DATE:10.02.2024

To,
Mr. Pravir Kumar
Chief Executive Officer
Rubicon Skill Development Pvt. Ltd., Pune

Dear Sir/Madam,

We are writing this letter to express our heartfelt gratitude for the successful delivery of "3 Day **Life Skills training program",** conducted from **08.02.2024 to 10.02.2024.** by Rubicon Skill Development Pvt. Ltd., Chennai for all the Third and Final year Students (BE CSE, EEE, MECH, ECE). The training program had a significant positive impact on our students, and we are truly grateful for your expertise and dedication in making it a resounding success.

Your organization's commitment to excellence was evident throughout the entire duration of the training program. The sessions were meticulously planned, and the delivery was engaging, informative, and highly beneficial. The comprehensive nature of the program ensured that our students acquired essential soft skills and developed a deeper understanding of their importance in professional and personal growth.

The trainers and facilitators involved in the program were exceptional. They demonstrated a deep understanding of the subject matter and employed interactive teaching methods that captivated our students' attention. The trainers' ability to create an inclusive and supportive learning environment allowed participants to comfortably engage in discussions, ask questions, and share their thoughts and experiences.

Once again, we would like to express our sincere gratitude to you and your organization for delivering such an outstanding Life Skills training program. We highly value our partnership with your organization, and we look forward to collaborating on future training programs.

We extend our best wishes to you and your organization for continued success in all your endeavors.

Yours sincerely,

Sub: Requisition of acceptance life skill and Aptitude Training for our students- Reg.
I am Dr. D. Ommurugadhasan, Placement Officer, St Anne's College of Engineering and Technology, Anguchettypalayam, Panruti, Tamilnadu, planning to organize life skill training commencing (18.1.2024 to 22.1.2024) for duration of about 4days for final year students.

With regards to the above matter, I am writing to seek life skill and Aptitude training for our students (259 in total) for placement from your organization. If you accept our request kindly give female trainers for the training. From our side we will provide accommodation, food and pickup and drop to the nearest bus stand or railway station.

.

COMMUNICATIVE ENGLISH FOR BEGINNERS

SANCET

COMMUNIVATIVE ENGLISH TEXT BOOK

Tel: 04142 - 241661,242661 Email: contact@stannescet.ac.in Fax: 04142 - 241661

About the booklet...

The lexical approach to second language teaching has received interest in recent years. The lexical approach concentrates on developing learners' proficiency with lexis, or words and word combinations.

In this booklet, are 6000 most commonly used words in English, ranked in frequency order. The first 25 words make up about a third of all printed and spoken material. The first 100 make up about half of all written and spoken material, and the first 300 make up about 65 per cent of all written and spoken material. With 2,500 to 3,000 words, you can understand 90 per cent of everyday English conversations, English newspaper and magazine articles, and English used in workplaces. The remaining 10 per cent you will be able to learn from context, or ask questions about. Is it any wonder that all students must learn to recognize these words instantly and to spell them correctly? Originally, the verbs given in this book formed part of the list of the 6000 frequently used words. In order to present all the verb forms, the verbs have been grouped and presented separately.

The above list is based on an analysis of the Oxford English Corpus of over a billion words, and represents a study done by Oxford Online, associated with the Oxford English Dictionary. This source includes writings of all sorts from "literary novels and specialist journals to everyday newspapers and magazines and from Hansard to the language of chatrooms, emails, and weblogs".

After the list of vocabularies, a list of frequently used sentences, are presented. Instruction focuses on relatively fixed words and expressions that occur frequently in spoken and written language, such as, "I'm sorry," "I love you" or "That will never happen again," rather than on originally created sentences.

Few graded reading texts are given topractice and to check one's comfort level of (loud)reading and comprehension ability.

Reading and listening to authentic English material would greatly enhance word power and knowledge of collocations. A constant reading and practice would enhance proficiency in English.

All the best

COMMUNICATION SKILL AND LANGUAGE PROFICIENCY

The communication skill and language proficiency cell in association with SANCET have arranged five days' workshop on **"Intensive English language training"** for First Year students from 06.05.2024 to 10.05.2024.

Objective:

- To make the students confident of speaking in English impeccably and with at most enthusiasm.
- To familiarize the students with different style of communication.

Report:

The Training was started with the wonderful Inaugural function in the presence of SANCET Principal **Dr.R. AROCKIADASS** and Vice principal **Sr. Punitha JILT** where the students welcomed the special guests J.L.Ralph Meril,Dept.of English at Sacred College ,Tirupattur Dr. Mary Jenif., Asst.Professor at Sacred College ,Tirupattur P.Anbarasan Asst.professor and Mr. Saravanan Asst.professor at Sacred College ,Tirupattur. Dr. Mary Jenif., Asst.Professor gave inaugural speech on language training. The book "communicative English" were given to all the students for their learning purpose.

On the first day of the course, the students were taught about basics of communication and assessment were conducted to know the student's ability in language skill. Students are given Self introduction and discussed about their ideas based on communication.

On the second day students were separated into batches and started with recognizing and understanding the communication techniques. Morning session students were taught conversation among themselves and dialogue writing.

On the third day of training the students started working with verbal communication and non-verbal communication. Students were given writing practices and afternoon session reading practices were given.

On the fourth day the students learnt the confidence when speaking and style of communication. On the fifth day the students were trained with practical session of listening,

reading and general conversation between students. Finally, the students gave their valuable feedback about their experience in course. The session ended with valedictory function.

COURSE OUTCOMES:

Upon the completion of the course, students will be able to

- Develop knowledge, skills and facilitate the ability to work collaboratively with others.
- Become more self-confident and develop strong determination.

ANTI-DRUG AWARENESS PROGRAMME REPORT

DATE:17-07-2023

PLACE: SANCET.

An Anti-drug awareness program was conducted by our college NSS Unit in associated with Government of Tamilnadu. The Resource Person Mr. Sathyamoorthy, Village Administrative Officer, Anguchettypalayam, creating an awareness to the students on the ill-effects of drug and alcohol consumption, in a comprehensive manner. His motivational speech, informed that every day India sees 10 suicides related to drug abuse. He also added that a report by the central government demonstrated that the vast majority of youth are receiving drug and alcohol prevention messages from sources such as TV, radio, posters and pamphlets, Movie ads and campaigns as this. Furthermore, the report on its special analysis showed that those who have been exposed to such messages are significantly less likely to abuse drugs. The Government of India is taking every visible effort to prevent teen drug use via the National Youth Anti-Drug Media Campaign, especially for those making the difficult transition from schools to colleges via their National-level Anti-Drug Policies. In this event, NSS Programme Officer, faculty members along with 100 NSS Volunteers are attended. Anti-drug awareness pamphlets were distributed in the campaign.

INTERNATIONAL YOGA DAY

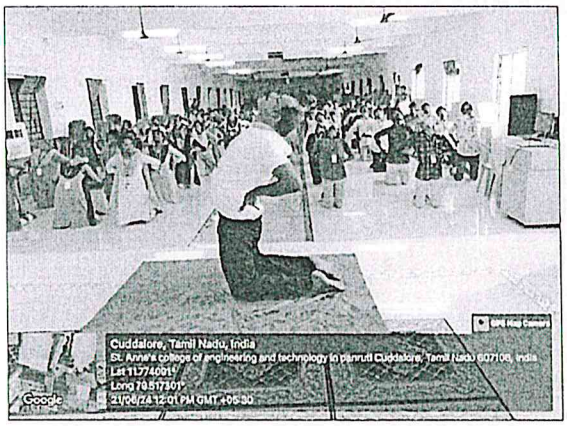

REPORT

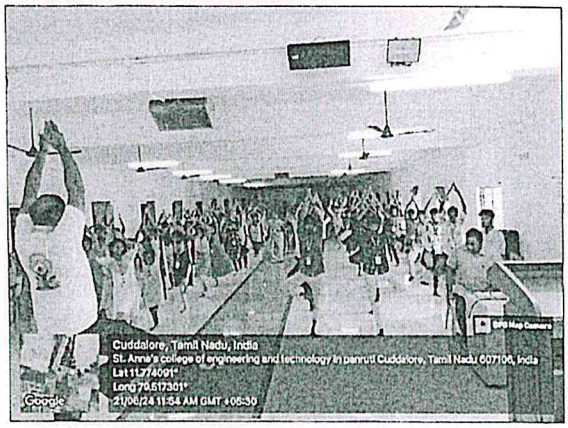

DATE: 21-06-2024

PLACE: SANCET AUDITORIUM

Our college NSS Unit organized the "International Yoga Day" on 21.06.24. Our Resource persons are Dr. R. Prithivirajan, Ayaush Medical Officer, Govt, Primary Health Centre, Veeraperumanallur, and Dr. I. Vijayakumar, MD(S), Asst. Medical Officer(S) Govt Hospital, Panruti. The day had a wonderful start with an auspicious prayer and Tamil Thai Vazhthu. Dr. R. Arokiadass, Principal, presided over the function. He motivates the students as yoga is the art of living life, everything will happen with yoga etc. Yoga is necessary for everyone, old, children, women, men and young people. It is essential for human welfare.

Our Resource persons Dr. I. Vijayakumar tells about the benefits of yoga. With regular practice of yoga, everyone's body becomes disease free. The stress of the body is reduced, and the pleasure of living a stress-free life is attained. Fertility problems in women and men are mainly solved by doing yoga. The blood circulation and digestive system are strengthened through yoga. Further, Dr. R. Prithivirajan gave some exercise to the students

and he demonstrates how to practice the pranayam and some asanas as per the common yoga protocol. In this day, NSS Programme Officer, NSS faculty Members and 100 NSS volunteers were actively participated in this International yoga day.

NAAN MUDHALVAN SCHEME

"Online Awareness Session for the GATE 2024 examination"

OBJECTIVE

- GATE exam is to test students' knowledge in subjects like Engineering and Science.
- GATE exam will be held to get admission into PG programs offered by the IITs, NITs, and other renowned institutions
- A good score in GATE helps candidates to get a job in PSUs. (Public Sector Undertakings) to recruit applicants for distinguished jobs at Indian Oil and Hindustan Petroleum, etc.

OUTCOME

- A good GATE score is helpful for getting admission in to IITs, IISC, IIITs, NITs and many other renowned institutions. GATE qualification is also a minimum requirement to apply for various fellowships awarded by many Government organizations like DRDO, BARC, and ISRO etc.

Dear Spocs,

TNSDC along with PALS (an outreach initiative of IIT Alumni) is happy to bring to you an Online Awareness Session for the GATE* 2024 and the JAM* 2024 examination. Acquiring the expected scores in these examinations will help the aspirants to secure admission in IITs, NITs and IISCs, get a lucrative career in Central Government Public limited Companies, and so on. The colleges producing such students who perform well in these exams can also in a way bench mark themselves across the ecosystem as a proof of excellence in their course delivery.

Prof. Dr Shiva Nagendra SM, the Chairman, M.Tech., MSc and MA Admissions, IIT Madras will be the lead speaker, who will provide important details about the Graduate Aptitude Test in Engineering, and Joint Admission Test for Masters' Programs. This will include the, GATE and JAM 2024 syllabus, format of questions, and preparation assisting resources available, and important dates for the exam application and exam dates. The **GATE Awareness session** is open to the **Third- and Fourth-year students and faculty of all engineering disciplines** and **JAM session** is for **science and humanities** areas of higher education. There will be an interactive session which will help the participants to clear their doubts.

REPORT - NAAN MUDHALVAN SCHEME – SB8059 - PROGRAMMING LOGIC CIRCUIT USING SIMATICS

Year/Semester: IV Year/VII Semester
Batch: 2020-2024
Department:, EEE
Duration: 07.08.2023 to 17.11.2023
Training Partner: TANSAM – Siemens
Training Mode: Online & Offline
Number of Students: 32

Details of students attended Training programme:

S.No.	Department	Number of Students attended Training
1	Electrical and Electronics Engineering (EEE)	32

Courses Conducted:

1. PLC - Programmable Logic Controller
2. PLC Fundamentals and PLC Hardware & Architecture
3. Communication with PLC with SCADA
4. HMI - Human Machine Interface
5. Introduction of SCADA
6. Designing of drive control panel
7. Communication with PLC, SCADA Software
8. Fault finding / troubleshooting

Faculty Mentors:

1. A. Sundara Pandiyan. AP/EEE
2. K.Sriram HoD/EEE

Faculty Development Programme:
Title: Train the Trainer Program on Programming Logic Circuit Using SIMATICS
Duration: 24.07.2023 to 28.07.2023
Mode: Physical Mode.
Training Partner: TANSAM – Siemens
Support: Financial Support given by Our Management -St. Anne's college of Engineering and Technology and also by Training Centre.
Training centre: TANSAM -Tidal Park, OMR Chennai.

Details of faculties participated in FDP:

1. A. Sundara Pandiyan

[illegible] course was conducted for IV-Year I semester and [illegible] Engineering under Naan Mudhalvan scheme in our College in both virtual and physical mode.

Course details:

S.No.	Week	Date	Title	Mode
1	Week 1	18.08.2023	PLC Fundamentals - (Block diagram of PLC's)Applications	Online
2	Week 2	25.08.2023	election of PLC components(Power supply, CPU, I/Os List ,Communication bus Various ranges available in PLC's)	Online
3	Week 3	01.09.2023	Architectural Evolution of PLC	Online
4	Week 4	08.09.2023	Setting up PLCs / Connecting CPU, I/O modules, Rack, Backplane and Communication bus	Online
5	Week 5	15.09.2023	PLC model – Machine model	Offline
6	Week 6	22.09.2023	PLC model – Machine model	Offline
7	Week 7	29.09.2023	SCADA system application	Online
8	Week 8	06.10.2023	Designing of drive control panel	Online
9	Week 9	13.10.2023	Human Machine Interface	Offline
10	Week 10	20.10.2023	Fault finding / troubleshooting, Automation logics	Online
11	Week 11	27.10.2023	Sample Program	Online

Course Assessment:

The Internal mark will be awarded for students by faculty mentor of the student and External mark will be awarded by Trainer in Naan Mudhalvan portal. The average mark of the student prepared by faculty mentor will be uploaded in SB8059 - Programming Logic Circuit Using SIMATICS course in Anna university web portal with the approval of Naan Mudhalvan department member, SPOC, Head of the department and Principal of the Institution.

