## REPORT ON MOTIVATIONAL PROGRAM

The Department of Science and Humanities of St. Anne's College of Engineering & Technology has conducted an Inspire program, an initiative by the management of SACET to motivate and inspire the first-year students about personality development and the role of youth in building a good society. It feels about the responsibilities of the students towards the society.

Our college secretary, Rev. Dr. B. J. Queensly Jeyanthi, has delivered various inspirational lectures around the globe. She emphasized the student behaviour in the society and awareness of crime. She inspired the students to value the presence of parents, teachers, and elders in the society. She quoted about the violence against women and children. She advised the students not to be involved in any criminal activities. She insisted all the students stay away from drugs.

Our secretary insists that marks the beginning of an exciting journey, one that is filled with opportunities, challenges, growth, and discovery. This is not just another year—it's the start of your future. Whether you've just stepped into the world of higher education with dreams of building a career, gaining knowledge, or discovering your passions, this is your time to shine.

Our secretary shared a few words of motivation that will guide the students in making the most of their time here at college. And some other points are below.

**1. Believe in Yourself:**

First and foremost, believe in yourself. You are here because you've already proven your ability to achieve. Getting into college is an accomplishment in itself, but it's only the beginning. Don't underestimate your potential—each and every one of you has unique talents, qualities, and skills that can take you far. The path ahead may be filled with obstacles, but trust in your abilities and know that you have the strength to overcome whatever challenges you may face.

**2. Embrace Learning Beyond the Books:**

While academic knowledge is essential, college is not just about grades or exams. It's about expanding your horizons, embracing new experiences, and learning in every way possible. Engage with your professors, participate in extracurricular activities, and connect with your peers. The lessons you learn outside the classroom will be just as valuable as the ones you acquire inside it. Keep an open mind, ask questions, and never stop being curious.

**3. Time Management is Key:**

One of the most important skills you will develop here is managing your time effectively. College life can be overwhelming at times with assignments, projects, exams, and social activities. But remember, it's all about balance. Prioritize your responsibilities, make a schedule, and stick to it. Discipline and time management are the tools that will help you succeed and stay organized in the face of many tasks and deadlines.

**4. Take Risks and Learn from Failures:**

Don't be afraid to take risks. Whether it's stepping up to lead a project, joining a club, or trying something you've never done before, college is the perfect place to step outside your comfort zone. And remember—failure is not something to fear. Every setback is a learning experience that brings you one step closer to success. Fail forward, learn from your mistakes, and keep moving toward your goals.

**5. Build Relationships and Create Memories:**

Your time in college will go by faster than you think. Build lasting friendships, create meaningful memories, and surround yourself with people who inspire and motivate you. These connections will not only enrich your personal life but will also support you in your academic and professional journey. Networking, mentoring, and collaborating with others are essential parts of your growth.

**6. Stay Positive and Be Resilient:**

There will be moments of self-doubt, pressure, and frustration. But always remember, you are not alone. You have a support system in your professors, your peers, your families, and even the staff here at the college. When times get tough, don't give up. Stay positive, stay focused, and keep pushing forward. Resilience is one of the key traits of successful individuals, and you can all cultivate it by staying motivated and determined.

**7. Find Your Passion:**

Lastly, college is the perfect place for self-discovery. It's where you'll explore your interests, learn more about yourself, and potentially find the passion that drives you for the rest of your life. Don't rush the process. Take your time to figure out what excites you, what challenges you, and what brings you fulfilment.

**In Conclusion:**

As the first year of your college life begins, remember that you are laying the foundation for your future. Make the most of every opportunity, and take each challenge as an opportunity for growth. You have everything you need to succeed, and this institution is here to support you every step of the way. Totally 138 students benefited on this program.

## REPORT ON MOTIVATIONAL PROGRAM

The Department of Science and Humanities of St. Anne's College of Engineering & Technology has conducted an Inspire program, an initiative by the management of SACET to motivate and inspire the first-year students about personality development and the role of youth in building a good society. It feels about the responsibilities of the students towards the society.

Our college secretary, Rev. Dr. B. J. Queensly Jeyanthi, has delivered various inspirational lectures around the globe. She emphasized the student behaviour in the society and awareness of crime. She inspired the students to value the presence of parents, teachers, and elders in the society. She quoted about the violence against women and children. She advised the students not to be involved in any criminal activities. She insisted all the students stay away from drugs.

