CIRCULAR

This is to announce that the department of CSE has planned to organize Webinar titled "*Evolution of Wireless Networking and its future Job prospects*" on 14.10.2024. The proposed course is aimed to provide students with a host of benefits, including skill development, career advancement opportunities, in Wireless communication, Networking and job opportunities in the field of emerging Technology

WEBINAR DETAILS:

Webinar Name:	Evolution of Wireless Networking and its future Job prospects
Course Facilitator:	Mr.Nilutpal Bose, Team Lead, Nile
Time:	10.00 A.M TO 12.00 P.M
Target Audience:	II YEAR AIML
Association with:	AIC - Pondicherry Engineering College Foundation

Respected Sir,

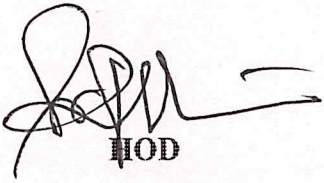

Sub: Requesting permission for Conducting **Webinar -Reg**

It is proposed to conduct **Webinar on "Evolution of Wireless Networking and its future Job prospects"** for our II year AIML students on 14.10.2024 from 10.00 AM to 12.00 PM. This programme will be very useful for them to enrich their knowledge and for their placement.

In this regard, **Mr.Nilutpal Bose, Team Lead, Nile** have agreed for conducting the above said programme.

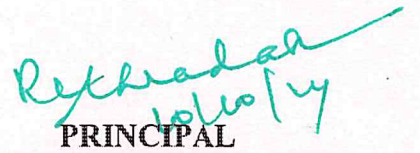

We request your kind permission for conducting the programme.

Thanking You,

HOD

Respected Sir/Madam,

This is to inform you that the proposal submitted by the Department of Computer Science and Engineering to organize the webinar titled "**Evolution of Wireless Networking and its Future Job Prospects**" on **14.10.2024** has been **reviewed and accepted**. The department's initiative to conduct this session, aimed at enhancing students' skills in Wireless Communication and Networking, understanding emerging technologies, and exploring career opportunities in the field, is highly appreciated. The webinar is expected to provide significant academic and professional benefits to the participants. You may proceed with the necessary arrangements for conducting the webinar as proposed. Wishing the department a successful and enriching session

Regards,

Mr. Niluptal Bose,

Team Lead,

Nile.

The department of CSE and AIC - Pondicherry Engineering College and Foundation association with organized a workshop on the topic "Evolution Of Wireless Networking And Its Future Job Prospects" on 14.10.2024 at 10:15AM. Mr. Nilutpal Bose, NILE, Team Leader was the resource person. The programme started with prayer song.

Resource person, during this workshop covered the topics like Introduction to wireless sensor networks, satellite communication networks, telecommunications, Monitor network performance, and diagnose network issues. The session was very interactive and dynamic. Resource person explained about Wireless Networking Job Openings and certifications based industries. At the end of webinar, feedbacks were collected from students. Students gained knowledge on Wireless Network and its security. The workshop was very useful to students.

Subject: Invitation as Resource Person for Workshop on "IoT Basics and Its Applications"

Respected Sir,

Warm greetings from St. Anne's College of Engineering and Technology

I hope this message finds you well. I am writing on behalf of the Department of Electrical and Electronics Engineering, St. Anne's College of Engineering and Technology, to invite you to serve as a Resource Person for a Workshop on "IoT Basics and Its Applications."

The objective of this workshop is to provide participants with a fundamental understanding of the Internet of Things (IoT), including its architecture, communication protocols, sensor integration, and real-world applications. We believe your expertise and experience in this field will greatly benefit our students.

We would be honoured if you could accept our invitation and share your knowledge with our participants. The institution will be pleased to provide an honorarium and make necessary arrangements as per norms.

Kindly confirm your availability at your earliest convenience so that we can proceed with the formal arrangements.

Thank you very much for considering our request. We look forward to your positive response and to hosting you for this workshop.

Warm regards,

A.Sundarapandiyan

Respected Sir/Madam,

I am pleased to acknowledge receipt of your invitation to serve as the Resource Person for the Workshop on "IoT Basics and Its Applications" organized by the Department of Electrical and Electronics Engineering, St. Anne's College of Engineering and Technology on 28.08.2024

I am delighted to accept your invitation and look forward to conducting the session on IoT fundamentals, system components, and real-world applications. It will be a pleasure to share my knowledge and experiences with your students and faculty members.