Certificate of the Student:

Report:

The third year ECE & CSE students are offered with the course on IBM Skill Network Future Ready Employability skills, as an initiative of the Naan Mudhalvan program. This program focuses on developing the skills of the student that are most in-demand by employers, such as communication, critical thinking,

problem-solving, Innovation and teamwork. The platform offers various courses on topics such Internet of Things, Artificial Intelligence, Data Analytics with Cognos, Applied Data Science and Cloud Application Development. 31 student's has taken Internet of things course and 55 student's Artificial intelligence course. The students acquired both practical skills and knowledge that are highly valued in the job market. They can gain a competitive advantage in the workforce and be better prepared to succeed in their careers. These skills are essential for success in the modern workplace and are highly valued by employers across industries. By completing the Future Ready Employability Skills program, students gained a competitive advantage in the job market and be better prepared to succeed in their careers. Institution has provided students with individual computer system with good internet facility in order to make them complete their project on time. Students followed the below project submission steps and submitted their project in the IBM portal,

Project Phase	Deadline	Project Steps
Phase 1	29-09-2023	Problem Definition and Design Thinking
Phase 2	07-10-2023	Innovation
Phase 3	13-10-2023	Development Part 1
Phase 4	20-10-2023	Development Part 2
Phase 5	27-10-2023	Project Documentation & Submission – Final submission

REPORT - NAAN MUDHALVAN (AY2024) SCHEME –DRONE DESIGN ASSEMBLY AND TEST

Year/Semester: III Year/VI Semester
Batch: 2021-2025
Department: MECH & EEE
Duration: 16.02.2024 to 03.05.2024
Training Partner: Vaayusastra Aerospace Pvt.Ltd(IIT,Madras)
Training Mode: Online and Offline
Number of Students: 68
Details of students attended Training programme:

S.No.	Department	Number of Students attended Training
1.	Mechanical Engineering (MECH)	21
2.	Electrical and Electronics Engineering(EEE)	47

Courses Conducted:

1.Introduction
2.Histry
3.Types of Drones
4.Types of drones based on size
5.Reqirements parts of drones
6.Quadcopter design and fabrication
7.Classification of drones
8.Applicaion of drones

Faculty Mentors:

1. Mr.P.Murugan,AP/MECH
2. Mr.A.Sundarapandiyan,AP/EEE

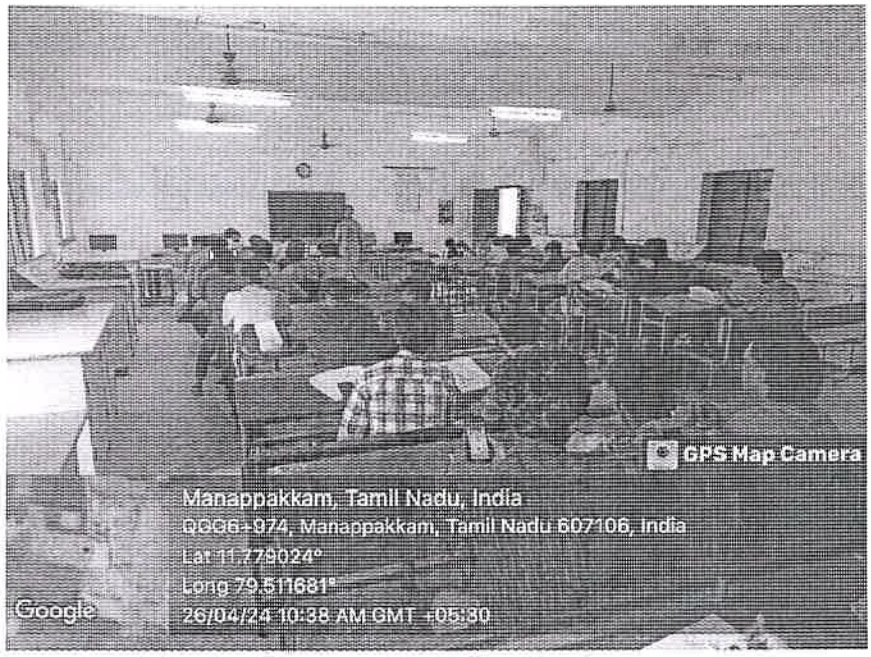

Faculty Development Programme:
Title: Drone Design Assembly And Test
Duration: 29.01.2024 to 03.02.2024
Mode: Offline

Details of faculties participated in FDP:

1. Mr.A.Sundarapandiyan,AP/EEE

Drone Design Assembly And Test:

The Drone design Course was conducted for III-Year, Mechanical Engineering, Students under Naan Mudhalvan scheme in our College in online and offline mode.

Course details:

S.No.	Week	Date	Title	Mode
1	Week 1	16.02. 2024	Introduction	Offline
2	Week 2	23.02. 2024	Histry	Offline

REGISTRAR

Date: 18.12.2023

To

The Dean of CEG, ACT, MIT Campus
Deans of constituent colleges / Regional campuses
Principals of Non-autonomous affiliated colleges of Anna University

Dear Professor

Government of Tamil Nadu through the Tamil Nadu Skill Development Corporation (TNSDC) has launched "Naan Mudhalvan" scheme for the benefit youths studying in the Engineering, Arts & Science and other professional courses across the state of Tamil Nadu. In this massive skilling programme, Anna University is partnering with TNSDC to conduct credit courses and value-added courses to Engineering students studying in the University Departments, Constituent colleges, Regional campuses and Non-autonomous affiliated colleges of Anna University. The courses offered through these initiatives are based on the industrial expectations and to bridge the gap between the academia and industry in terms of skill set expectations. This skilling initiatives will enhance the employability skills of the individuals and to get placed in the Multi-nationals, R & D and National level organisations. These courses are being delivered by the Industry training partners.

For the forthcoming 2023 – 2024 EVEN semester, 31 courses are identified for the **6th semester students** (List of courses enclosed and syllabus will be uploaded in Anna University website shortly). In order to map the identified courses to students, college **SPoCs should fill the Google Form with concurrence** from the Dean / Principal on or before **21.12.2023**.

The google form link is https://shorturl.at/dAD46

Kindly note the following points before filling the forms

- Only one entry should be made for each college in the given form
- Draft syllabus is given for reference only and yet to be approved from Academic Council of Anna University
- Select the college and fill in the SPoC details
- All the B.E. programmes are clubbed into three categories, viz.,
  1. CSE/IT
  2. ECE
  3. Civil, Mech, EEE, Tech, Others
- Under each category, present 3rd year B.E. Students count for all the mentioned branches need to be consolidated
- Three choices among the identified courses in each category have to be given.
- Please be aware that, among the given preferred choices, courses will be allocated for your students and for every 60 number of students (or part thereof) one course has to be mapped.
- Based on the allocation, faculty members have to be nominated to attend the FDP
- FDP is scheduled in two phases and the tentative dates are
  - Phase - I: 08.01.2024 - 13.01.2024 & Phase - II: 18,19,20,22,23 & 24 of Jan 2024
- The FDP venue will be intimated in the subsequent communication
- The mapping of the institution to conduct students training programs will be carried out based on geographical location and reach ability of the students and the same will be intimated in the subsequent communication

We solicit your kind cooperation for the smooth conduct of NM Courses.

Thanking you,

Yours faithfully

Dear Student,

We are thrilled to inform you that your video submission for the **TNGIM-2024** (Tamil Nadu Global Investors Meet) participation has been selected among the Top 100! Your dedication and effort have truly stood out.

With the Tamil Nadu government gearing up for the Global Investor Meet **TNGIM 2024 on January 7th and 8th**, to help you attend, we have created a Delegated Pass for you.

Accommodation arrangements have been made at the Anna University CEG campus. The students who require accommodation must reach Anna University tomorrow (06-01-2024) before 6 PM.

The students who do not require accommodation must reach Anna University on 07-01-2024 at 07.30 AM.

The entry pass will be distributed to all the students on Sunday(07-01-2024). So, please arrive on time and collect your passes. Post that, the team will take you to the venue. You will be attending the inauguration session on **07-01-2024**.

For accommodation details, kindly contact,

1) V.Ramya - Program Manager (For Girls) - 8610802052
2) R.Om Prakash - Program manager (For Boys) - 9944233573

Students, kindly fill out this Google form about your arrival status and timing.

NAAN MUDHALVAN SCHEME

Report for TNGIM -2024 | Student Corporate Ambassador | Regarding

In the presence of our esteemed **Honorable Chief Minister Dr.M.K. Stalin, our college participated as Student Corporate Ambassadors at the "Tamilnadu Global Investors Meet"-2024 (TNGIM) in Chennai** on 07.01.2024 at the Chennai Trade Center, Nandhambakkam.

Our college **is ranked second** in Tamil Nadu among the **top 100 colleges** (including Engineering, Polytechnic, Arts, and Science Colleges). More than 3000 colleges from Tamil Nadu have entered the short film competition.

Students are creating a video on the Topic of

"TNGIM & ITS IMPACT ON NAAN MUDHALVAN STUDENTS" with appropriate materials, advice from the Naan Mudhalvan Team (SANCET), and approval from our College Principal Dr.R.Arokiadass and Secretary Dr.Sr.T.Nirmala.

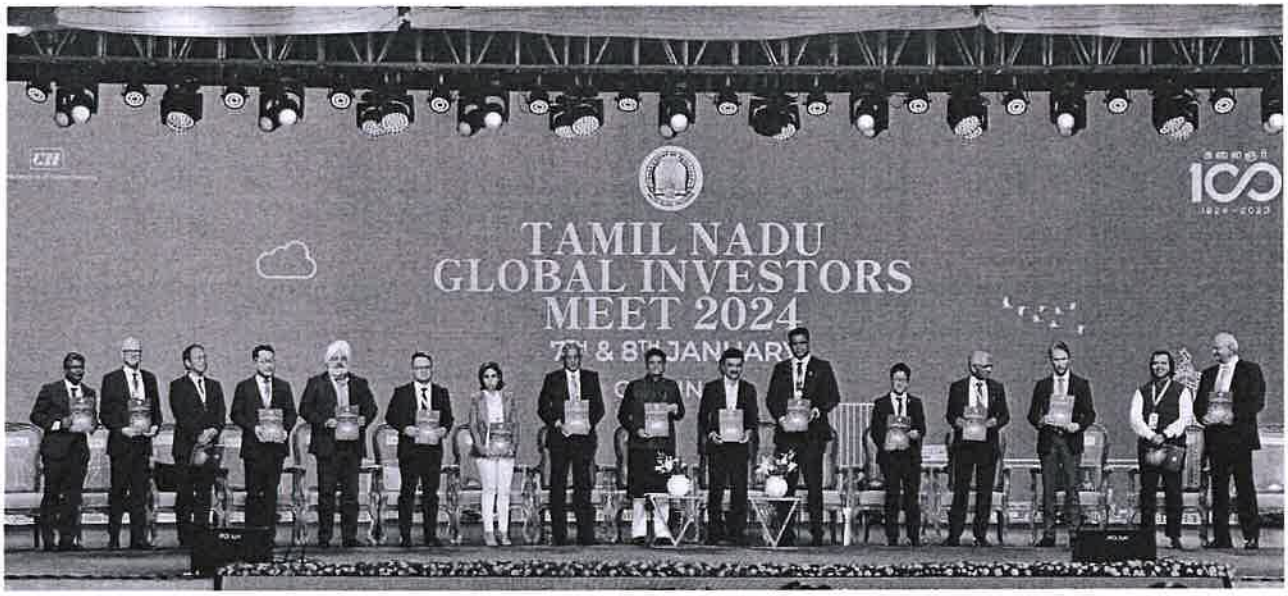

Students from IV year Computer Science and Engineering Ms. A. Jasmine Madona, Mr. M. Dinesh Balaji, Mr. Aakash, and III year Mechanical Engineering students Mr.G.Premkumar.

The video was submitted to socialmedia@naanmudhalvan.in using SPOC (Single Point of Contact) login, in accordance with the terms and conditions set forth by the Naan Mudhalvan Team in Chennai.

Mr.Dhamodharan, MIS Officer, Cuddalore District (9842541492) informed me about the selection list provided by the Naan Mudhalvan Head Office in Chennai, as well as the selection based on respective Naan Mudhalvan college progress and short video film by students.

The Naan Mudhalvan team has informed Mr.Dhamodharan, MIS Officer, that the Premium pass will be available in the Chennai Trade Center in Nandhambakkam on January 6, 2024 at 4 p.m., and has asked me to collect it along with SPOC.

Mr.G.Premkumar (Reg No: 422121114016) of the III rd year Mechanical Engineering received a premium pass and attended TNGIM-2024 as a Student Corporate Ambassador on January 7, 2024 at Chennai Trade Center.

Our Student Press release at TNGIM-2024

I would like to convey my heartfelt thanks to our honorable chief minister Dr.M.K.Stalin and our honorable minister Udayanithi Stalin for initiating and successfully implementing the Naan mudhalvan program.

It is an upskilling platform for a huge industry-relevant skill upgrading project for Tamil Nadu's youth.

In past years, most students profited and were placed in various companies.

Tamilnadu Global Investors Meet (TNGIM) in 2024 have an impact on Naan Mudhalvan students in terms of identifying, training, and providing career and academic support to all students enrolled in government-run and state-run institutions.

Once again, we are grateful for the opportunity to participate in this historic event provided by our honorable chief minister, Dr. M.K. Stalin, and our honorable minister, Udayanithi Stalin.

I would like to thank Naan Mudhalvan Team, Anna University, the secretary, and the principal of our St. Anne's College of Engineering and Technology, Panruti, Cuddalore District.

About TNGIM – 2024

Our Government of Tamil Nadu is organizing **Tamil Nadu Global Investors' Meet - (TNGIM) 2024** on **7th & 8th January, 2024** at Chennai

This event is conceived as a **major forum for attracting new investments** into Tamil Nadu and will serve as a platform to bring together industry leaders, corporates, innovators, and policymakers worldwide to explore new growth opportunities in this State.

Tamil Nadu is India's **2nd largest State economy.** It is also India's **most industrialized State** and a **major engine of India's economy.** A multitude of industrial and business opportunities abound in Tamil Nadu. Investors from around the world favor the State for its well established industrial ecosystem that spans the entire spectrum of industrial sectors. With a liberal, business-friendly State Government, advanced industrial and logistics infrastructure, vast natural resources, a highly skilled large workforce, ease of doing business, and proximity to major ports, Tamil Nadu is where investors from around the world find enormous success.

The focus sectors for investments include automobile, electronics, Information technology, electric vehicles, aerospace, renewable energy, pharmaceuticals, textiles, chemicals, food processing, heavy engineering, leather and fintech.

TN Global Investors Meet 2024 attracts record investments of ₹6.64-lakh crore. More than 26 lakh jobs are expected to be generated from these investments, says TN Chief Minister.

Dear Sir / Madam,

Sub : TNSDC – Naan Mudhalvan AU - Niral Thiruvizha (Hackathon) – EVEN Semester 23-24 – B.E. / B.Tech. Final Year Student Project Work – Guidelines issued – Reg.

*****

Our Honorable Chief Minister has launched Naan Mudhalvan Grand Innovation & Skilling Challenge – AU - Niral Thiruvizha (Hackathon) – 2023 event. The main objective of this event is to trigger an innovation mindset among the student community which in turn will develop the skills of our students across various sectors. The hackathon will revolve around carefully selected 10 themes that encompass a wide range of challenges faced by Tamil Nadu Government Departments.

The final year B.E. / B.Tech. Students are expected to provide the feasible, viable and implementable solution using Artificial Intelligence, Machine learning and other tools. Participating students can earn their academic credits in lieu of final year project works. The themes include but not restricted to

1. Agritech & Food Technology
2. Clean & Green Technology
3. Waste Management
4. Water & Soil Conservation
5. Education 4.0
6. Renewable & Sustainable Energy
7. Smart Town/City
8. Health/Med - Tech
9. Smart Manufacturing
10. Heritage & Culture

In this connection, as per the virtual meeting chaired by the Honorable Vice – Chancellor held on 10.01.2024, please find the following details:

1. AU - Niral Thiruvizha (Hackathon) is meant for final year engineering students studying under Anna University and it will be executed through Centre for Sponsored Research and Consultancy (CSRC), Anna University.

2. The list of prestigious partners in executing the AU - Niral Thiruvizha (Hackathon) is indicated in Annexure – II
3. Tamil Nadu Skill Development corporation has created a specific website for AU - Niral Thiruvizha (Hackathon)

   https://niralthiruvizha.naanmudhalvan.in/

   where students' teams can register and submit their ideas.
4. The list of Themes and Problem statement identified under each theme is indicated in Annexure as well as in the website.
5. A student team has to be formed with 4 students. A team may consist of multi - disciplinary branches.
6. Each team will be guided by a faculty member or an industry expert or both. A student is strictly permitted to be on only one team.
7. The team should submit their project proposal as per the template given. The solution should be a feasible, viable and implementable.
8. Based on the shortlisting, project presentation and evaluation of the proposal by the team of experts, financial assistance to develop the prototype for each team will be provided not exceeding a sum of Rs. 10,000/- (Rupees Ten Thousand only). This amount is to be utilized only to develop the prototype and not for purchase of computer consumables, stationaries, honorarium, overhead etc.
9. The colleges should facilitate these students project ideas with their expertise and infrastructure.
10. Financial / Administrative sanction is accorded to the college and the college is responsible for scrutinize, approval and payment of the bills.
11. Based on the outcome of the project, for the top 50 projects, Startup TN will provide additional financial support.

Utilize these opportunities and inculcate research mindset for young budding engineering students of Tamil Nadu.

Thanking you

11/11/24

REGISTRAR I/C

Annexure – I: Scheme Outline, Step by step Registration and Template for Project Proposal

Annexure – II: List of Problem Statements

Naan Mudhalvan – Anna University Niral Thiruvizha

The vision of Niral Thiruvizha is to kindle the innovative minds of our students to address the persisting issues and real time problems with technology enabled solutions which will improve quality of life. **Students can choose any of the listed problem statement under the 10 themes and work on that to come up with innovative ideas and solve the problems.**

Benefits for Participants:

1. Opportunity to work on real-world challenges directly sourced from stakeholders.
2. Hands-on experience in developing and refining innovative solutions.
3. Mentorship and guidance from industry experts.
4. Recognition, prizes, and potential opportunities for further development and funding.

Detailed Guidelines:

1. Naan Mudhalvan Anna university Niral Thiruvizha is open to the final year students of all Engineering Colleges from Government Colleges, Government aided Colleges, Government Autonomous Colleges, University Constituent Colleges, University Departments, Self-Financing Autonomous Colleges and Self-Financing Non-Autonomous Colleges will take up this program with 12-credits as project work in their final semester.
2. Any number of teams can represent from each of all the engineering colleges. The Maximum participation is 4 students per team. (Inter disciplinary participation is highly encouraged)
3. Students can choose any of the listed problem statements under the themes and to come up with innovative solutions. Any number of ideas can be submitted from each of the engineering colleges.