Our secretary insists that marks the beginning of an exciting journey, one that is filled with opportunities, challenges, growth, and discovery. This is not just another year—it's the start of your future. Whether you've just stepped into the world of higher education with dreams of building a career, gaining knowledge, or discovering your passions, this is your time to shine.

Our secretary shared a few words of motivation that will guide the students in making the most of their time here at college. And some other points are below.

**1. Believe in Yourself:**

First and foremost, believe in yourself. You are here because you've already proven your ability to achieve. Getting into college is an accomplishment in itself, but it's only the beginning. Don't underestimate your potential—each and every one of you has unique talents, qualities, and skills that can take you far. The path ahead may be filled with obstacles, but trust in your abilities and know that you have the strength to overcome whatever challenges you may face.

**2. Embrace Learning Beyond the Books:**

While academic knowledge is essential, college is not just about grades or exams. It's about expanding your horizons, embracing new experiences, and learning in every way possible. Engage with your professors, participate in extracurricular activities, and connect with your peers. The lessons you learn outside the classroom will be just as valuable as the ones you acquire inside it. Keep an open mind, ask questions, and never stop being curious.

**3. Time Management is Key:**

One of the most important skills you will develop here is managing your time effectively. College life can be overwhelming at times with assignments, projects, exams, and social activities. But remember, it's all about balance. Prioritize your responsibilities, make a schedule, and stick to it. Discipline and time management are the tools that will help you succeed and stay organized in the face of many tasks and deadlines.

**4. Take Risks and Learn from Failures:**

Don't be afraid to take risks. Whether it's stepping up to lead a project, joining a club, or trying something you've never done before, college is the perfect place to step outside your comfort zone. And remember—failure is not something to fear. Every setback is a learning experience that brings you one step closer to success. Fail forward, learn from your mistakes, and keep moving toward your goals.

**5. Build Relationships and Create Memories:**

Your time in college will go by faster than you think. Build lasting friendships, create meaningful memories, and surround yourself with people who inspire and motivate you. These connections will not only enrich your personal life but will also support you in your academic and professional journey. Networking, mentoring, and collaborating with others are essential parts of your growth.

**6. Stay Positive and Be Resilient:**

There will be moments of self-doubt, pressure, and frustration. But always remember, you are not alone. You have a support system in your professors, your peers, your families, and even the staff here at the college. When times get tough, don't give up. Stay positive, stay focused, and keep pushing forward. Resilience is one of the key traits of successful individuals, and you can all cultivate it by staying motivated and determined.

**7. Find Your Passion:**

Lastly, college is the perfect place for self-discovery. It's where you'll explore your interests, learn more about yourself, and potentially find the passion that drives you for the rest of your life. Don't rush the process. Take your time to figure out what excites you, what challenges you, and what brings you fulfilment.

**In Conclusion:**

As the first year of your college life begins, remember that you are laying the foundation for your future. Make the most of every opportunity, and take each challenge as an opportunity for growth. You have everything you need to succeed, and this institution is here to support you every step of the way. Totally 138 students benefited on this program.

Dear Ms Sood,

The Department of Social Justice and Empowerment being the nodal agency for drug demand reduction launched the flagship mass awareness campaign 'Nasha Mukt Bharat Abhiyaan' (NMBA) on 15th August 2020 which is now expanded to all the districts of the country. The abhiyaan was launched with the vision to sensitize and provide preventive education to the masses with a special focus on children, youth, women and educational institutions. 2. As we approach 78th Independence Day, NMBA is entering its 5th year since the launch. The theme for this year's NMBA celebration is: **'Viksit Bharat ka Mantra, Bharat ho Nashe se Swatantra'** On this occasion, DoSJE is organising a country-wide mass pledge against Drugs **(Attached as Annexure I)** on **12 August 2024, at 9AM,** covering all schools, colleges, universities and other educational institutions. The joining link for the program will be shared shortly with you. To make this programme successful, you are requested to:

a) Make arrangements for all the volunteers in all the States/UT to take pledge on 12 August 2024, at 9AM.
b) The concerned authorities may ensure display of the backdrop **(Attached as Annexure II)** during pledge taking ceremony while taking photographs/videos.
c) An e - pledge has been made available on the NMBA website (https://nmba.dosje.gov.in/content/take-a-pledge). All the students, youth and others may be urged to take this e- pledge and download the certificate.