Kindly share any specific guidelines regarding the session duration, participant profile, and technical arrangements so that I can prepare accordingly.

Thank you once again for the opportunity. I look forward to contributing to the success of the workshop.

With Regards,

Mr. A. Balabaskar

DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING (2024-25)

IoT AND ITS APPLICATIONS

COURSE OBJECTIVES:

1. Students will be explored to the interconnection and integration of the physical world and the cyber space. They are also able to design & develop IOT Devices.
2. cover the basics, including the various sensors, connectivity options, and data processing methods used in IoT systems.
3. to connect devices and systems to collect, exchange, and analyze data, enhancing efficiency, productivity, and decision-making.

COURSE SYLLABUS:

Introduction & Concepts: Introduction to Internet of Things • Physical Design of IOT • Logical Design of IOT • IOT Enabling Technologies • IOT Levels • Home Automation,

Arduino Programming and Library Installation • Sensor Integration with Arduino • Use case Development using Arduino • Hardware Selection for Long range communication

COURSE OUTCOMES:

Students can able to

1. Identify the Components that forms part of IoT Architecture.
2. determine the most appropriate IoT Devices and Sensors based on Case Studies.
3. setup the connections between the Devices and Sensors.
4. Collect and analyze telemetry from connected sensors, devices, and equipment for real-time tracking, monitoring, management, and remote control.

FEEDBACK ON WORKSHOP

DEPARTMENT: EEE

PERIOD: 2024-2025

TITLE: IoT Basics and its Applications

DATE: 28.08.2024

Q. No	Questions	Student Count	Credit Category					Total Credit	Credit Secured	Percentage
			5	4	3	2	1			
1	How would you rate the clarity of explanations provided on IoT fundamentals?	42	37	5	0	0	0	210	205	98
2	How effectively were hands-on activities or demonstrations conducted?	42	34	7	1	0	0	210	201	96
3	How useful was the workshop in helping you understand real-world IoT applications?	42	33	8	1	0	0	210	200	95
4	How would you rate the quality of exercises, tools, or kits used in the workshop?	42	34	6	2	0	0	210	200	95
5	How well did the workshop balance theory and practical learning?	42	35	4	3	0	0	210	200	95
6	How effectively did the resource person guide and support participants?	42	37	4	1	0	0	210	204	97
7	How satisfied are you with the structure, pacing, and flow of the workshop?	42	39	1	2	0	0	210	205	98
8	How relevant and applicable was the content to your academic or professional needs?	42	35	4	3	0	0	210	200	95
9	How helpful were the workshop materials, slides, or supporting documents?	42	36	5	1	0	0	210	203	97
10	Overall, how would you rate the "IoT Basics and its Applications" workshop?	42	31	8	3	0	0	210	196	93

**DEPARTMENT OF ELECTRICAL & ELECTRONICS ENGINEERING
(2024-25)**

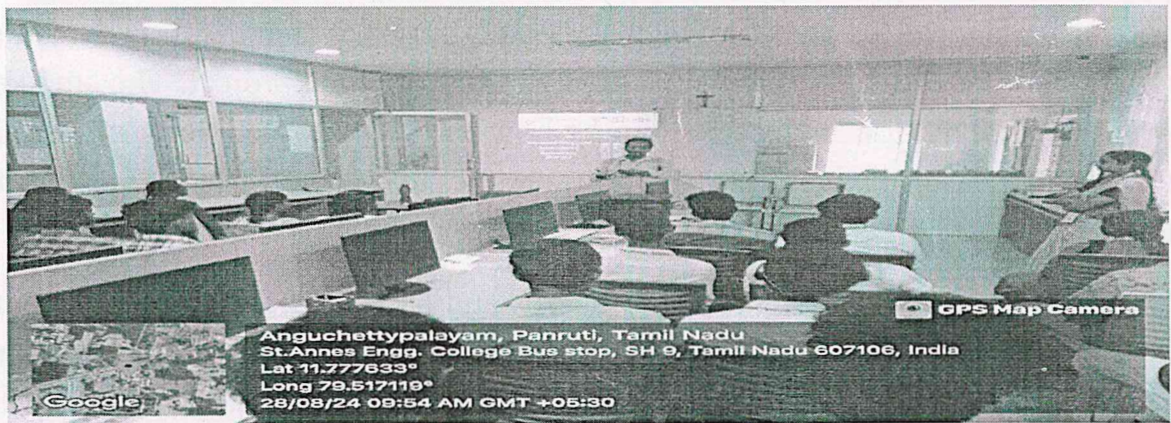

Report on "IoT Basics and Its Applications"

