authorities appreciated the work of the volunteers and thanked them.