4. The concept of Artificial Intelligence (AI) integrated with all the themes and the students can approach the problem statements and come up with solutions to use AI Technology.
5. The nominated experts will evaluate and shortlist top 1000 project ideas from the ideas submitted by the Engineering colleges across Tamil Nadu.
6. Each selected project idea (top 1000 projects) will get a grant of Rs. 10,000/- to build the prototype and time line to be mapped accordingly to complete the projects by end of April 2024.
7. Once the 1000 ideas are shortlisted, provisional sanction order from anna university will be issued to them and the Respective Institution is to monitor and periodically conduct reviews of the projects. Concern institution will be responsible for the completion of the project and fund utilisation.
8. The faculty nomination to be done on 22nd of January in the portal.
9. The student registration in the portal starts on 23rd of January and will end on 27th of January. The entire 4th week of January will be observed as **Naan Mudhalvan - Anna University Niral Thiruvizha week**.
10. The abstract evaluation and the final list of 1000 selected teams will be intimated on 2nd February.

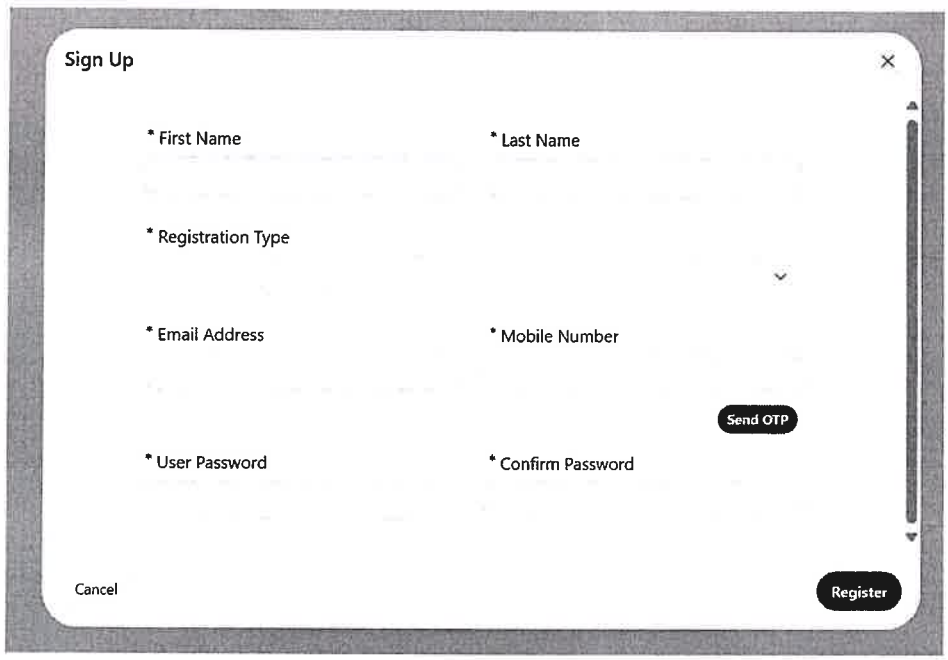

How to register for AU - Niral Thiruvizha on the portal

Step 1: Access the AU – Niral Thiruvizha portal in the Naan Mudhalvan Website.

Step 2: Click on the SignUp option in the bottom left corner

Step 3: You will find the SignUP page. Enter your details

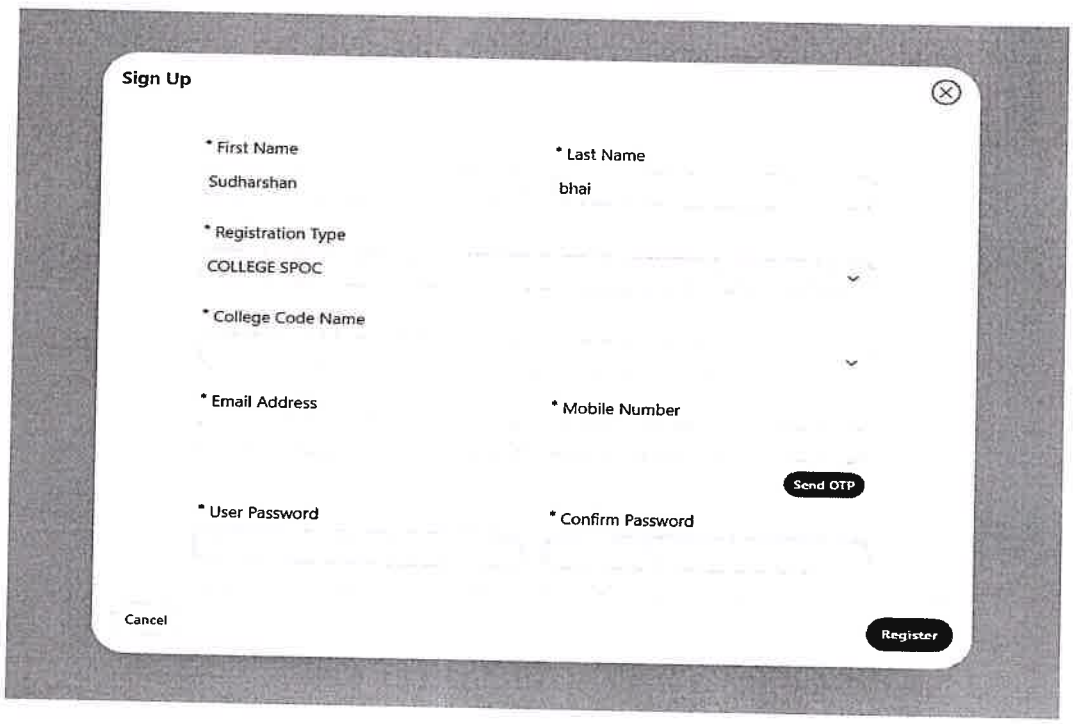

Under registration type, there will be four options,

- Mentor
- Student team
- Nodal Centre
- College SPOC

Based on your registration type, choose any of the listed four.

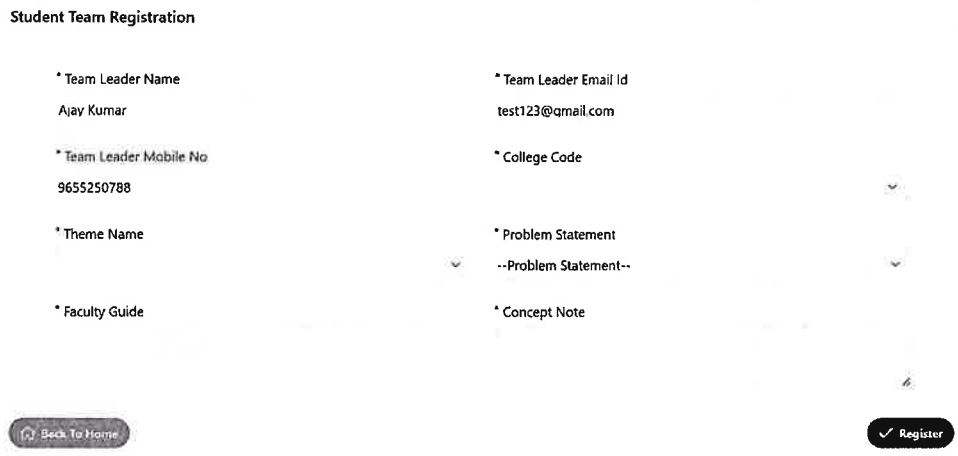

College SPOC Registration

Institution principal mail id and contact number is pre populated in the SPOC login. Kindly ensure the same mail id & contact number is used for signup. After signing Up with College SPOC, you will get this page. The college can be selected from the list and the phone number and email ID of the principal to be filled and OTP will be sent to that number. By using the OTP, the registration process can be completed.

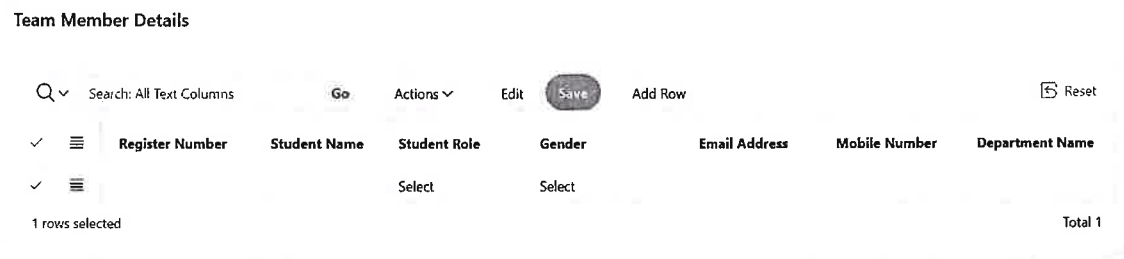

The principal should nominate all the faculties of the college who are interested in guiding the students for the AU-Niral Thiruvizha. These faculties will be guiding the students in their project. Only these faculties can be nominated as faculty guide in student team registration.

Student Team Registration - After signing Up with Student Team, you will get this page. In this page, enter the details of the student sand the student team will have to choose the problem statements and enter the Concept note for the same.

After clicking on *REGISTER*, you will need to enter the details of other team students too. You can click on *ADD ROW* option and enter all the names of the team members.

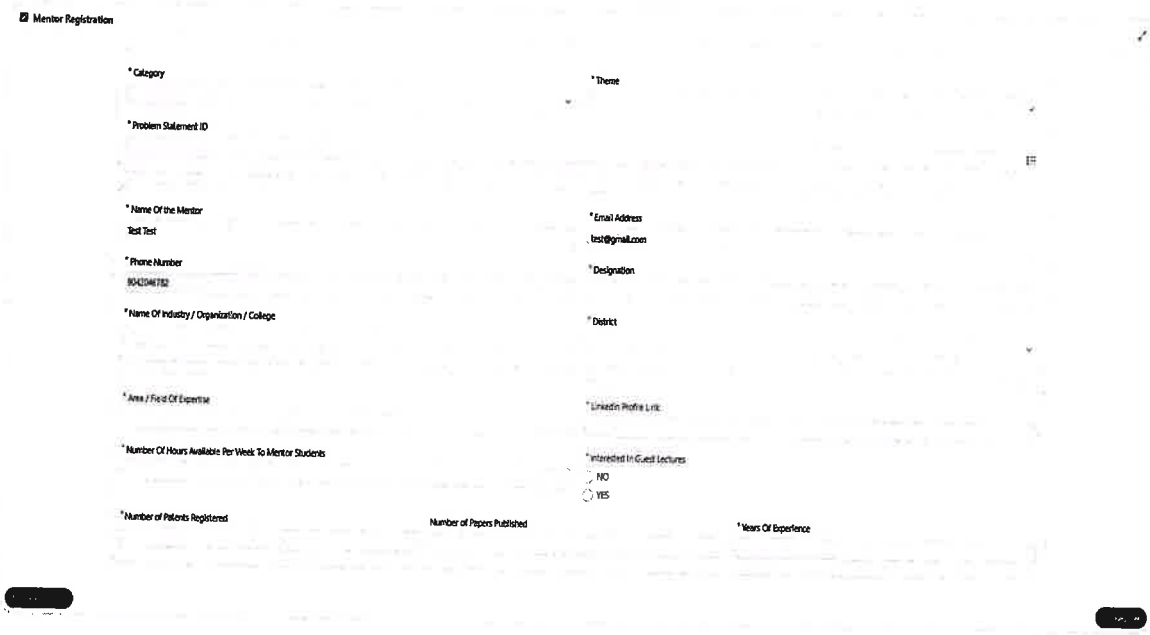

There will be space for abstract submission and also a report format can be downloaded to fill and upload in the student team login, which will be considered for evaluation.

Mentor Registration – After signing Up with Mentor option, you will get this page

Click on Expertise Registration and fill in the details asked as show below.

NOTE: Mentors can be anyone from academia, working professional, leading industry experts and subject matter experts.

Nodal Centre Registration - After signing Up with nodal centre, you will get this page. In this page, enter the details of the nodal centre and click register.

ANNEXURE II - PROBLEM STATEMENTS

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
	Agritech & Food Technology		
1	How can we design safer alternatives and improved application techniques to address health hazards associated with pesticides, reducing human exposure and safeguarding both the environment and public health?	Design an advanced technology for safer pesticide alternatives and application methods minimizing health risks, reducing human exposure and protecting the environment and public health.	Organic farming practices
2	How might we develop an affordable specialized vegetable harvester to improve automation and productivity in the agriculture sector, meeting the needs of the masses?	Develop a vegetable harvester to reduce waste and improve productivty	Prototype of an Vegetable harvestor
3	How might we develop an innovative, thermally controlled storage system to address challenges in postharvest tomato storage, overcoming limitations in current preservation methods? The goal is to extend shelf life and minimize degradation, marking a significant stride in enhancing storage practices.	Create an innovative storage mechanism to prevent post harvest damages in tomato processing	Storage mechanism system for tomatos, as are highly perishable and too delicate
4	How might we innovate to address urban excess food waste, hunger-related deaths, and create a logistic network with innovative technology and cost-effective storage solutions? This aims to efficiently transfer surplus food from cities to areas in deficit.	Create an application that facilitates the connection between surplus and deficient food resources within a community's network.	App - cooked food supply chain - ERP model
5	How might we innovate in detection methods for mycotoxins, toxic secondary metabolites in food, to minimize contamination and ensure the safety of food processing units? The goal is to enhance current techniques, primarily chromatographic, for more effective results.	Develop innovative mycotoxin detection methods in food processing units enhancing safety, improving upon current chromatographic techniques for more effective results.	Effective mechanism to detect mycotoxin to ensure safety
6	How can we create an advanced agricultural bot to address challenges faced by small-scale farmers? This involves enhancing crop management, income, and food security through real-time soil testing, pest detection, and autonomous operations, with the aim of doubling agricultural output and income.	Create an AI-driven agricultural bot featuring voice chat capabilities to tackle issues encountered by small-scale farmers. This includes real-time soil testing, pest detection, and autonomous operations, aiming to address challenges related to crop management, income, and food security.	Chatbot - AI driven interactive agri bot providing realtime assistance in cultivation and market linkages
7	How we design a cost-effective, energy-efficient small-scale cold storage unit for horticultural produce to extend perishable crop shelf life, specifically catering to the preservation needs of small-scale farmers.	Construct a cost-effective prototype for a cold storage unit designed to preserve horticultural produce.	Low cost Cold storage unit for horticulture produce

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
8	How might we develop an effective Harvesting machine for crops that is lightweight, cost-effective, and convenient to handle and transport across various wet fields to address the challenges of the current model?	Create a functional model to enhance harvesting efficiency and address losses during transportation.	Loss prevention mechanism during harvesting and transportation
9	How might we implement semi-automation for the raw cutting process in cashew processing to reduce dependency, increase efficiency, and enhance overall productivity in the cashew industry?	Create a semi-automated raw cutting process in cashew processing to reduce labour, improve efficiency, and elevate overall productivity in the cashew industry.	Semi automated cashew processing mechanism
10	How might we develop suitable technology to estimate crop yield, leveraging technology to analyze agricultural data, optimize farming practices, and ensure accurate predictions for improved food production and security?	Develop a mobile app that integrates AI and data analytics to examine agricultural inputs, providing optimal farming suggestions along with corresponding crop yields.	AI assisted App for farmers on agri practices and suggestive crops
11	How might we create a system that leverages satellite imagery and machine learning to detect vegetation height beneath transmission lines, anticipate growth patterns, and generate alerts for timely trimming when needed?	Develop a system using satellite imagery and machine learning to detect vegetation height below transmission lines, predict growth, and raise alerts for necessary trimming.	Satelite imagery system for pruning vegetation interference in power transmission lines
12	How might we optimize water management in piped and micro irrigation? Integrating AI to predict crop water needs, automate valves, and boost yield.	Develop an AI-driven solution for precise water management in piped and micro irrigation networks by predicting dynamic crop water demands, integrating real-time soil moisture data, and automating valve control mechanisms to optimize water usage and crop yield.	AI driven sensor driven system for irrigation and water waste minimization
13	How might we develop image processing software using machine learning to identify medicinal plants, enhancing authenticity and ensuring integrity in the medicinal plant supply chain?	Develop image processing software using machine learning to identify medicinal plants, aiding authenticity and supply chain integrity.	ML assisted image processing software in medicinal plants management and related supply chain
Clean and Green Technology			
14	How might a comprehensive strategy be designed to mitigate the environmental impact of plastic degradation in the marine ecosystem? This multifaceted initiative seeks to create effective anti-pollutants, innovative methods for plastic disposal in oceans, tactics to boost algae growth, and the deployment of boats with robots for efficient plastic waste collection.	Build a working model using robot for effective plastic waste collection from oceans.	Device to collect plastic wastes in oceans
15	How might we design a cost-effective home composting solution for daily kitchen waste, ensuring quick and odor-free decomposition? The current lack of such an efficient system poses a challenge for homemakers seeking sustainable waste management.	Design a cost-effective composting solution for easy decomposing of home wastes	Household waste Decomposter