Dept. of EEE and Andhra Loyola Institute of Engineering & Tech. in association with Eddy Labs, Cuddalore had organized a workshop on "IoT basics and its applications" at Power System Simulation Laboratory on 28.08.2024 Mr. S. Balabakar AP/ECE was the Resource Person and the event started with Prayer Song in the presence of Faculties and students of the department. Third year student Ms. Abinaya gave the welcome address to the Resource Person. Mr.K.Sriram Head of the Department introduced the chief guest and insisted the students to attend the Workshop with great interest throughout the session. The objective of the workshop was to acquaint participants with the concept of Internet of Things (IoT) and provide hands-on experience in integrating hardware components, specifically to create a practical IoT-oriented project. The students provided an overview of IoT, explaining how they work by emitting ultrasonic waves and measuring the time taken for the waves to bounce back after hitting an object.

Participants were given Arduino Uno boards and LEDs to practice the concepts they had learned. They were guided step-by-step through the process of setting up the circuit, connecting the components, and writing the necessary code to make the LED blink. This hands-on experience allowed them to grasp the connection between software and hardware. Attendees were taught how to upload the code onto the Arduino board using the Arduino IDE. They learned about the compilation and uploading process, and how to troubleshoot any errors that might occur. After uploading, participants tested the LED blinking program to observe the results. They followed step-by-step instructions to assemble the circuit, connect the wires, and upload the provided code to the Arduino. The students discussed real-world IoT applications that involve LED-like components. Examples included smart lighting systems, environmental monitoring, and home automation, illustrating how basic concepts could be expanded into complex projects. Ideas such as smart traffic management, industrial automation, and healthcare applications were explored

The workshop concluded with a Vote of Thanks by Mr.V.Balaji AP/EEE followed with a feedback session Overall, the workshop was so enlightened and it must make a spark within students to get innovated ideas and involved in real time projects.

CIRCULAR

(2024-2025)

DATE: 13-09-24

This is to announce that the department of CSE (AIML) has planned to organize a half-day Workshop titled "**mongoDB**" on 16-09-24. The proposed course is aimed to provide students with a host of benefits, including skill development, career advancement opportunities, industry relevance and the ability to solve complex problems effectively.

Name of the Resource Person : **Ms. S.Abinaya M.E. & Ms. T.Gayathri M.E.**

Time : **10.15 am to 12.15 pm**

Target Audience : **II year students**

Association with : **CHIRST, Bangalore**

Venue: Lab IV

Date & Time: 16.09.24 & 10.15 Am To 12.15 Pm

REPORT ON WORKSHOP

Title of the workshop : MONGODB

Organized by : CHRIST, Bangalore

Date : 16.09.2024

Time : 10:15 AM.

Venue : LAB 4

Total Participants: 57 students

Resource Person: Ms. T.GAYATHRI, AP/CSE & Ms.S.ABINAYA, AP/CSE

Students listening to the workshop on 16.09.2024

The Department of Computer Science and Engineering and CHRIST in association with organized a workshop on the topic “MONGODB” on 16.09.2024 at 10:15AM. Ms. T.GAYATHRI, AP/CSE & Ms .S. ABINAYA, AP/CSE was the resource person. The programme started with prayer song.

Resource person, during this workshop covered the topics like Introduction to MONGODB, to query deep into documents, and even perform complex analytics pipelines with just a few lines of declarative code. The session was very interactive and dynamic. Resource person explained about MONGODB and JSON. At the end of workshop, feedbacks were collected from students. Students gained knowledge on MONGODB and its applications. The workshop was very useful to students.

(2024-2025)

CIR.No. : SACET/CSE/CIR/32

Date: 28.08.2024

This is to announce that the department of CSE has planned to organize a half-day webinar titled "INTRODUCTION TO MACHINE LEARNING" on 30.08.2024, The proposed course is aimed to provide students with a host of benefits, including skill development, career advancement opportunities, industry relevance and the ability to solve complex problems effectively.