3. The media and data of the activities conducted may be shared by the nodal officers in the prescribed format **(Attached as Annexure III)** on nmba-dosje@gov.in by 15th August 2024. Mr Rajeev Kumar, Under Secretary (9013781699) may be contacted in case of any clarifications.

## SWACHH BHARAT CAMPAIGN - PLASTIC ERADICATION

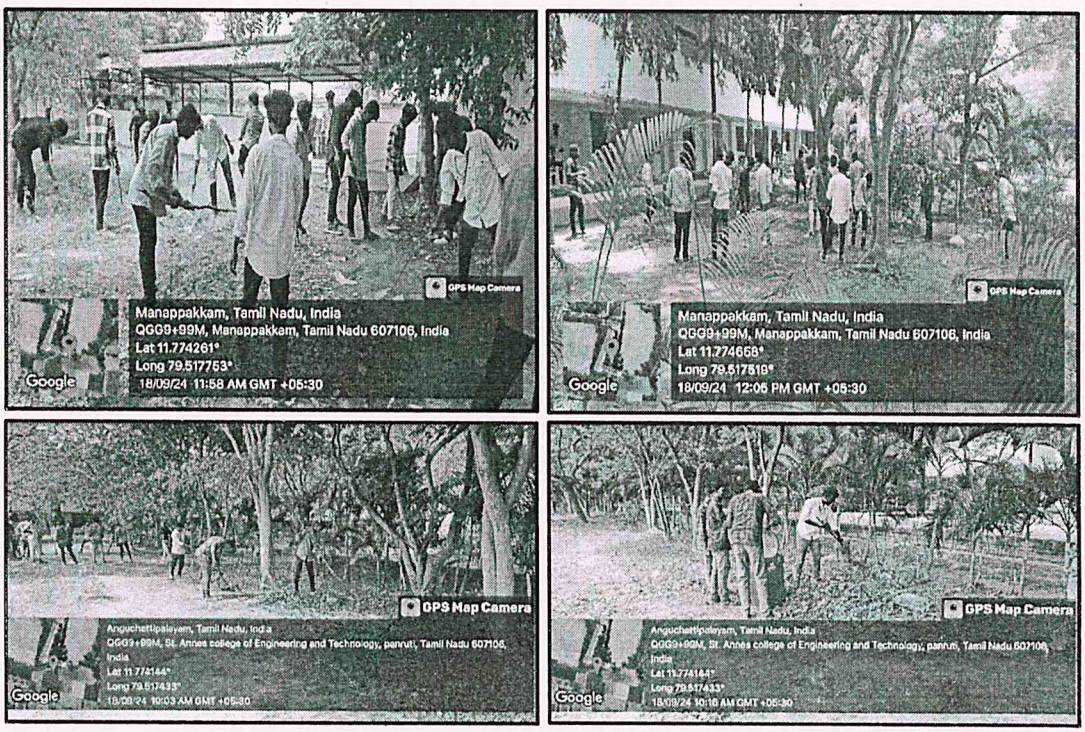

## REPORT

**DATE**: 18-09-2024

**PLACE**: SANCET CAMPUS.

**NO OF BENEFECIARIES**: 100

Under the nationwide initiative Swachh Bharat Abhiyan, the NSS Unit of SANCET conducted a Plastic Eradication Drive on 18-09-2024. The objective of this campaign was to spread awareness about the harmful effects of plastic pollution and to take concrete action toward eliminating single-use plastics from our surroundings. An ambitious Global Plastics Treaty can help countries around the globe to transform the way they produce, consume, and dispose of plastics. We can build a more sustainable future and safeguard biodiversity on which all life depends. Together, we can beat plastics pollution.

The campaign not only helped in cleaning the environment but also instilled a sense of civic duty among the participants. It was a significant step toward achieving the goals of a Plastic-Free and Swachh Bharat. The outcome shows the awareness was increased among students, staff, and local citizens about the dangers of plastic pollution. In order to keep the surrounding clean, all the faculty members and 100 NSS volunteers are collectively participated in the campaign. The degradable and non-degradable waste disposals were collected separately.