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
16	How can we design a solution to address the challenge of fugitive dust emissions from stone crusher units & crematorium causing air pollution?	Create a prototype for collecting fugitive dust emissions from stone crusher and crematorium units.	Prototype - atmospheric dust collector
17	How might we develop eco-friendly construction materials, specifically suitable for high-rise buildings, to mitigate the environmental impact of carbon dioxide emissions from cement production, exacerbated by urbanization and excessive concrete use?	Develop eco-friendly construction materials suitable for high-rise buildings to mitigate CO2 emissions from concrete use	Alternate to cement and iron with strong charecteristics to be identified
18	How we create a solution for efficient autonomous dust cleaning beneath roofs in industries, marriage halls, cinema theaters, and college auditoriums to maintain clean and healthy environments?	Develop technology for autonomous dust cleaning in industrial, commercial, and educational spaces to ensure a clean, healthy environment under roofs.	Commercial robotic cleaner for higher surface coverage
19	How might we develop a low-cost automation system to address the labor-intensive manual extraction of dry coir pith? The industry requires an innovative suction system capable of efficiently collecting and transporting pith to manufacturing units, handling various materials simultaneously.	Create a cost and time effective automation model to reduce labour internsive manual extraction of dry coir pit.	Device for extraction of dry coir pith
20	How can we reduce the contribution of Cement Industries in global CO2 emissions and come up with alternate sustainable solutions.	Develop sustainable alternatives and technology to minimize CO2 emissions from Cement Industries, mitigating their environmental impact effectively.	Manufacturing technique to reduce CO2 emissions in cement manufacturing
21	How can we create an automatic sensor model to address ammonia/H2S gas emissions from bird litter in the poultry sector, managing odor and fly issues? The goal is to assess gas emissions and trigger alerts when limits are exceeded, prompting necessary measures for effective management.	Create a automatic sensor model to address ammonia/H2S gasemiasions form bird litter in poultry sector	Sensory detector of hazardous gases in poultry farms
22	How might we develop a sustainable and eco-friendly extraction method for chitosan from shrimp shells to meet the increasing demand for chitosan across various industries?	Develop a cost and time effective extraction method for chitosan from shrimp shells	Develop a cost and time effective extraction method for chitosan from shrimp shells

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
	Education 4.0		
23	How might we explore the adoption of game-based education to cultivate diverse skills, motivate students with points and leaderboards, and ensure inclusivity for students with disabilities? The goal is to enhance learning outcomes and confidence.	Develop an interactive game-based education app integrating points and leaderboards, ensuring inclusivity for disabled students, aiming for improved learning and confidence.	Gamified app for learning by PwDs
24	How might we create a skill/job recommender application using suitable technology, transforming career guidance by leveraging technology to match individuals with suitable jobs, fostering efficient employment and career development?	Develop a app integrating AI methodology using open source data as career guidance and job recommender for aspiring youth.	Career guidance app for students - AI assisted
	Health/Med Tech		
25	How might we design a cost-effective Myoelectric prosthetic arm using 3D printing, servo motors, Arduino, and Myoware muscle sensors, ensuring affordability without compromising functionality and quality?	Build a cost effective and intuitive prosthetic arm for seamless integration in natural body movements	Prototype - prosthetic arm
26	How can we design an image processing algorithm for portable X-ray devices to reduce noise, enhance contrast, and sharpen images without altering critical diagnostic details? This includes considering hardware limitations, ensuring computational efficiency, and validating with diverse datasets for accurate clinical application.	Design an image processing algorithm for portable X-ray devices in refining images by minimizing noise, improving contrast, and preserving critical diagnostic details, considering hardware constraints and ensuring computational efficiency.	Prototype user friendly multifunctional & precision diagnostic device with inbuilt data storage and retrieving system
27	How might we utilize AI chatbots and machine learning to address the challenges of incomplete alleviation of depression symptoms, attrition, and loss of follow-up in mental health treatment?	Create interactive chatbot integrating AI and ML to address the challenges in mental health treatment	Interactive AI infused chatbot for treatment of mental illness
28	How might we develop analytics for hospitals' health-care data, optimizing data utilization to improve patient care, streamline operations, and enhance overall efficiency in healthcare institutions?	Develop analytics to optimize healthcare data in hospitals, aiming to improve patient care, streamline operations, and enhance overall institutional efficiency in healthcare.	Analytic tool for healthcare data of patients in hospitals and other institutions
29	How might we create a telemedicine robotic kiosk for rural India, utilizing AI, biometric ID, and the e-sanjeevani App for personalized access to expert doctors and timely medication delivery?	Develop an AI-assisted telemedicine robotic kiosk for rural India, allowing easy access to expert doctors based on individual health conditions, facilitated by biometric identification and e-sanjeevani App, enabling timely medication delivery.	Robotic AI enabled medical kiosk for remote consultation

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
	Heritage & Culture		
30	How might we develop a digital platform that creates a comprehensive repository, ensures authenticity, and fosters cross-generational dialogue for the appreciation and revitalization of diverse cultural elements to preserve endangered indigenous heritage and culture amidst modern challenges?	Develop a digital platform to preserve endangered indigenous heritage, fostering cross-generational dialogue, and revitalizing diverse cultural elements amid modern challenges.	Interactive digital platform for preserving details pertaining to heritage
	Smart Manufacturing		
31	How might we design cost effective personalized motorcycles and tricycles for individuals with disabilities, addressing their unique challenges and offering inclusive and accessible transportation solutions that cater to their specific needs and preferences?	Develop personalized motorcycles and tricycles for people with disabilities involves designing inclusive and cost-effective transportation solutions tailored to their specific requirements and preferences.	Customized motor vehicles for PwDs
32	How might we safeguard sensitive data in IIoT systems? Addressing cybersecurity threats, securing data transmission, and implementing robust access controls are critical for ensuring the safe deployment of interconnected industrial solutions.	Develop robust cybersecurity measures in safeguarding sensitive data in IIoT systems, ensuring secure data transmission, addressing threats, and implementing stringent access controls.	Cybersecurity measures to ensure privacy in IoT with proper controls
33	How we innovate to enhance multimedia and animation, addressing challenges in realism, efficiency, cross-platform compatibility, compression, VR/AR, education, ethics, and inclusivity? The project aims is to promote innovative techniques and tools for immersive, inclusive, and ethical content creation across various industries.	Develop innovative multimedia and animation based app that tackles challenges in realism, efficiency, cross-platform compatibility, compression, VR/AR, education, ethics, and inclusivity for diverse industry content creation.	App - Industry 4.0 compliant with cross functional capabilities using VR/AR for usage across various industries
34	How might we create an innovative shopping assistance system using industrial automation specifically designed for disabled individuals? The focus is on integrating eye blink technology, elevator enhancements, and a human-following bot to enhance independence, save costs, secure purchases, and overall improve the quality of life for people with disabilities.	Develop an innovative AI based interactive shopping assistance system for disabled individuals with specifics on eye blink technology, elevator enhancements	Sensor based shopping assistance system for PwDs
35	How might we develop a suitable technology to track deep-sea fishermen or their locations, ensuring effective monitoring and enhancing safety measures in maritime activities?	Develop a AI/ML based GIS app for detecting fishermens location in deep sea fishing.	GIS - deep sea fishing App

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
	Renewable & Sustainable Energy		
36	How might we develop a solution to enhance solar panel efficiency by addressing the challenges of dust and atmospheric moisture accumulation, which currently diminish their performance below intended levels?	Develop a working model to boost solar panel efficiency by tackling dust and moisture accumulation challenges, crucial factors affecting performance.	Coating on solar panels to repel foreign agents accumulation
	Smart Town/City		
37	How to solve the challenge of honeycombing in high-rise buildings with a 100-meter elevation by developing innovative construction techniques or materials that enhance structural integrity and ensure the safety and durability of tall structures.	Develop an innovative construction technique to repel honeycomb structures in high rise buildings	Preventive construction technique that the surface repels formation of any external layers
38	How might an innovative solution address communication challenges in remote areas, such as hilly and forest regions with weak or no network coverage? The goal is to develop an affordable and accessible emergency communication system, considering that satellite phones are financially unfeasible for most of the population.	Develop an Emergency Communication system for hilly & forest regions	System for penetrative emergency communication system
39	How might the utilization of the digital twin technology for virtual city creation seeks to enhance urban planning, decision-making, and resource management, providing a cost-effective solution for more efficient and informed urban development.	Develop digital twin technology for virtual city creation enhances urban planning, decision-making, and cost-effective resource management in urban development.	Digital twin system for virtual planning
40	How might we design a GIS-based solution to identify and manage harmful plants infestation, ensuring real-time updates on infestation patterns, and addressing ecological and socio-economic impacts?	Design a GIS based solution to identify harmful infestation patterns with real time updates	GIS - Alerts on infestations and remedial measures
41	How might we develop an Autonomous Firefighting Drone to overcome challenges in firefighting, addressing urban traffic, narrow streets, and remote terrains? The goal is to enhance efficiency, reduce response times, and overcome access limitations.	Build an autonomous firefighting drone to overcome challenges in urban firefighting, enhancing efficiency by reduning response times.	Prototype automotic sensory firefighting drone
42	How we innovate in designing an, cost-effective shelter solution to shield Live Stocks from harsh weather conditions during rainy seasons, mitigating health risks, minimizing hoof problems, and fostering herd well-being and productivity.	Develop cost-effective shelter solutions for livestock during rainy seasons, minimizing health risks, hoof problems, and ensuring herd well-being and productivity.	Cost effective and hyegienic shelter for livestocks

Sl. No.	Curated Problem Statements	Innovation Context	Innovation / Output Expected
43	How can we create a chatbot that can provide reliable and relevant information about various government schemes to the citizens, and help them identify their eligibility criteria for different programs, using an intuitive interface, engaging conversation, and diverse scenarios?	Develop a chatbot offering citizens information on government schemes, eligibility criteria, and engagement through an intuitive interface and diverse scenarios.	Chatbot - schemes of Government and who can avail and how to avail
44	How might we develop a unique platform to market traditional products, supporting the livelihood of rural artisans and pottery makers, fostering economic sustainability and preserving cultural heritage?	Create a AI enabled app for promoting traditional products, supporting the livelihoods of rural artisans and pottery makers, fostering economic sustainability, and preserving cultural heritage.	AI enabled App for artisans to facilitate market linkages
45	How might we create an AI-powered nutrition analyzer for fitness enthusiasts, revolutionizing dietary tracking and personalizing nutritional insights to optimize health and fitness goals effectively?	Develop AI powered nutrition analyser for fitness enthusiast for regulating overall fitness goals	AI enabled fitnes analyser
46	How might we create an innovative drone system utilizing AI for automatic human detection in disaster situations, generating alarms, and efficiently dropping payloads, integrating technologies like cameras, processors, and payload mechanisms?	Create an AI enabled drone in automatic detection of human movements in disaster situations	AI enabled drone to track human movements during disasters
47	How might we develop a reliable explosion risk detection system for the oil and gas industries that can effectively identify potential threat zones and issue early warnings to nearby workers?	Develop an explosion risk detection system for oil and gas industries to identify threat zones and issue early warnings to nearby workers.	Sensor based alarm in oil and gas industry to alert any threats
48	ow might we develop impactful solutions using Government Land Information System (GLIS) data to address urban planning, infrastructure, environmental conservation, land governance, and socio-economic challenges? Enabling evidence-based decision-making for sustainable development.	Develop analytics solutions leveraging Government Land Information System (GLIS) data to address societal challenges in urban planning, infrastructure, environmental conservation, land governance, and socio-economic analysis, enabling evidence-based decision-making and sustainable development.	Analytical tool for local governance using GLIS for strategic planning
49	How might we design a tool to assess an organization's ransomware readiness? Emphasizing prevention, detection, usability, and reporting to enhance overall resilience against potential cyber threats.	Design a tool to evaluate an organization's readiness against ransomware attacks, focusing on assessing prevention, detection, usability, and reporting.	Tool to detect ransonware attack in organizations
50	How might we develop a blockchain-based application to identify and counter fake social media profiles? Tailored for investigative agencies and law enforcement, enhancing profile authenticity and security.	Develop a blockchain-based application to detect and mitigate fake social media profiles, serving the requirements of investigative agencies and law enforcement	Application to detect fake social media profiles using block chain to support law enforcement

51	How might we develop AI/ML-based technology to efficiently detect avalanche victims in harsh conditions? Exploring innovative ground-penetrating radar alternatives for improved accuracy and response.	Develop AI/ML-based technology for detecting avalanche victims efficiently in harsh conditions using innovative ground-penetrating radar alternatives.	GIS enabled spotting of avalanche victims powered by AI/ML
52	How might we develop an AI-ML-based GIS application, utilizing open-source software, to analyze past flood imageries and project new images for specific flood levels? Aiding spatial assessment in flood-prone areas for enhanced rescue and relief efforts.	Develop an AI-ML-based GIS application using open-source software to analyze past flood imageries, project new images for specific flood levels, aiding spatial assessment for rescue and relief in flood prone areass	GIS app for flood management
53	How might we develop an automatic self-cleaning toilet system, incorporating UV disinfection, hot air drying, water-saving features, and real-time availability tracking for nearby functional toilets?	Develop an automatic self-cleaning toilet system with UV disinfection, hot air drying, water-saving features, and real-time availability tracking of nearby functional toilets.	Automated toilet cleaner with minimal cleaning resources
54	How might we create prosthetic solutions for lower limb amputees, enabling motorcycle riding? Emphasizing brake and gear operation aligned with ankle movements for a seamless and adaptive experience.	Create prosthetic solutions for lower limb amputees to enable motorcycle riding, focusing on brake and gear operation aligned with ankle movements.	Prosthetic limb with ankle movements facilitating motor cycle riding
55	How might we create an AI-powered sentiment analysis solution specialized in interpreting emotions within social media content? Empowering individuals and organizations to manage online reputation and perception effectively.	Create an AI-powered sentiment analysis solution specialized in interpreting emotions within social media content, empowering individuals and organizations to manage their online reputation and perception effectively.	AI enabled analytical tool to interpret social media content to manage online reputation
56	How might we develop tech solutions to support undertrial prisoners in India? Designing a mobile app for legal aid, connecting them with lawyers, clinics, and providing rehabilitation through education, vocational training, and mental health support.	Develop tech solutions aiding undertrial prisoners in India: a mobile app for legal aid, connecting them to lawyers, clinics, and offering rehabilitation via education, vocational training, and mental health support.	Proctored AI kiosk/ app for prisoners rehabilitation
57	How might we develop an automated system for real-time street light fault detection, precise location tracking, and efficient maintenance in cities to enhance urban lighting infrastructure?	Develop an automated system for real-time street light fault detection, precise location tracking, and efficient maintenance in cities.	Automated controller of street light management systems
58	How might we develop a user-friendly digital assistant providing legal information in multiple languages? Aiming to enhance accessibility and improve legal awareness among marginalized communities in India.	Develop a user-friendly digital assistant providing legal information in multiple languages, aiding accessibility and improving legal awareness among marginalized communities in India.	Digital AI assisted chatbot for legal support of marginalized communities

