Tree Planting Programme on the 6.11.2019

- St. Anne's College of Engineering and Technology successfully completed the event of “Tree Planting and Campus Cleaning” under the National Service Scheme(NSS) on the college campus on Friday, the 24th September,2021,which is celebrated as“NSSDay”.We need oxygen for our life and trees are the foremost source of oxygen. Furthermore, trees help reduce the level of CO₂. We all know that the wholeworld is facing the problem of global warming. In order to recover from such a problem, planting trees has become one of the most important aspects of today. The event was begun with the Welcome Speech by the NSS Officer, Mr. J. Ramesh, AP/EEE, and then we all moved towards the place where planting trees took place. First of all, our Secretary, Rev. Sr. Dr. Y.YesuThangam, planted a tree in our College premises and then our Principal, Dr.R. Arokiadass, planted a tree. Our Vice-Principal, Sr. Punitha Jilt, also planted a tree. The total number of trees planted by all others including the staff members, volunteers and students was more than 100 on the day. Then, all the NSS Volunteers and students were engaged in campus cleaning programme. The NSS Officer divided the NSS Volunteers into several groups. Members from each group were allocated with a particular area for cleaning. Three groups were asked to collect all the stones from the ground separately indifferent sacs. The degradable organic waste such as dry leaves and twigs and non-degradable waste such as carry bags and other plastic items were collected separately. The collected degradable waste was burnt. At the end, the NSS Volunteers were happy and they were very proud of planting trees on the campus.

iii) Dengue and Corona health awareness

On 17.12.2021, the Chief Guest, Mr. Bharathi, Health Analyst, Medical Team, Oraiyur, gave a valuable talk on „Dengue and Corona health awareness“. He said that Dengue fever is a mosquito-borne tropical disease caused by the dengue virus. Symptoms typically begin three to fourteen days after infection. These may include a high fever, headache, vomiting, muscle and joint pain, and a characteristic skin rash. Recovery generally takes two to seven days. He suggested to use insect repellent, wear long-sleeved shirts and long pants, and control mosquitoes inside and outside the home to protect against dengue mosquito bites. He also advised about the precautions to prevent the spread of COVID-19 by maintaining hygiene and washing hands frequently, especially if travelled by public transport then use an alcohol sanitizer and wearing a mask (cover the nose and mouth). Finally, our NSS Volunteers undertook a rally on „Dengue Awareness“.