GUEST LECTURE DETAILS:

Webinar Name: INTRODUCTION TO MACHINE LEARNING

Course Facilitator: Mr Vinoth Arjun

Time: 10.00 AM TO 12.30 P.M

Association with : Albertain Institute of Engineering & Technology

To: "cse@stannescet.in> "

Warm greetings!

I am delighted to accept your kind invitation to serve as the **Resource Person** for the Guest Lecture on "*INTRODUCTION TO MACHINE LEARNING*" scheduled on **30.08.2024** at **St. Anne's College of Engineering and Technology**.

It will be my pleasure to interact with your students and faculty members and share insights on this evolving and exciting field. I truly appreciate the opportunity to contribute to this academic initiative organized by your department.

Thank you once again for the invitation. I look forward to the session and to engaging with the participants.

Thanks and Regards,
Mr. Vinoth Arjun

REPORT ON WEBINAR (2024-25)

Title of the Guest Lecturer : INTRODUCTION TO MACHINE LEARNING

Organized by : CoSTA

Date : 30.08.2024

Time : 1.30PM to 4.30PM

Venue : Auditorium

Total Participants: 55 students

Resource Person: Mr Vinoth Arjun

The Department of CSE and Albertian Institute of Sci & Tech. in association with organized a Guest lecture on the topic "INTRODUCTION TO MACHINE LEARNING" by the resource person Mr. Vinoth Arjun, Tiger Analytics. The Chief Guest started the webinar with the Overview of machine learning. Then started with the basic Content Writing. The resource person has conducted various activity and also Doubts were clarified then and there and they conducted various activity it gives satisfaction. This guest lecture has enhanced the basic knowledge thoroughly.

At the end of lecture, feedback were collected from students. Students gained knowledge about Placement drive and Self growth. The lecture was very useful to students.

STUDENTS AT WEBMINAR SESSION

<p>OUTCOME OF WEBMINAR</p>	<p>This webinar helped the IV year students to get more knowledge in basic and in practical point of view and gained the confidence on the subject. Students acquired deep insights of the Machine Learning. Also they realize the subject content with practical.</p>
<p>FEEDBACK FROM STUDENTS</p>	<p>The webinar provided by the resource person was very fruitful that helped us to understand the basics ideas in machine learning . Doubts were clarified then and there and they conducted various activity it gives satisfaction. This webinar has enhanced the basic knowledge thoroughly.</p> <p>Ms.V.Keerthana AP/CSE</p>
<p>CONCLUSION</p>	<p>The webinar provided a platform for the students to enrich their knowledge on Machine Learning and has given confidence to approach the examination. They came to know the key areas to concentrate for examination. At the same time the students gained a complete understanding on the basic of the subject.</p>

WORKSHOP ON IMAGE PROCESSING TECHNIQUES USING MATLAB (2024-25)

COURSE CONTENT

- Introduction about MATLAB and Image Processing
- Visualization - Find objects that are not visible in the image
- Recognition - Distinguish or detect objects in the image
- Sharpening and restoration - Create an enhanced image from the original image
- Segmentation - Measure the various patterns around the objects in the image
- Feature Extraction - identifying and representing distinctive structures within an **image**.

PROGRAM SCHEDULE

DATE	SESSION	TIME	TOPIC
DAY 1			
27/09/2024	I	10.00Am-11.00Am	Introduction about MATLAB and Image Processing
TEA BREAK (11AM to 11.15AM)			
27/09/2024	II	11.15AM - 12.35PM	Visualization - Find objects that are not visible in the image
LUNCH BREAK (12.35 PM to 1.15 PM)			
27/09/2024	III	1.15 PM - 2.55 PM	Recognition - Distinguish or detect objects in the image
TEA BREAK(2.55 PM to 3.05 PM)			
27/09/2024	IV	3.05PM - 4.30PM	Sharpening and restoration - Create an enhanced image from the original image
DAY 2			
28/09/2024	V	9.30AM - 11AM	Segmentation - Measure the various patterns around the objects in the image
TEA BREAK (11AM to 11.15AM)			
28/09/2024	VI	11.15AM - 12.35PM	Feature Extraction - identifying and representing distinctive structures within an image
LUNCH BREAK (12.35 PM to 1.15 PM)			
28/09/2024	VII	1.15 PM - 2.55 PM	Practice coding
TEA BREAK(2.55 PM to 3.05 PM)			
28/09/2024	VIII	3.05PM - 4.30PM	Feedback and Conclusion