## NSS DAY- STOP USAGE OF PLASTICS

**DATE**: 24-09-2024

**PLACE**: ANGUCHETTYPALAYAM VILLAGE

**NO OF BENEFECIARIES**: 100

On the occasion of NSS Day, celebrated every year on 24th September, the NSS Unit of SANCET conducted a "Swachhata Hi Seva 2024" campaign at Anguchettypalayam village. The campaign was aligned with the national vision of Clean India - Green India, encouraging volunteers to actively participate in community service and cleanliness drives. The objective of the program is to celebrate NSS Day through meaningful community engagement. To raise awareness about hygiene, sanitation, and plastic waste reduction. To engage NSS volunteers in village-level cleanliness and plastic eradication activities. To promote "Swachhata" (cleanliness) as a shared social responsibility.

The volunteers cleaned streets, public areas, and drainage in Anguchettypalayam. Plastic waste, wrappers, and other non-biodegradable items were collected and segregated. Door-to-door awareness was carried out to educate villagers about the importance of waste segregation, avoiding single-use plastics, and maintaining household hygiene. Volunteers interacted with local people and shopkeepers to encourage use of cloth/jute bags and discourage plastic usage. Plastic waste are collected separately plastic and non-biodegradable waste. Volunteers empowered to work directly with rural communities. The Villagers appreciated the efforts and showed willingness to participate in future cleanliness drives. Reinforced the spirit of **"Not Me, But You"**, the core motto of NSS. Finally the event served the dual purpose of honoring

the NSS legacy while contributing meaningfully to the nation's cleanliness mission. The event encouraged students to take ownership of community problems and become agents of change. A total of 100 NSS volunteers actively participated in the event with enthusiasm and commitment.

Menstrual hygiene management is an integral part of the Swachh Bharat Mission Guidelines (SBM-G). The Menstrual Hygiene Management Guideline is issued by the Ministry of Drinking Water and Sanitation to support all adolescent girls and women. The event starts with a knowledge-enriching session with female students of all the years.

This event focuses on creating awareness among female students regarding menstrual hygiene and personal sanitation. Menstruation is a natural, normal biological process experienced by all adolescent girls and women, yet it is not spoken about openly, causing unnecessary embarrassment and shame. At this time they need a safe environment that offers protection and guidance to ensure their basic health, well-being, and educational opportunity are realized. The resource person insists on the importance of Adopting appropriate menstrual hygiene practices is crucial for protecting reproductive health as well as preventing infections, including bacterial vaginosis and urinary tract infections. Washing your hands often is a good way to stop the germs on your hands from making you sick. Finally disposable masks and sanitary napkins were distributed to girls. Totally, **95** students were participated in the program.

