1. Ramps

Now a day, students have to attend the classes most days of the week. If there is no ramp leading up to different building on the campus, the physically challenged students suffer a lot. Paying more attention to this problem, St, Anne's CET has constructed ramps with access steps to class rooms, library, laboratories, etc. in all the blocks.

Administrative Block

2. Wheel Chair

St, Anne's CET provides a manually operated wheel chair for physically disabled persons. It is used by individuals who have impairments that limit their ability to walk.