	Waste Management		
59	How can we create a process to transform non-biodegradable products into useful ones, mitigating environmental impact and promoting sustainable solutions?	Build a working prototype for remodelling non-biodegradable products into useful items	Prototype for recycling non bio degradable materials into products
60	How might we create an integrated e-waste management chain within educational institutions through collaborative industry partnerships? The project aims to collect, segregate, process, recycle, and reuse electronic waste, promoting environmental sustainability while generating financial returns.	Design an integrated e-waste management cycle within educational institution promoting environmental sustainability while generating financial returns for students	Device and system to recycle e-waste. Raw e-waste to an output or non-harardus decompostable waste
61	How might we develop a sustainable and eco-friendly method to create biodegradable/edible food packaging materials from fish waste using marine biopolymers to replace synthetic plastics, mitigating pollution in land, water, and air?	Develop a biodegradable edible food packaging material using marine biopolymers	Biodegradable food packaging materials using biopolymers
62	How might we innovate solutions for the proper disposal of sanitary waste, ensuring environmental safety, cost-effectiveness, and scalability across diverse settings such as villages and educational institutions?	Develop cost effective and innovative solutions for proper sanitary waste disposal ensures environmental safety, cost-effectiveness, and scalability across diverse settings like villages and educational institutions'	Cost effective environment friendly sanitary waste disposal mechanism
	Water & Soil Conservation		
63	How might we address the significant problem of contamination in groundwater by seeking solutions for detection, remediation, and prevention and the goal is to safeguard public health and ensure the sustainability of groundwater resources in affected areas.	Develop innovative technology to tackle plastic degradation in marine ecosystems through anti-pollutants, novel disposal methods, and robotic waste collection.	Device and an operating mechanism to collect plastic waste and dispose and/or recycle
64	How might we address the excessive water usage in textile fabric dyeing, seeking solutions to significantly reduce water consumption during the dyeing process?	Develop innovative process flow to drastically reduce water consumption in textile fabric dyeing without compromising the quality of the dyeing process.	Dyeing process with less water consumption or no water consumption
65	How might we develop a solution to combat global water depletion by creating an efficient water distribution network? The solution involves implementing a cloud-based dashboard for analytics, improving service, enhancing repair efficiency, reducing leakage, enabling GIS mapping, and overcoming deployment constraints for accurate water supply line assessment.	Develop a cloud-based dashboard for global water depletion to enhance repair efficiency, reduce leakage, enable GIS mapping, and assess water supply lines accurately.	Data management system - water supply and chanelling with GIS mapping

TEMPLATE FOR PROJECT PROPOSAL (Max. 5 pages)

1. Major Area
2. Problem statement
3. Total Cost
4. College Code & College Name
5. Guide Name, Designation, Mobile No. & Email id
6. Student Team details:

Sl.No.	Student Reg. No.	Name of the Student	Branch	Mobile No.	email id

7. Project Summary:
8. Proposed solution with methodology
9. Workplan / time schedule indicating the project mile stone
10. Plan of action of implementation
11. List of facilities available in the college to develop the prototype of the project
12. Nature of Industry support for the project, (if any)
13. Details of Financial assistance required
14. Expected outcomes / results

UNDERTAKING

1. The college will provide the basic infrastructure and other required facilities to the students for timely completion of their projects.
2. The college assumes to undertake the financial and other management responsibilities of the project.
3. The college will ensure that the funds provided are utilized only for the purpose provided and any remaining amount will be returned back to the University after the time of completion of the project.

Important - This form needs to be filled by SPOC with the concurrence from Principal

Instructions to be followed:

1. Minimum 3 choices have to be given for each branch.
2. The faculty under which the branch comes is to be inline with the Anna University Categorization.
3. For MNCs the maximum number of student count is given against each relevant course.
4. For Training Partners with the minimum viable student count is given against each course.
5. Tentative syllabus submitted for Anna University board of studies for approval is also enclosed for reference only.
6. Please be aware that the maximum effort will be put to provide one of the choices given by you for your students.
7. For every 60 number of students (or part thereof) one course to be mapped.

Instructions to be followed:

This form Consists of three categories as below

1. CSE/IT

2. ECE

3. Civil, Mech, EEE, Tech, Others

One Entry restricted for each College

1. Branches included in the above category are listed under each section.
2. Students count need to consolidated for all the branches under each category

REPORT - NAAN MUDHALVAN SCHEME – IBM-Internet of Things (IoT)

Year/Semester: II Year/IV Semester
Batch: 2022-2026
Department: ECE
Duration: 22.03.2024 to 31.05.2024
Training Partner: IBM-Internet of Things (IoT)
Training Mode: Online
Number of Students: 54
Details of students attended Training programme:

S.No.	Department	Number of Students attended Training
1.	Electronics and Communication Engineering (ECE)	54

Courses Conducted:

1. Introduction to IoT.
2. Tools in IoT.
3. Pre-Project development using IoT.
4. Deep drive into technologies and Platform Overview
5. Deep drive into technologies and training on project phase
6. Training on project phases
7. Experience Based project learning

Report for TNGIM -2024 | Student Corporate Ambassador | Regarding

In the presence of our esteemed **Honorable Chief Minister Dr.M.K. Stalin, our college participated as Student Corporate Ambassadors at the "Tamilnadu Global Investors Meet"-2024 (TNGIM) in Chennai** on 07.01.2024 at the Chennai Trade Center, Nandhambakkam.

Our college **is ranked second** in Tamil Nadu among the **top 100 colleges** (including Engineering, Polytechnic, Arts, and Science Colleges). More than 3000 colleges from Tamil Nadu have entered the short film competition.

Students are creating a video on the Topic of

"TNGIM & ITS IMPACT ON NAAN MUDHALVAN STUDENTS" with appropriate materials, advice from the Naan Mudhalvan Team (SANCET), and approval from our College Principal Dr.R.Arokiadass and Secretary Dr.Sr.T.Nirmala.

Students from IV year Computer Science and Engineering Ms. A. Jasmine Madona, Mr. M. Dinesh Balaji, Mr. Aakash, and III year Mechanical Engineering students Mr.G.Premkumar.

The video was submitted to socialmedia@naanmudhalvan.in using SPOC (Single Point of Contact) login, in accordance with the terms and conditions set forth by the Naan Mudhalvan Team in Chennai.

Mr.Dhamodharan, MIS Officer, Cuddalore District (9842541492) informed me about the selection list provided by the Naan Mudhalvan Head Office in Chennai, as well as the selection based on respective Naan Mudhalvan college progress and short video film by students.

The Naan Mudhalvan team has informed Mr.Dhamodharan, MIS Officer, that the Premium pass will be available in the Chennai Trade Center in Nandhambakkam on January 6, 2024 at 4 p.m., and has asked me to collect it along with SPOC.

Mr.G.Premkumar (Reg No: 422121114016) of the III rd year Mechanical Engineering received a premium pass and attended TNGIM-2024 as a Student Corporate Ambassador on January 7, 2024 at Chennai Trade Center.

Our Student Press release at TNGIM-2024

I would like to convey my heartfelt thanks to our honorable chief minister Dr.M.K.Stalin and our honorable minister Udayanithi Stalin for initiating and successfully implementing the Naan mudhalvan program.

It is an upskilling platform for a huge industry-relevant skill upgrading project for Tamil Nadu's youth.

In past years, most students profited and were placed in various companies.

Tamilnadu Global Investors Meet (TNGIM) in 2024 have an impact on Naan Mudhalvan students in terms of identifying, training, and providing career and academic support to all students enrolled in government-run and state-run institutions.

Once again, we are grateful for the opportunity to participate in this historic event provided by our honorable chief minister, Dr. M.K. Stalin, and our honorable minister, Udayanithi Stalin.

I would like to thank Naan Mudhalvan Team, Anna University, the secretary, and the principal of our St. Anne's College of Engineering and Technology, Panruti, Cuddalore District.

About TNGIM – 2024

Our Government of Tamil Nadu is organizing **Tamil Nadu Global Investors' Meet - (TNGIM) 2024** on **7th & 8th January, 2024** at Chennai

This event is conceived as a **major forum for attracting new investments** into Tamil Nadu and will serve as a platform to bring together industry leaders, corporates, innovators, and policymakers worldwide to explore new growth opportunities in this State.

Tamil Nadu is India's **2nd largest State economy.** It is also India's **most industrialized State** and a **major engine of India's economy.** A multitude of industrial and business opportunities abound in Tamil Nadu. Investors from around the world favor the State for its well established industrial ecosystem that spans the entire spectrum of industrial sectors. With a liberal, business-friendly State Government, advanced industrial and logistics infrastructure, vast natural resources, a highly skilled large workforce, ease of doing business, and proximity to major ports, Tamil Nadu is where investors from around the world find enormous success.

The focus sectors for investments include automobile, electronics, Information technology, electric vehicles, aerospace, renewable energy, pharmaceuticals, textiles, chemicals, food processing, heavy engineering, leather and fintech.

TN Global Investors Meet 2024 attracts record investments of ₹6.64-lakh crore. More than 26 lakh jobs are expected to be generated from these investments, says TN Chief Minister.

Sir/Madam,

Greetings from Naan Mudhalvan!

This is to inform you that we have mapped your college for conducting the **Naandi Foundation's Titan LeAP - Employability Skill Development Program** to the final year engineering students under Naan Mudhalvan. This is a 3 days of intensive training for **final year engineering students** as a preparatory program for the Naan Mudhalvan Placements and campus interview. The program covers **Interview skills** like group discussion, mock interview, etc., and **Soft skills** like time management, Professional grooming, etc. It is provided completely **free of cost**.

But due to some reasons the training partner was not able to contact your SPOC and some kind of delay is happening in the execution of this program. We hereby request you to **provide the necessary support** to the training partner for the smooth conduct of the program. The training partner will contact the colleges regarding the program implementation. We anticipate the cooperation & enthusiasm of the colleges in making this workshop a great success.

If you have any queries, kindly contact the below persons
Naandi Team (Training Provider): Mr. Mohammed Faiyaz - 8072194502
Naan Mudhalvan Team: Mr. Periyasamy - 9003081643

Thanks & Regards,

CEO Office

******

Sir/Madam,

Greetings from Tamil Nadu Skill Development Corporation!

We are happy to inform you that we are planning to conduct **Naandi Foundation's Titan LeAP - Employability Skill Development Program** to the final year engineering students under Naan Mudhalvan. We are offering 3 days of intensive training **to around 25000 final year engineering students** as a preparatory program for the Naan Mudhalvan Placements. The program will be implemented in colleges in the zones mentioned below in the Annexure 1.

The program covers Interview skills like group discussion, mock interview, etc and soft skills like time management, Professional grooming, etc. This program will help the students better prepare for the placement drives and improve the student's employability quotient. It is provided completely free of cost through the CSR initiative of the Titan Company.

In light of this, we request the Vice-Chancellor of the Anna University to instruct all their respective colleges to provide the necessary support to the training partner for the smooth Conduct of the program. We anticipate the cooperation & enthusiasm of the colleges in making this workshop a great success. We request the College's Single Point of Contact (SPoC) for the Naan Mudhalvan Program to actively support and coordinate with the Naandi foundation team to ensure the seamless execution of this initiative.

Greetings from CFPD, Anna University!!!

As per the direction of the University administration, it is to bring to your kind attention that forthcoming Feb-June 2024 even semester, 27 unique courses (List of courses enclosed and the syllabus as uploaded in Anna University website) are going to be offered for the 6th semester students. In order to mentor the students, it is proposed to conduct one-week Faculty Development Program (FDP) for the faculty members working in the above – mentioned institutions during **29.01.2024 to 03.02.2024**. **The details of the Host institution, participating zone / college, venue & dates of scheduled FDPs and other details is enclosed as annexure.**

As we are aware Government of Tamil Nadu through the Tamil Nadu Skill Development Corporation (TNSDC) has launched "Naan Mudhalvan" scheme for the benefit of 12.5 Lakh youths studying in the Engineering, Arts & Science and other professional courses across the state of Tamil Nadu. It is one of the prestigious and massive skilling program in which **Anna University is partnering with TNSDC** to conduct certain credit courses and vertical professional elective even semester courses (R-2021) which will be offered in the forthcoming semester Feb-June 2024, to Engineering students studying in the University Departments, Constituent colleges and Non autonomous affiliated colleges of Anna University. The courses offered through these initiatives are based on the industrial expectations and to bridge the gap between the academia and industry in terms of skill set expectations. This skilling initiatives will enhance the employability skills of the individuals and to get placed in the Multi-nationals, R & D and National level organizations. These courses are being delivered by the Industry training partners.

The "Naan Mudhalvan" & CFPD of Anna University team has done a meticulous planning in executing this FDP without any hassle. The team deserves a special encomium. Now it's our turn to support by sending the faculty members to the designated venue for FDP and providing them with "ON-DUTY" and to speak with the management to provide any additional support for their travel and accommodation. A special mention to the host institution to provide necessary infrastructure including seminar hall with SA system, Computer lab if required.

Kindly note the following instructions that are given by the TNDSC:

1. Each hosting Institution is eligible for Rs.250/day, per faculty for lunch, snacks and tea.
2. Each faculty will be given Rs.250/day for incidental expenses per day for each day of attendance and will be paid at the end of FDP.
3. All faculty members must bring their laptops for the sessions. (Please don't ask support from the host institutions)
4. Faculty logistics must be completely taken care by the concern institutions/ Individuals. (Please don't ask support from the host institutions)
5. College management can support physical infrastructure systems with required specification (RAM, HDD, Graphics Card, OS, Internet connectivity) as per ANNA University affiliation/Accreditation norms.
6. We also request the host institutions to support the faculty members of other institutions in the form of hostel accommodation and other support.

Special Note:

1. FDP for the following courses alone will be held during schedule **February 1st-3rd, 2024**
    a. Artificial Intelligence and Machine Learning Fundamentals
    b. Data Science Fundamentals

c. Generative AI for Engineering

d. Web Technologies (Full Stack with DJANGO)

e. Cyber Security

2. There shall be no physical FDP for the Cloud Services Management course this time.

Please take notice of the schedule for each FDP to make suitable arrangements on specific date as per the subject allocated for your institution.

We solicit your kind cooperation for the smooth conduct of this FDP.

REPORT - NAAN MUDHALVAN SCHEME – ANALOG IC DESIGN

Year/Semester: IV Year/VII Semester
Batch: 2021-2025
Department: ECE.
Duration: 16.02.2024 to 26.04.2024
Training Partner: L&T EDU TECH
Training Mode: Offline
Number of Students: 31
Details of students attended Training programme:

S.No.	Department	Number of Students attended Training
1.	Electronics and Communication Engineering (ECE)	31

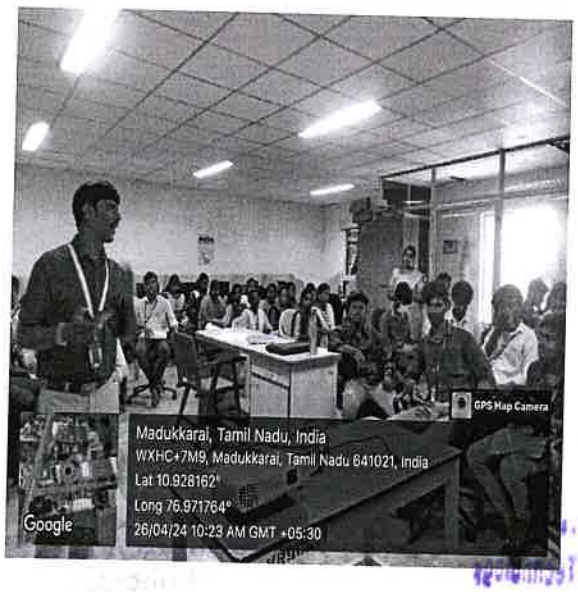

Courses Conducted:

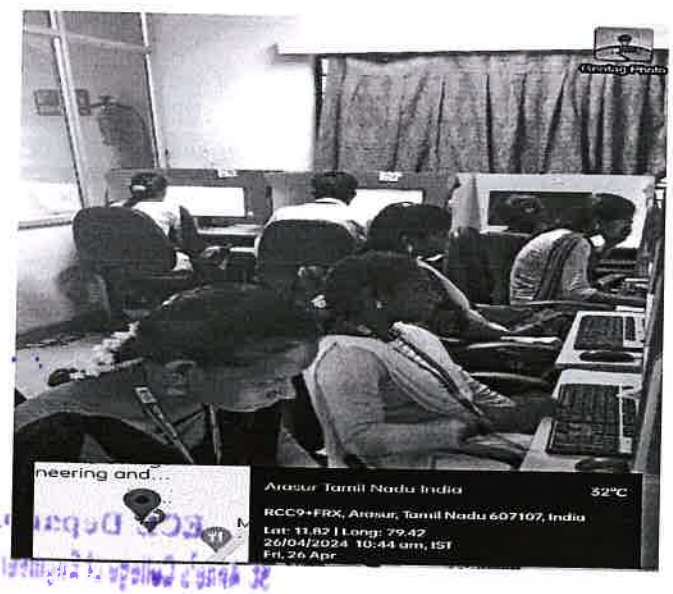

1. Importance of Analog IC Design, Software installation techniques.
2. MOS Device Modelling using LT Spice, Design of MOS Transistor using Electric VLSI EDA Tool.
2. Design of Common Source and Common Drain (Source follower) using Electric VLSI EDA Tool.
3. Design of CMOS Inverter and CMOS NAND using Electric VLSI EDA Tool.
4. Design of Differential amplifier and Ring Oscillator using Electric VLSI EDA Tool.