Duration: The duration of this workshop will be for two consecutive days, with 6 hours schedule each day in total of 12 Hours.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING WORKSHOP ON IMAGE PROCESSING TECHNIQUES USING MATLAB REPORT

OBJECTIVES:

- To enhance the quality of images, extract meaningful information from images, and automate image-based tasks.
- The objective of the workshop is to give exposure to the digital image processing algorithms that are found in the applications such as biometrics, agriculture, communication, and remote sensing.

REPORT:

The Department of ECE and Loyola - ICAM, Chennai in association with the Electronics and Communication Science Association (ECSA) and the Institute Innovation Council (IIC), had arranged a two-day' workshop on digital image processing using MATLAB for third-year students on 27.09.2024 and 28.09.2024 at the VLSI lab. The program commenced with the inaugural event in the presence of our principal, Dr. R. Arokiadass, and Dr. Sr. S. Anita, the head of the department of electronics and communication. Around 50 students had participated and benefitted from this workshop. The workshop was designed to stimulate students' interest in the image processing domain for studying theory subjects as well as for doing a final year project.

On the first day of the workshop, students were taught about the introduction of image processing and the basic programs of image processing in MATLAB. The second day of the workshop, they were taught about the segmentation, edge deduction, and filtering of images, and practical sessions were conducted. This workshop will help the engineering students and enthusiasts/scholars get trained in the MATLAB package in the aspect of image processing. The workshop is designed to stimulate students' interest in the image processing domain by engaging them in a completely purpose-driven study environment with hands-on activities while fostering a sense of curiosity and accomplishment. This will open up a door for programming in image processing. The students' feedback is also good.

OUTCOMES:

Upon the completion of the course, students will be able

- To know about the basic programs of image processing in MATLAB.
- To know about the image enhancement, acquisition, and segmentation.
- To know about the filtering of images in image processing.

DEPARTMENT OF SCIENCE & HUMANITIES

REPORT ON MOTIVATIONAL PROGRAM

The Department of Science and Humanities of St. Anne's College of Engineering & Technology has conducted an Inspire program, an initiative by the management of SACET to motivate and inspire the first-year students about personality development and the role of youth in building a good society. It feels about the responsibilities of the students towards the society.

Our college secretary, Rev. Dr. B. J. Queensly Jeyanthi, has delivered various inspirational lectures around the globe. She emphasized the student behaviour in the society and awareness of crime. She inspired the students to value the presence of parents, teachers, and elders in the society. She quoted about the violence against women and children. She advised the students not to be involved in any criminal activities. She insisted all the students stay away from drugs.

Our secretary insists that marks the beginning of an exciting journey, one that is filled with opportunities, challenges, growth, and discovery. This is not just another year—it's the start of your future. Whether you've just stepped into the world of higher education with dreams of building a career, gaining knowledge, or discovering your passions, this is your time to shine.

Our secretary shared a few words of motivation that will guide the students in making the most of their time here at college. And some other points are below.

1. Believe in Yourself:

First and foremost, believe in yourself. You are here because you've already proven your ability to achieve. Getting into college is an accomplishment in itself, but it's only the beginning. Don't underestimate your potential—each and every one of you has unique talents, qualities, and skills that can take you far. The path ahead may be filled with obstacles, but trust in your abilities and know that you have the strength to overcome whatever challenges you may face.

Accredited by NAAC

ANGUCHETTYPALAYAM, PANRUTI – 607 106.

DEPARTMENT OF SCIENCE & HUMANITIES

2. Embrace Learning Beyond the Books:

While academic knowledge is essential, college is not just about grades or exams. It's about expanding your horizons, embracing new experiences, and learning in every way possible. Engage with your professors, participate in extracurricular activities, and connect with your peers. The lessons you learn outside the classroom will be just as valuable as the ones you acquire inside it. Keep an open mind, ask questions, and never stop being curious.