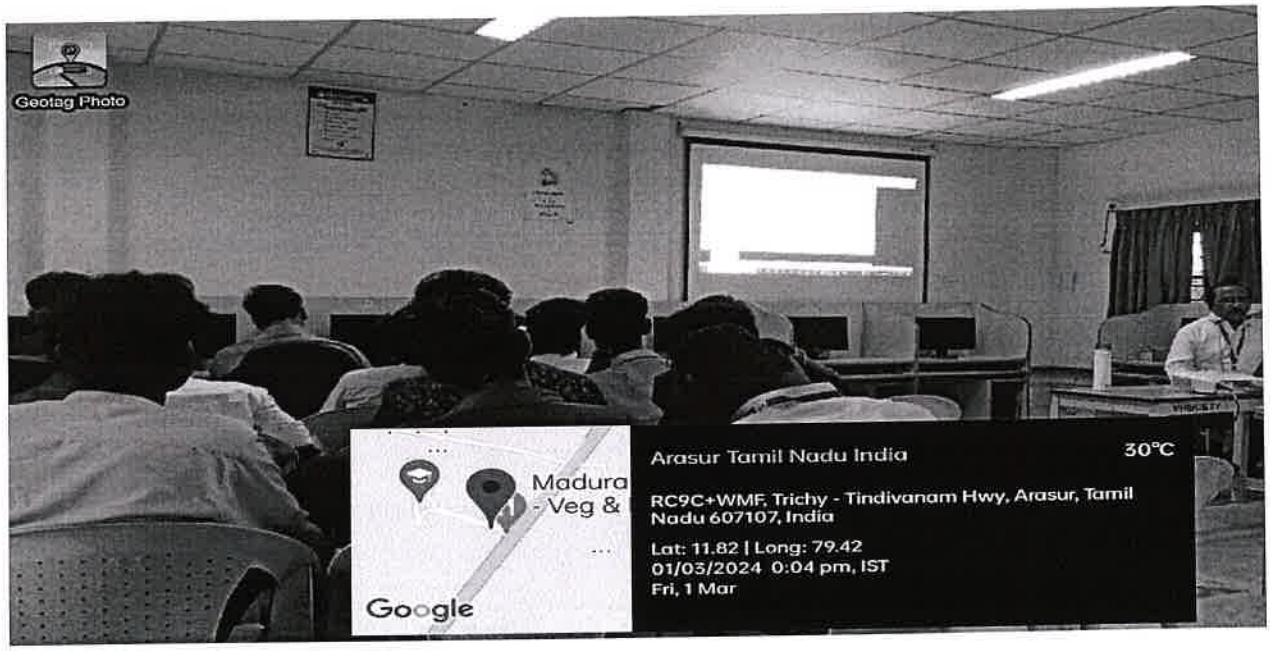

Faculty Mentor:

Mrs. B.Mary Amala Jenni, AP/ECE

Analog IC Design course: The Course was conducted for Final-Year Electronics and Communication Engineering, Students under Naan Mudhalvan scheme in our College in Offline mode.

Course details:

S.No.	Week	Date	Title	Mode
1	Week 1	16.02.2024	Importance of Analog IC Design, Software installation techniques	Offline
2	Week 2	08.03.2024	MOS Device Modelling using LT Spice.	Online
3	Week 3	15.03.2024	Design of MOS Transistor using Electric VLSI EDA Tool	Offline
4	Week 4	05.04.2024	Design of Common Source and Common Drain (Source follower) using Electric VLSI EDA Tool.	Offline
5	Week 5	12.04.2024	Design of CMOS Inverter and CMOS NAND using Electric VLSI EDA Tool.	Offline
6	Week 6	26.04.2024	Design of Differential amplifier and Ring Oscillator using Electric VLSI EDA Tool.	Offline

Course Assessment: The Internal mark will be awarded for Average marks of five modules by faculty mentor of the student and External mark will be awarded by Trainer in Naan Mudhalvan portal. The average mark of the student prepared by faculty mentor will be uploaded with the approval of Naan Mudhalvan and Anna university portal, department member, SPOC, Head of the department and Principal of the Institution.

Guest lecture on Recent trends in future of Tidal Energy

Objective:

Water is hundreds of times denser than air. It makes tidal energy more powerful than wind. tidal energy is more efficient than wind energy or Solar energy due to the relative density of water and produces no greenhouse gases or other waste. Thereby becoming an attractive renewable energy source to pursue.

Outcomes:

We learn how to develop and employ the tidal energy which is a type of renewable energy generated by the movement of ocean tides. It is a clean and sustainable source of energy that has the potential to play an important role in meeting the world's energy needs in a sustainable way.

REPORT ON THE PROGRAMME

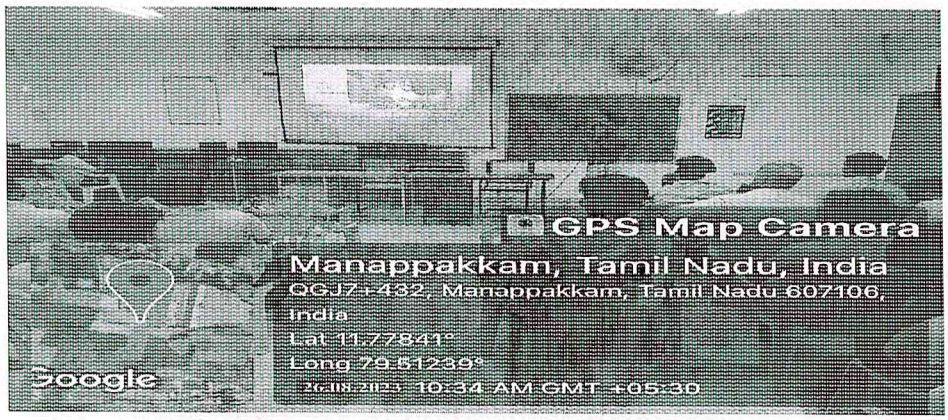

A Guest Lecture on "Recent Trends in Future of Tidal Energy" on the 26th August, 2023

The Energy Club, Department of Mechanical Engineering, organised a Guest Lecture to raise awareness of "Recent Trends in Future of Tidal Energy" on the 26thAugust, 2023 at the Mechatronics Laboratory. The Resource Person was Mr.Vaithiyanathan S.,B.E., General Manager, Asia Power Hydraulics, Puducherry. The Third and Final Year Students of the Department of Mechanical Engineering actively participated in the Programme.

The Programme started with the Prayer Song. Mr.Premkumar G., III Year/Mechanical Engineering, welcomed the gathering. A thought-provoking Felicitation Speech was delivered by Dr. D.Ommurugadhasan, HOD/Department of Mechanical Engineering. Then, Mr. Premkumar G.,III Year/Mechanical Engineering, gave a brief introduction of the Resource Person. Dr.D.Ommurugadhasan, HOD/Department of Mechanical Engineering, honoured the Resource Person with a memorable gift.

Mr. Vaithiyanathan S. in his speech highlighted the importance and need of Renewable Energy in the Power Production Field, explained renewable energy which helps us get employment opportunities and also explained the working of Tidal Energy Power Plants. The students who participated in the Programme were of the opinion that the Guest Lecture was highly informative and interactive.

At the end of the Programme, Feedback Letters were collected from the students. Mr. Aravindan S. IV Year/Mechanical Engineering delivered the Vote of Thanks. The Programme ended with the National Anthem.

Dear sir,

I am very glad to invite you as Resource Person for the guest lecture on "**APPLICATIONS OF DIFFERENTIAL CALCULAS**" which is to be scheduled on 22nd DEC 2023.

I request you to accept my requisition letter attached with this mail and send back acceptance mail

Regards,
V.Prakash,
Assistant professor of Mathematics,
St. Anne's College of Engg. and Tech.

APPLICATIONS OF DIFFERENTIAL CALCULUS
REPORT

Date: 22/12/2023
Venue: SANCET, Auditorium.

The Department of Science and Humanities organized a seminar on "Applications of Differential Calculus" on 22.12.2023 for all the students of the S&H Department.On the day, We had invited our Secretary Rev.Sr.Dr.T.Nirmala, the Principal Dr.R.Arokia dass, the Vice-Principal Sr. Punitha Jilt to preside over the function.The program was started 9.30 am with prayer song and Mr.N.Syed Mubarak,AP/Maths welcomed the gathering. The seminar of the program Dr.C .Jesuraj.Prof/Maths,C.K College of Engg & Tech, Cuddalore, elaborated the importance of Applications of Differential Calculus. It is an eye opener for the students from their dark sides of basics of mathematics. The basic concepts discussed during the session are highlighted as follows: The formulas of derivatives and integrations , Importance of derivatives and integrations in mathematical problems and its applications.

The vote of thanks was given by a Mr. V.Prakash,AP/Maths and Mrs.S.Ramya,AP/HOD, presented a token of appreciation to our valuable resource person.

REPORT OF INDUSTRY ORIENTED GUEST LECTURE ON CYBER SECURITY

YEAR / BRANCH / BATCH	**III / IV YEAR CSE**
NAME & DESIGNATION OF THE RESOURCE PERSON	**Mr. Palanivel Manoharan, Senior CyberSecurity, USA**
DATE / TIME OF IOGL	**28.03.24 / 3.00PM to 4.30PM**
IOGL COORDINATOR	Mr.R.Manickavasagan AP/CSE
NUMBER OF STUDENT ATTENDED	**88 Students**
OBJECTIVE OF IOGL	The Industry Oriented Guest Lecture was organized for the III Year Students in order to enrich them with more knowledge in the field of "CYBERSECURITY" Also intended to impart knowledge about the career paths in software industry.

DESCRIPTION OF THE IOGL:

The IOGL Coordinator Mr. R. Manickavasagan AP/CSE, Inaugurated the IOGL function & honored the resource person **Mr. Palanivel Manoharan, Senior CyberSecurity, USA.** The Chief Guest started the Industry oriented guest lecture was initiated by with the Overview of Cyber Security . Then started with the basic Content Writing.

The following Lecture Given the Resource Person:

- **Introduction to Cyber Security**
- **Cybersecurity Domains**
- **Phishing Types**
- **DDos Attacks**
- **Security Breaches**
- **Essentials of Cybersecurity Practices**
- **Malware (Viruses, Ransomware, Spyware)**

The resource person has conducted various activity

OUTCOME OF INDUSTRIAL ORIENTED GUEST LETURE	This IOGL helped the III/IV year students to get more knowledge in basic and in practical point of view and gained the confidence on the subject. Students acquired deep insights of the CyberSecurity. Also they realize the subject content with practical.
FEEDBACK FROM STUDENTS	The Industry Oriented Guest lecture provided by the resource person was very fruitful that helped us to understand the basics ideas in cybersecurity . Doubts were clarified then and there and they conducted various activity it gives satisfaction. This guest lecture has enhanced the basic knowledge thoroughly. **Mr. R. Manickavasagan AP/CSE**
CONCLUSION	The Industry Oriented Guest Lecture provided a platform for the students to enrich their knowledge on CyberSecurity and has given confidence to approach the examination. They came to know the key areas to concentrate for examination. At the same time the students gained a complete understanding on the basic of the subject.

Guest lecture on Recent trends in future of Tidal Energy

Objective:

Water is hundreds of times denser than air. It makes tidal energy more powerful than wind. tidal energy is more efficient than wind energy or Solar energy due to the relative density of water and produces no greenhouse gases or other waste. Thereby becoming an attractive renewable energy source to pursue.

Outcomes:

We learn how to develop and employ the tidal energy which is a type of renewable energy generated by the movement of ocean tides. It is a clean and sustainable source of energy that has the potential to play an important role in meeting the world's energy needs in a sustainable way.

REPORT ON THE PROGRAMME

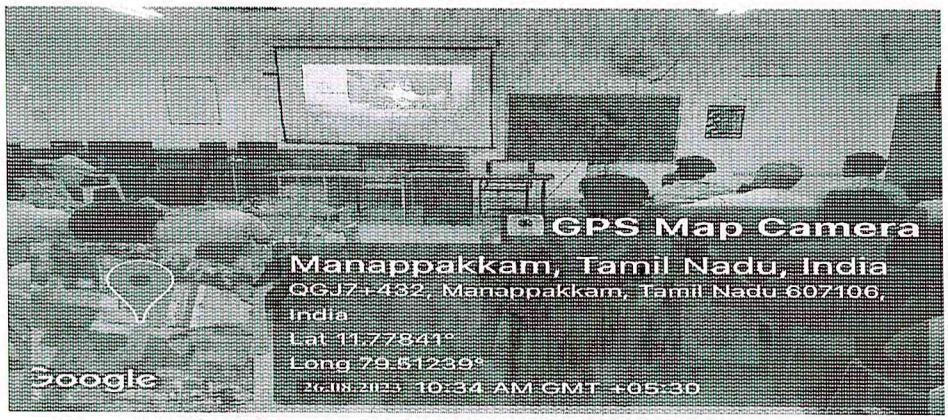

A Guest Lecture on "Recent Trends in Future of Tidal Energy" on the 26th August, 2023

The Energy Club, Department of Mechanical Engineering, organised a Guest Lecture to raise awareness of "Recent Trends in Future of Tidal Energy" on the 26thAugust, 2023 at the Mechatronics Laboratory. The Resource Person was Mr.Vaithiyanathan S.,B.E., General Manager, Asia Power Hydraulics, Puducherry. The Third and Final Year Students of the Department of Mechanical Engineering actively participated in the Programme.

The Programme started with the Prayer Song. Mr.Premkumar G., III Year/Mechanical Engineering, welcomed the gathering. A thought-provoking Felicitation Speech was delivered by Dr. D.Ommurugadhasan, HOD/Department of Mechanical Engineering. Then, Mr. Premkumar G.,III Year/Mechanical Engineering, gave a brief introduction of the Resource Person. Dr.D.Ommurugadhasan, HOD/Department of Mechanical Engineering, honoured the Resource Person with a memorable gift.

Mr. Vaithiyanathan S. in his speech highlighted the importance and need of Renewable Energy in the Power Production Field, explained renewable energy which helps us get employment opportunities and also explained the working of Tidal Energy Power Plants. The students who participated in the Programme were of the opinion that the Guest Lecture was highly informative and interactive.

At the end of the Programme, Feedback Letters were collected from the students. Mr. Aravindan S. IV Year/Mechanical Engineering delivered the Vote of Thanks. The Programme ended with the National Anthem.

To Learn about the basics of drone components and hardware.

Report:
All the second-year students of Department of Electronics and Communication Engineering participated in this orientation program. Chief Guest, Mr. V. Vijayakumar is an alumni of our institute of 2011-2015 batch of Department of Electronics and Communication Engineering. He said the uses of drones on a commercial basis, in the field of aerospace, in agriculture, usage by Defense Force of Various Countries. In Civil Engineering purposes, drones are helping in the advance mapping. He also said that all countries should have a uniform approach towards the safety & security considerations, design consideration and operation considerations. He taught the basics of Drone technology and different types of drone used for different application. He also telecasted a video on making of his own drone and also other YouTube videos to make students understand the working of the drone. Finally, the students gave their valuable feedback about their experience in workshop. The session ended in a fruitful manner with a vote of thanks.

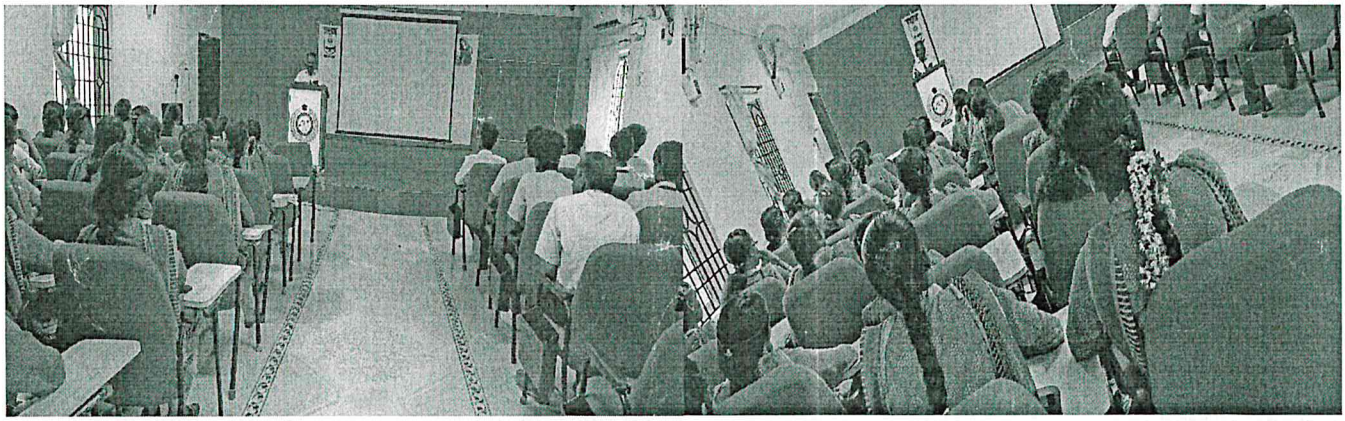

Theme: The Living Essence of Education

Objective:
To Learn about the importance of Education.