3. Time Management is Key:

One of the most important skills you will develop here is managing your time effectively. College life can be overwhelming at times with assignments, projects, exams, and social activities. But remember, it's all about balance. Prioritize your responsibilities, make a schedule, and stick to it. Discipline and time management are the tools that will help you succeed and stay organized in the face of many tasks and deadlines.

4. Take Risks and Learn from Failures:

Don't be afraid to take risks. Whether it's stepping up to lead a project, joining a club, or trying something you've never done before, college is the perfect place to step outside your comfort zone. And remember—failure is not something to fear. Every setback is a learning experience that brings you one step closer to success. Fail forward, learn from your mistakes, and keep moving toward your goals.

5. Build Relationships and Create Memories:

Your time in college will go by faster than you think. Build lasting friendships, create meaningful memories, and surround yourself with people who inspire and motivate you. These connections will not only enrich your personal life but will also support you in your academic and professional journey. Networking, mentoring, and collaborating with others are essential parts of your growth.

Accredited by NAAC

ANGUCHETTYPALAYAM, PANRUTI – 607 106.

DEPARTMENT OF SCIENCE & HUMANITIES

6. Stay Positive and Be Resilient:

There will be moments of self-doubt, pressure, and frustration. But always remember, you are not alone. You have a support system in your professors, your peers, your families, and even the staff here at the college. When times get tough, don't give up. Stay positive, stay focused, and keep pushing forward. Resilience is one of the key traits of successful individuals, and you can all cultivate it by staying motivated and determined.

7. Find Your Passion:

Lastly, college is the perfect place for self-discovery. It's where you'll explore your interests, learn more about yourself, and potentially find the passion that drives you for the rest of your life. Don't rush the process. Take your time to figure out what excites you, what challenges you, and what brings you fulfilment.

In Conclusion:

As the first year of your college life begins, remember that you are laying the foundation for your future. Make the most of every opportunity, and take each challenge as an opportunity for growth. You have everything you need to succeed, and this institution is here to support you every step of the way. Totally 138 students are benefited on this program and some of the students from St. Joseph's College are benefited through the on line mode.

Respected Madam, Dr. S. RATHIKA,

I am writing to invite you to be the resource person for an upcoming Institution Innovation Council (IIC) activity, a seminar on “Lean Start-up & Minimum Viable Product” for II, III, and IV year students of St. Anne’s College of Engineering and Technology.

Details of the Seminar:

Date: 03.08.2024

Time: 01.00 P.M. to 05 P.M.

Mode: Offline

So, I request you to kindly let us know if you are available for the above-mentioned program.

Dr. V. SHANMUGAM, B.E., M.E., Ph.D.,

7/26/24, 5:15 PM

Welcome sir, and accept your Request as a Resource person for conduct a seminar on Lean Start-up & Minimum Viable Product – Aug 3rd, 2024- Reg.

REPORT OF THE INSTITUTION INNOVATION COUNCIL (IIC) SANCET

**“Lean Start-up & Minimum Viable Product/Business-Boot Camp”,
Institution’s Innovation Council (IIC5.0),
Ministry of Education (MOE’s), Govt. of India.**

Date: 03.08.2024

Venue: SANCET Conference Hall.

SANCET association with Sacred Heart College organized a guest lecture as a part of Institution’s Innovation Council (IIC), on **“Lean Start-up & Minimum Viable Product/Business”**. The session is held on **03rd August 2024**.

The experts from the mentor institute, PRINCE Shri Venkateshwara Padmavathy Engineering College-Chennai, Dr. S. RATHIKA, Vice President-IIC, Professor and Head/MBA Department, convener-IIC, explained in detail about the **Lean Start-up** method first identifies a problem that needs to be solved. It then develops a minimum viable product or the smallest form of the product that allows entrepreneurs to introduce it to potential customers for feedback.

Lean start-up is a methodology for developing businesses and products that aims to shorten product development cycles and rapidly discover if a proposed business model is viable; this is achieved by adopting a combination of business-hypothesis-driven experimentation, iterative product releases, and validated learning. Lean start-up emphasizes customer feedback over intuition and flexibility over planning. This methodology enables recovery from failures more often than traditional ways of product development.