Report:
All the second-year students of Department of Electronics and Communication Engineering participated in this orientation program. The resource person Dr. R. Arokiadass, Principal, SANCET. He taught about Education is a procedure of learning where knowledge, skills, and habits move from one generation to the other. Moreover, education is essential for the overall development of a human being. For instance, their personal, social as well as the economic development of the country. He insists the student that if we talk about the importance of education in our daily life, we have to admit that it improves our personal lives and helps in running the societies smoothly by protecting everyone including ourselves from the harmful and unexpected events. Finally, the students gave their valuable feedback about their experience in orientation program. The session ended with new scope and valuable vote of thanks.

Outcomes:
- Students learnt basics of various drone components.
- Students learnt drone application.
- Students learnt about value of education

A REPORT ON SEMINAR IN

"TOP TECH SKILLS IN 2024"

06th APR 2024

TIMING: 3:00 P.M TO 4:30 P.M

C programming language:

C is a general-purpose programming language created by Dennis Ritchie at the Bell Laboratories in 1972. It is a very popular language, despite being old. The main reason for its popularity is because it is a fundamental language in the field of computer science.

C++ programming language:

C++ is a most popular cross-platform programming language which is used to create high-performance applications and software like OS, Games, E-commerce software, etc. It was developed by Bjarne Stroustrup, as an extension of C language. C++ give a high level of control over system resources and memory.

Python programming language:

Python is a dynamic, interpreted (byte code-compiled) language. There are no type declarations of variables, parameters, functions, or methods in source code. This makes the code short and flexible, and you lose the compile-time type checking of the source code.

Java programming language:

Java is a widely used object-oriented programming language and software platform that runs on billions of devices, including notebook computers, mobile devices, gaming consoles, medical devices and many others. The rules and syntax of Java are based on the C and C++ languages.

Artificial Intelligence (AI):

ARTIFICIAL INTELLIGENCE (AI) are the major tool for exploring and building computer programs that can be used to simulate intelligent processes such as learning, reasoning and understanding symbolic information in context.

Machine learning(ML):

Machine learning (ML) is a field of study in artificial intelligence concerned with the development and study of statistical algorithms that can learn from data and generalize to unseen data, and thus perform tasks without explicit instructions.

Full Stack Development:

Full-stack developers have a high level of competency in both front end and back end languages. They are skilled in HTML, CSS, JavaScript, NodeJS, ExpressJS, Django, and PHP. Equally, full-stack developers understand various database management systems (DBMS) like MySQL, PostgreSQL, MongoDB, and more.

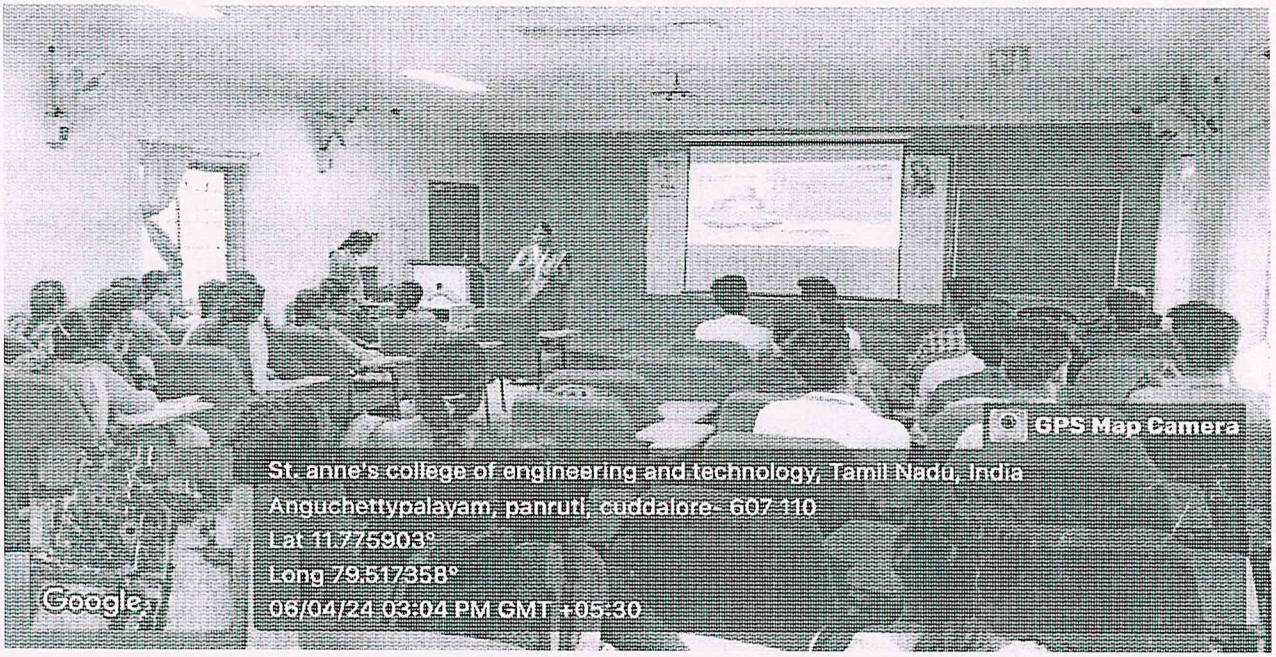

Data science:

Data Science is about data gathering, analysis and decision-making. Data Science is about finding patterns in data, through analysis, and make future predictions. By using Data Science, companies are able to make: Better decisions (should we choose A or B)

Report on "Role of Engineers in Armed Forces"

On the account of Engineers day celebration a One-day seminar has been organized on "**Role of Engineers in Armed Forces**" by the Department of Electrical and Electronics Engineering on 14th September 2023, in our college premises at control and instrumentation laboratory. **Mr. R. Rasu, CRPF, Para Military Force, Indian Army**, Proud Alumni Student of 2022 batch, SANCET was the Resource Person and the event started with prayer song in the presence of Faculties and students of the department. Ms. Barani final year student gave welcome address and Mr. J. Ramesh AP/EEE Event coordinator inaugurated the session and honored the chief guest. Mr. K. Sriram AP/EEE introduced the chief guest and encouraged the students to listen the seminar with great interest throughout the session. Our resource person started with a small interaction with the students and he shows various opportunities of Electrical Engineers in field of Indian Army. He further gave idea to the students about the possible ways for applying the vacancies in armed forces. Finally, the session was concluded with a vote of thanks by Ms. Adhirai third year student and concluded with small query session. Herewith some of the glimpses of the seminar are attached.

Seminar Report on "Job Opportunities in Semiconductor Devices"

On October 3. 2023, the Department of Electrical and Electronics Engineering had organized One-day seminar on **"Job Opportunities in Semiconductor Devices"** in our college conference hall to broaden the students practical understanding. In the presence of the department faculty and students, the seminar started with a prayer song and a holy book reading. Ms. V. Adhirai, third year student, acknowledges the resource person, **Mr. S. Joseph Sebastian, Hardware engineer (Power and Performance) Intel technology India Pvt. Ltd. He is the SANCET'S Notable Alumni Student of 2015 cohort**. The session was inaugurated by Mr. K. Sriram, Head of the department and honored the chief guest with a shawl. The souvenir was given by Mr. V. Balaji, AP/EEE and he also urged the students to pay close attention to the lecture for the entire time. Our resource person began by having a brief conversation with the students and then went on to discuss the many career options available to electrical engineers in the sector of the electronics industry. He also discussed several approaches with the students and mentioned the demand for engineers in the industrial sector. The session was ended with a short question period and a vote gratitude from Ms. Abitha, third year student. Some of the seminar snippets are posted here. Finally, the session was concluded with a vote of thanks by Ms. Abitha third year student and concluded with small query session. Herewith some of the glimpses of the seminar are attached.

Workshop On Testing of Electronic Devices in Hardware

One day workshop was organized by the Department of Electrical and Electronics Engineering for the Students of second year on November 8th 2023. **Mr. Raja. V,** Proprietor Raja Electronic Institute was the resource person. The fundamentals of electronic components and operation were taught to the students. They discussed the functions, benefits, and drawbacks of several electronic component types, including resistors, capacitors, transistors, diodes, inductors, multimeters, integrated circuits, and power amplifiers. In addition, he described a circuit that embodies the above components in everyday life. He offered lectures on how to calculate power consumption and operate EB circuit boards. Lastly, the students shared their insightful views regarding their workshop experience. A resounding vote of thanks brought the session to an end.

APPLICATIONS OF DIFFERENTIAL CALCULUS
REPORT

Date: 22/12/2023
Venue: SANCET, Auditorium.

The Department of Science and Humanities organized a seminar on "Applications of Differential Calculus" on 22.12.2023 for all the students of the S&H Department.On the day, We had invited our Secretary Rev.Sr.Dr.T.Nirmala, the Principal Dr.R.Arokia dass, the Vice-Principal Sr. Punitha Jilt to preside over the function.The program was started 9.30 am with prayer song and Mr.N.Syed Mubarak,AP/Maths welcomed the gathering. The seminar of the program Dr.C .Jesuraj.Prof/Maths,C.K College of Engg & Tech, Cuddalore, elaborated the importance of Applications of Differential Calculus. It is an eye opener for the students from their dark sides of basics of mathematics. The basic concepts discussed during the session are highlighted as follows: The formulas of derivatives and integrations , Importance of derivatives and integrations in mathematical problems and its applications.

The vote of thanks was given by a Mr. V.Prakash,AP/Maths and Mrs.S.Ramya,AP/HOD, presented a token of appreciation to our valuable resource person.

SESSION PLAN

1. **DAY 1**
   - Introduction to Embedded System Design
   - Introduction to Raspberry Pi Pico
   - In/Out Ports of Raspberry Pi Pico
   - Introduction to Arduino IDE
   - Program Raspberry Pi Pico with Arduino IDE
   - Raspberry Pi Pico GPIO through WOKWI online Platform
   - Programming – LED Blinking
   - LED Control using Push Button with
   - Raspberry Pi Pico

2. **DAY 2**
   - Colorful Flowing Lights using Raspberry Pi Pico
   - Seven Segment display control using
   - Raspberry Pi Pico
   - Project 1: Traffic Light Controller with Raspberry Pi Pico
   - Project 2: Smart Lamp with Raspberry Pi Pico
   - Project 3: Traffic Light Controller with Raspberry Pi Pico

3. **DAY 3**
   - Introduction to Micro Python & Thonny IDE
   - Getting Started with Raspberry Pi Pico using Thonny IDE
   - Controlling LED using Raspberry Pi Pico
   - Controlling RGB LED using
   - Raspberry Pi Pico
   - Seven Segment Display interfacing with Raspberry Pi Pico

4. **DAY 4**
   - Interface Push Button with
   - Raspberry Pi Pico and Control LED
   - LED bar graph with Raspberry Pi Pico
   - Dark Activated Night Lamp using
   - LDR & Raspberry Pi Pico

5. **DAY 5**
   - ADC with Raspberry Pi Pico
   - Interface Analog Joystick Module with Raspberry Pi Pico
   - Soil Moisture Sensor with Raspberry Pi Pico
   - PWM based LED Fading using Micro Python
   - Raspberry Pi Pico using Micro Python
   - I^2C LCD Interfacing with Raspberry Pi Pico

MICROPYTHON USING RASPBERRY PI PICO

REPORT

Resource Person: Mr. S. Balabasker, AP/ECE, SANCET **Date:** 28.08.2023 to 01.09.2023

The Department of Electronics and Communication Engineering (ECE) in association with Electro Spark (ECE Incubation Center) has organized a five days workshop on "Micropython Using Raspberry Pi Pico".

Objective:

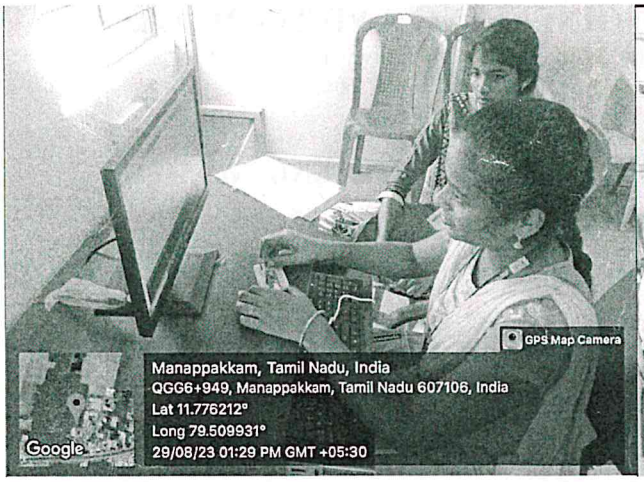

To demonstrate the hardware and software portion of Raspberry PI, which is a powerful and a great platform for building low-cost, but highly capable, embedded systems.

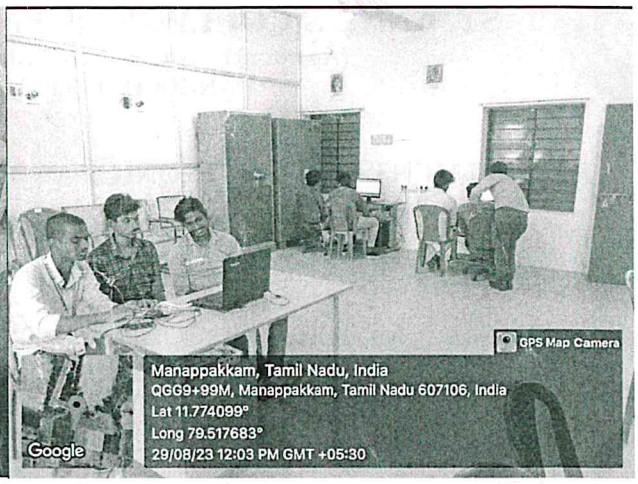

Report:

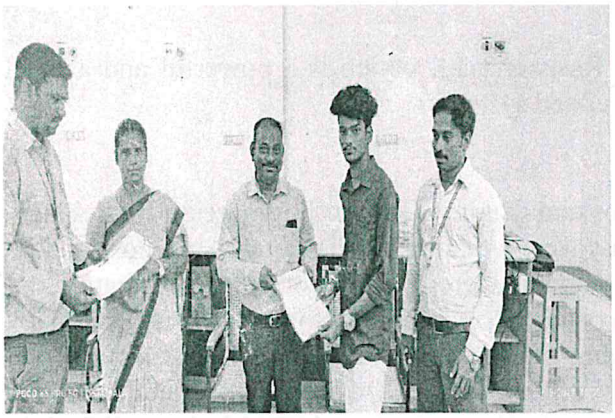

All the Final year students of Department of Electronics and Communication Engineering participated in this workshop. First day of the workshop, the students were taught about basics of Arduino Uno and how to implement it on the basic project. Second day students were taught about pins and features of Raspberry Pi Pico and the students were separated into batches hands-on training was given. Third day students learnt programming in Raspberry Pi Pico using micropython language. On the Fourth day students learned to work in thonny software and wokwi online platform. On the fifth day students were assigned with various task and multiple choice questions test relevant to Raspberry pi pico and Arduio UNO has been conducted. The program ended with the valedictory in which our Principal, Dr.R.Arokiadass, our HOD, Dr. Sr. S. Anita, the resource persons Mr. S. Balabasker, our department teaching and non-teaching staff and students from our department were present. At the end of the session our Principal Dr. R. Arokiadass appreciated the resource persons Mr. S. Balabasker and also issued the certificates to all the students. Finally, the students gave their valuable feedback about their experience in workshop. The session ended in a fruitful manner with a vote of thanks.