Lean start-up methodology is the assumption that when start-up companies invest their time into iteratively building products or services to meet the needs of early customers, the company can reduce market risks and sidestep the need for large amounts of initial project funding and expensive product launches and financial failures. While the events leading up to the launch can make or break a new business, and it is important to start with the end in mind.

This means thinking about the direction in which you want your business to grow and how to put all the right pieces in place to make this possible.

A **minimum viable product (MVP)** is a version of a product with just enough features to be usable by early customers who can then provide feedback for future product development. A focus on releasing an MVP means that developers potentially avoid lengthy and unnecessary work. Instead, they iterate on working versions and respond to feedback, challenging and validating assumptions about a product's requirements. It may also involve carrying out market analysis beforehand.

The MVP is analogous to experimentation in the scientific method applied in the context of validating business hypotheses. It is utilized so that prospective entrepreneurs would know whether a given business idea would actually be viable and profitable by testing the assumptions behind a product or business idea.

The concept can be used to validate a market need for a product and for incremental developments of an existing product. As it tests a potential business model to customers to see how the market would react, it is especially useful for new/start-up companies who are more concerned with finding out where potential business opportunities exist rather than executing a prefabricated, isolated business model. She also explained about the electrical vehicle project to motivate the students to improve their entrepreneurial qualities and how to get the patent right.

The program presided by Dr. S. RATHIKA, Vice President -IIC, PRINCE Shri Venkateshwara Padmavathy Engineering College. Dr. V. SHANMUGAM, Convener-IIC, Associate Professor, Department of electrical and Electronics Engineering, Dr. M. KAVITHA MAYILVAGANAN, IIC-member Assistant Professor, Department of Science and Humanities, Mr. R. JAYAKUMAR, IIC-member, Assistant Professor, Department of Mechanical Engineering, Mr. K. SHANMUGA ELANGO, Assistant Professor, HoD, Department of Mechanical Engineering, Dr. P. ALBERT RAJ, Associate Professor, Department of Science and Humanities and Heads of departments, teaching and non-teaching staff from various departments, and 50 students were part the event at St. Anne's College of Engineering and Technology.

WORKSHOP ON HTML & CSS

OBJECTIVES:

- To understand the basics of HTML and CSS.
- To create a simple website using HTML and CSS.
- To apply styling and layout techniques using CSS.
- To understand the importance of semantic HTML and accessibility.

ABOUT THE PROGRAM:

Department of Computer Science and Engineering organized a workshop on the topic "HTML & CSS" on 21-02-2025 at 10.00AM in Association with ADIZ codez, Panruti.

HTML & CSS is the most trending technology in web application. This workshop is designed for students who want to learn the basics of web development and create their own websites. By attending this workshop, students will gain practical skills and knowledge that can be applied in various areas, such as:

- Building personal websites or blogs
- Creating websites for projects or assignments
- Enhancing career prospects in web development and related fields
- Improving digital literacy and online presence.

This workshop helps the students to gain the knowledge on web application and its career opportunities.

OUTCOMES:

- Students demonstrated a clear understanding of HTML and CSS fundamentals.
- Students were able to create a simple web page using HTML and CSS.
- Students applied styling and layout techniques using CSS.
- Students recognized the importance of semantic HTML and accessibility.

WORKSHOP REPORT ON HTML & CSS

Association with ADIZ codez, Panruti

Title Of The Workshop : HTML & CSS

Date : 21.02.2025

Time : 10.00 AM

Venue : LAB 5

Total Participants : II CSE & III CSE Students.

Resource Person : Ms.K.Kayalvizhi,AP/CSE & Ms.V.Keerthana,AP/CSE

Students listening to the workshop on 21.02.2025

Department of Computer Science and Engineering and AdizCodez association with organized a workshop on the topic "HTML&CSS" on 18.02.2025 at 10.00AM.Ms.K.KAYALVIZHI,AP/CSE&Ms.V.KEERTHANA,AP/CSE was the resource persons.The programme started with prayer song.

The workshop achieved its objective of equipping students with the skills to build basic websites using HTML and CSS.The students demonstrated a clear understanding of the concepts and were able to apply them practically.We look forward to conducting more workshops and providing opportunities for students to develop their skills further.The session was very interactive and dynamic.At the end of the workshop,feedback were collected from students.Students gained knowledge on web application.The workshop was very useful students.