Outcomes:

- Students learnt to create interesting applications with basic programming languages.
- Students got hands on exposure on working on Raspberry Pi Pico board with micropython. They are use this training to develop more projects like LED blinking, Traffic Light Control with push button 8 LED blinking sequence and subsequence using Picoboard.

WORKSHOP ON ANTENNA DESIGN USING HFSS

COURSE CONTENT

- Guided Media & Unguided Media
- Modes of Propagation in wireless communication
- Microwave Frequency Bands
- What is Electromagnetic Spectrum
- Training of research tool: HFSS
- Design of Microstrip patch antenna using Contact feed techniques
- Design and Simulation of Meta material design and Reconfigurable antennas

PROGRAM SCHEDULE

DATE	SESSION	TIME	TOPIC
DAY 1			
11/08/2023	I	9.30AM - 10.00Am	Introduction to Communication Systems and various types of \antenna
TEA BREAK (11AM to 11.15AM)			
11/08/2023	II	11.15AM - 12.35PM	Training of research tool: HFSS
LUNCH BREAK (12.35 PM to 1.15 PM)			
11/08/2023	III	1.15 PM - 2.55 PM	Calculation for Rectangular Microstrip patch antenna
TEA BREAK (2.55 PM to 3.05 PM)			
11/08/2023	IV	3.05PM - 4.30PM	Design of Microstrip patch antenna using offset feed techniques
DAY 2			
12/08/2023	V	9.30AM - 11AM	Design of Microstrip patch antenna using Inset feed techniques
TEA BREAK (11AM to 11.15AM)			
12/08/2023	VI	11.15 AM - 12.35PM	Assign Excitation and boundary conditions for inset feed techniques

ANTENNA DESIGN USING HFSS REPORT

Resource Person: Mr. S. Durairaj, AP/ECE,
Mr. R. Radhakrishnan, AP/ECE SANCET

Date: 11.09.2023 to 12.09.2023

The Department of Electronics and Communication Engineering has organized a Two days workshop on "Antenna Design using HFSS".

Objective:
To demonstrate the Introduction to Communication Systems and various types of antenna, which is a powerful and a great platform for building low-cost, but highly capable in antenna design.

Report:
All the Final year students of Department of Electronics and Communication Engineering participated in this workshop. First day of the workshop, the students were taught about basics of communication systems with research tools HFSS and Designed the Microstrip patch antenna using offset feed techniques which includes the calculation part also. Second day students were taught about Design of Microstrip patch antenna using Inset feed techniques and Assign Excitation and boundary conditions for inset feed techniques hands-on training was given. Students were learned to work under the Design of Circular patch antenna using offset feed techniques with Different types of meta materials and smart antennas.

Outcomes:

- Students learnt to create interesting applications with basic Antenna Design.
- Students got hands on exposure on working on HFSS to design an microstrip patch antenna using offset feed techniques and inset feed techniques.

The Department of Mechanical Engineering has organized a 3-day's workshop on Creo Software for II and III year Mechanical students during October 14, 2023, October 21, 2023 and November 4, 2023. The course was handled by Mr. K.Shanmuga Elango,AP/MECH of St. Anne's College of Engineering and Technology. During this course, sketching, solid modeling, surface modeling, and assembly were covered. The students ideas were greatly extended by this training course. A total of 42 students participated, and a certificate was provided to every student. The first day of the workshop started with detailed information on PTC and an explanation of Datum's. From the introduction of datum's to the in-depth fundamentals of datum's, one editing feature of a model is covered in the Creo software. In the last session, the parts of creating feature patterns, uses of patterns, creating patterns, and deleting patterns were discussed. Day 2 and 3 gave an introduction to the concepts of advanced modeling tools like sweep, blend, shell, and blend. All the commands were experienced hands-on by the participants on Creo software. The second half of the third day was focused on geometrical dimensioning and tolerances. The three-day workshop began with generating, editing, and modifying the drawing views. The participants asked different questions in the comment sections, which were also actively resolved.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

OBJECTIVES:

- To enhance the quality of images, extract meaningful information from images, and automate image-based tasks.
- The objective of the workshop is to give exposure on the digital image processing algorithms which are found in the application such as Biometric, agriculture, communication and remote sensing.

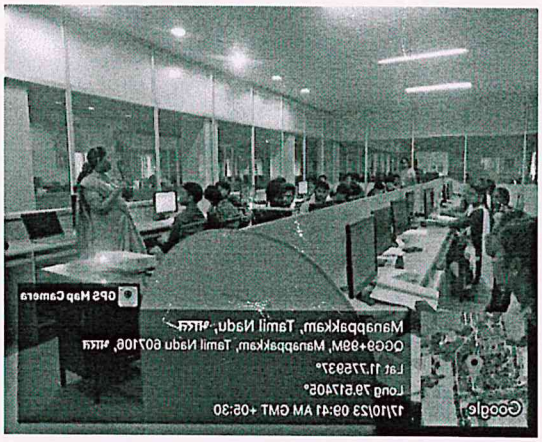

REPORT:

The Department of Electronics and Communication Engineering (ECE) in association with Electronics and Communication Scientia Association (ECSA)had arranged two days' workshop on Digital Image Processing using MATLAB for Third year students on 16.10.2023 and 17.10.2023 at VLSI lab/Embedded lab.The program commenced with the inaugural event in presence of our principal Dr.R.Arokiadass, and Dr .Sr .S. Anita the Head of the department of electronics and communication. The workshop was designed to stimulate students' interest in Image Processing domain for studying theory subject as well as for doing final year project. In first day of workshop students were taught about the introduction of Image processing, Basic programs of Image Processing in MATLAB. The second day of workshop they were taught about the segmentation, edge deduction and filtering of images and practical sessions were conducted. This workshop will help the engineering students and enthusiasts/scholars to get trained in MATLAB package in the aspect of image processing The workshop is designed to stimulate students interest in Image Processing domain by engaging them in a completely purpose driven study environment with hands-on activities while fostering a sense of curiosity and accomplishment .This will open up a door for programming in image processing. Student's feedback also good.

OUTCOMES:

Upon the completion of the course, students will be able

- To know about the basic programs of Image Processing in MATLAB.
- To know about the Image Enhancement, Acquisition and Segmentation.
- To know about the filtering of images in Image Processing.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

PCB DESIGNING USING PROTEUS - REPORT

OBJECTIVES:

- To introduce schematics and electronic prints for manufacturing printed circuit boards.
- To Simulate Electronics Circuits and designing PCB Layouts.
- To create simulations of different electronic circuits.

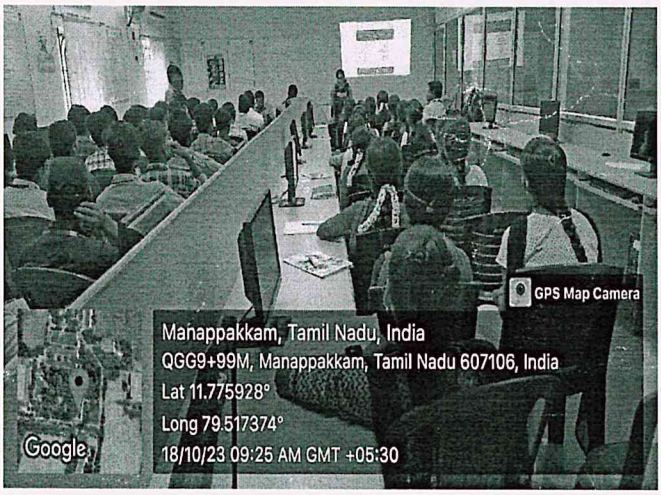

REPORT:

The Department of Electronics and Communication Engineering (ECE) in association with Electronics and Communication Scientia Association (ECSA) had arranged two days' workshop on PCB Designing using Proteus Software for second year students on 18.10.2023 and 19.10.2023 at VLSI lab/Embedded lab. The program commenced with the inaugural event in presence of our Principal Dr.R.Arokiadass, and Dr .Sr .S. Anita, Head of the department of Electronics and Communication Engineering. Mr.V. Venkatesan, Assistant Professor/ECE, Mr.S.Durai raj, Assistant Professor/ECE, acted as resource person for this workshop. The workshop was designed to stimulate students' interest in Proteus software for PCB designing. In first day of workshop students were taught about the introduction of schematics and electronic prints for manufacturing printed circuit boards. In the second day of workshop they were taught to Simulate Electronics Circuits and to design PCB Layouts. In order to enable the students to create simulations of different electronic circuits on their own practical sessions were conducted in Proteus Software.

This workshop will help our students to get trained in Proteus Software. The workshop is designed to stimulate students' interest in Proteus Software for PCB designing by engaging them in a completely purpose driven study environment with hands-on activities while fostering a sense of curiosity and accomplishment. This will open up a door for doing simulation in Proteus Software.

To test the students' knowledge on this software a mini project contest was conducted at the end of the session. All students participated enthusiastically and designed the circuits on their own using proteus software.

The resource persons verified all the designs done by the students and gave their suggestions and comments. The session ended with Students' feedback.

OUTCOMES:

Upon the completion of the course, students will be able

- To design the Electronic Circuits on their own using proteus simulation software.
- To know about the schematics and electronic prints for manufacturing printed circuit boards.
- To know about the Simulation of Electronics Circuits and designing PCB Layouts.

TESTING OF ELECTRONIC DEVICES IN HARDWARE

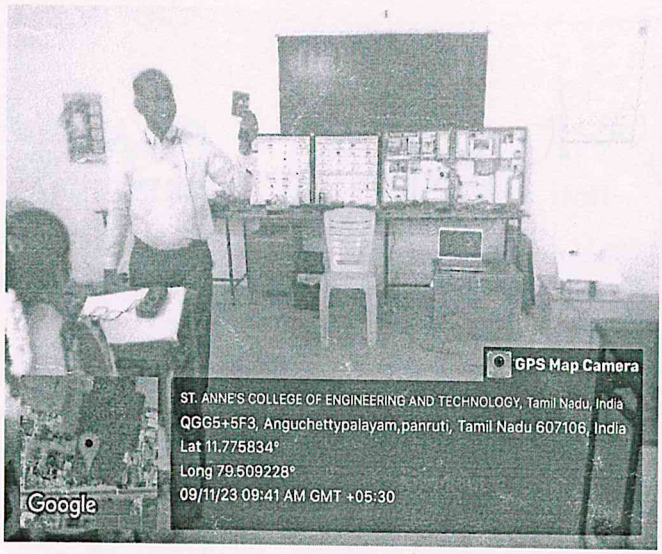

REPORT

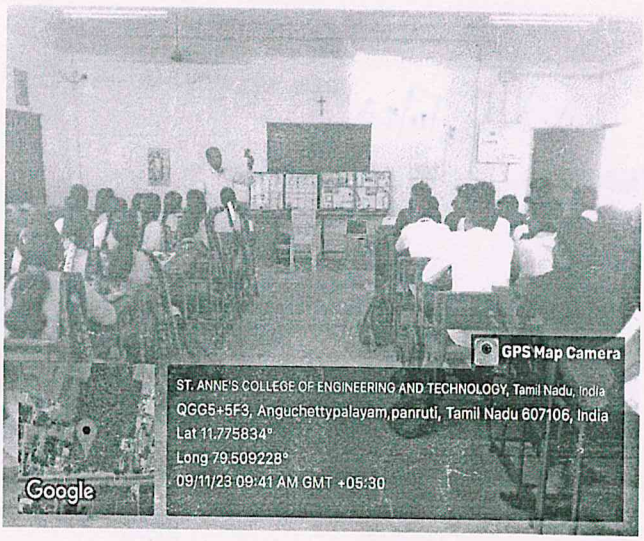

Resource Person: Mr. V. Raja, Proprietor, Raja Electronics Institute **Date:** 09.11.2023

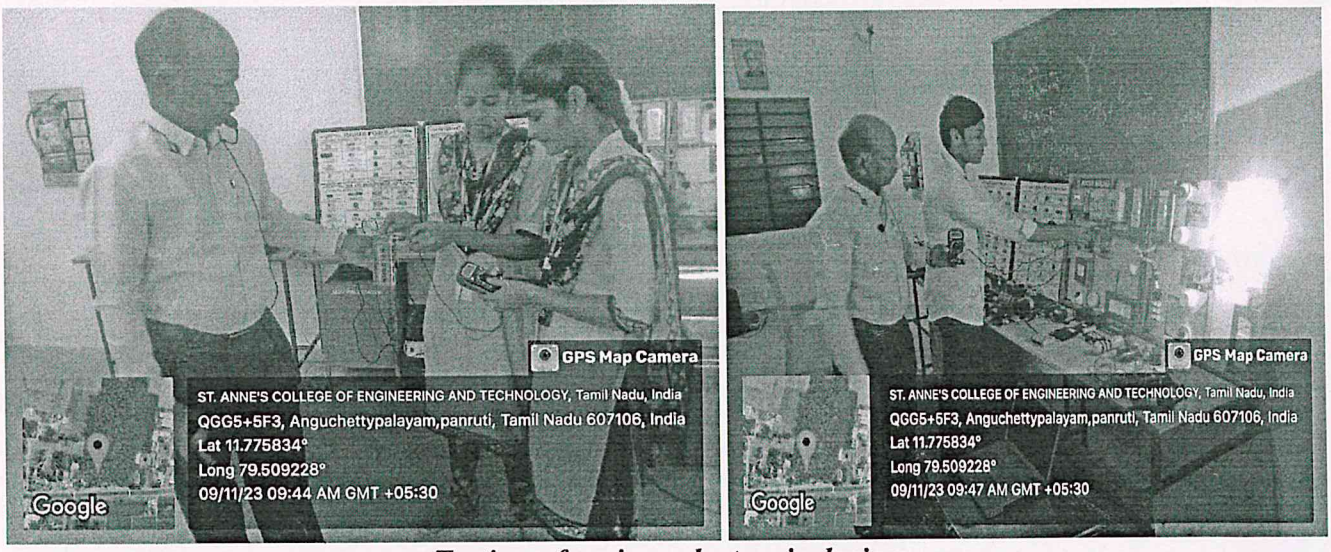

The Department of Electronics and Communication Engineering (ECE) in association with Institute of Innovation Council (IIC) has organized a one day workshop on "Testing of Electronic Devices in Hardware".

Objective:
To Learn about the basics of electronic components and learn testing of electronic devices in hardware.

Report:
All the second-year students of Department of Electronics and Communication Engineering participated in this workshop. The students were taught about basics of electronic components and working. Explained different types of electronic components such as resistors, capacitor, transistor, diode, inductor, multimeter, IC, power amplifiers their uses, advantages and disadvantages. He also explained a circuit for practical implementation of above components. He also taught EB circuit board working and how to calculate power consumption. Finally, the students gave their valuable feedback about their experience in workshop. The session ended in a fruitful manner with a vote of thanks.

Testing of various electronic devices

Outcomes:

- Students learnt basics of various electronic components.
- Students learnt testing of electronic devices in hardware.

Workshop on Digital Fabrication for Mechanical Engineers

Objective:

- To know the technological advancements allow innovative manufacturers to iterate multiple designs without excessive waste or expense.
- To realise the practical applications and potential drawbacks of using additive manufacturing, rapid prototyping, and other emerging tech for product development.
- To know the general idea about the 3-D printing.

Outcomes:

Digital fabrication, or digi-fab, means using computer-controlled machinery to create cardinal models of different products. It can also involve making physical items with advanced manufacturing techniques such as rapid prototyping, 3D printing, and CNC machining.Engineers convert digital information with computer-aided design (CAD) files and sophisticated software.

REPORT OF THE PROGRAM

Workshop on Digital Fabrication for Mechanical Engineers

The Department of Mechanical Engineering, Mechanical Engineering Students Association (MESA) organized a Workshop in the topic of " Digital Fabrication for Mechanical Engineers." on 24th April 2024, Mr.P.Murugan, Assistant Professor in the Department of Mechanical Engineering, welcomed the address .Mr. J. Jagan, Chairman, Vector solutions, Pondicherry. Is the resource person for this workshop. Mr. K.shanmuga Elango, HOD, Department of Mechanical Addressed the gathering. Mechanical Engineering students enthusiastically engaged in the topic and interacted with the resource person.

The resource person discussed Using computer-controlled machinery to produce basic models of various items is known as digital fabrication, or digi-fab. Additionally, it might include producing tangible products using innovative manufacturing processes like 3D printing, CNC machining, and rapid prototyping. Engineers use intricate software and computer-aided design (CAD) files to transform digital information. He discussed how the laser machining processes are used in industries and how they are integrated with modeling software. The vote of thanks was proposed by Mr.M.Sivamanikandan, Assistant Professor in the Department of Mechanical Engineering.