## SWACHH BHARAT- CAMPUS CLEANING DRIVE

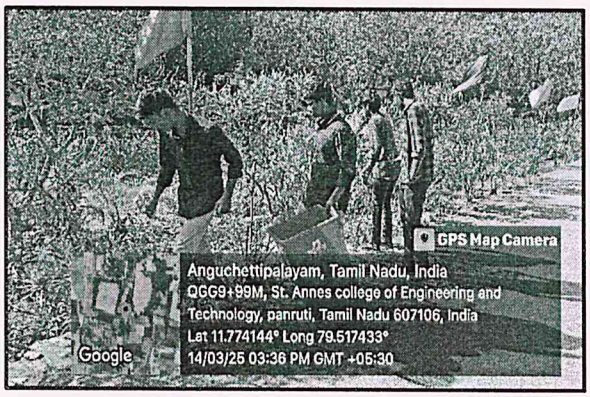

## REPORT

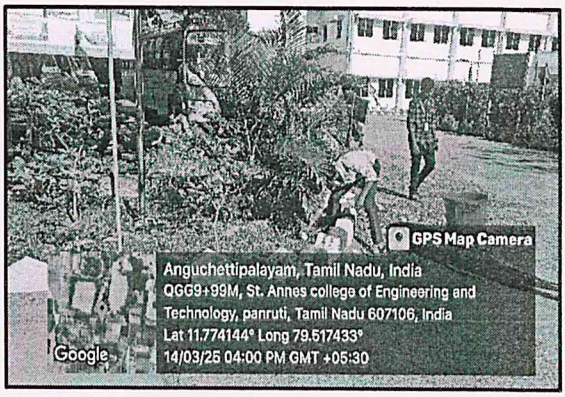

**DATE**: 14-03-2025

**PLACE**: SANCET CAMPUS.

**NO OF BENEFECIARIES**: 100

As a part of the cleanliness drive, NSS team organized Swachh Bharat activities in the SANCET campus. In order to keep the campus clean, all the faculty members and NSS volunteers are collectively participated in the "Swatchh Bharat" campaign. Our objective is to create an awareness on keeping the campus clean and green and also to improve the living conditions and for promoting healthy surroundings for the people. In the Campus Cleanliness Drive, 100 NSS volunteers are engaged themselves in various activities including cleaning the ground, Administration Block, Main block and also collecting separately the degradable and non-degradable solid waste which include glass bottles, tins, cans, plastic wastes, etc. found in and around the campus.

Enhanced cleanliness and hygiene on the campus. Increased awareness among students about waste-management and their role in maintaining a clean environment. Strengthened the spirit of volunteerism and social responsibility among NSS volunteers. The NSS-led Campus Cleaning Drive under Swachh Bharat Abhiyan was a successful and impactful initiative. It served as a reminder that cleanliness is not just a duty but a way of life. At the end of the program, the following pledge was taken by the NSS Volunteers, I shall do my best for protecting the earth and its natural environment. I shall also adopt such practices that would minimize wastage. I shall reuse whatever I can. I shall take care to clean up the environment. I shall reduce the waste we create. I shall plant more trees. I shall conserve energy and water. At last, students would be provided with refreshments by the college.

## EQUALITY DAY – PLEDGE

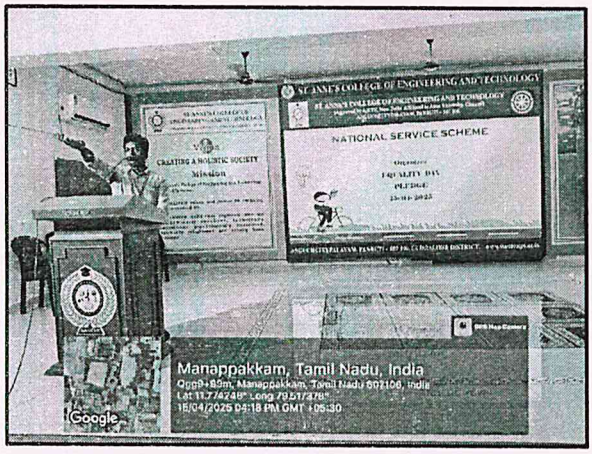

## REPORT

**DATE**: 15-04-2025

**PLACE**: SANCET AUDITORIUM

**NO OF BENEFECIARIES**: 140

To commemorate Equality Day, NSS cell of SANCET organized a Pledge Taking Ceremony to promote the constitutional values of equality, justice, and fraternity among students and staff. The day marks a reaffirmation of our commitment to uphold the principles of social justice and non-discrimination, as enshrined in the Constitution of India. The objective of this pledge is to spread awareness about the importance of equality in society and also to encourage students and staff to practice and promote equality in their daily lives. Further, to honor the spirit of the Indian Constitution and the ideals of Dr. B.R. Ambedkar. The event began with highlighting the importance of promoting social harmony and combating discrimination in all forms. This was followed by the Pledge, which was taken with great enthusiasm by everyone present. Equality Day is observed to honor the principles of equal rights and opportunities for all individuals, regardless of caste, creed, gender, religion, or socio-economic background.

The pledge, which students NSS Volunteers and staff members participated in, likely included commitments to preserve the nation's unity, integrity, and security, and to spread this message among fellow citizens. The event may have also aimed to instill values associated with Dr. B.R. Ambedkar's vision and contributions to social justice. The Equality Day Pledge Ceremony was a meaningful initiative that allowed students and staff to reflect on the fundamental rights and duties of every citizen. It reinforced our collective responsibility to ensure that equality is practiced not just in words, but in action.

## Report on "IoT Basics and Its Applications"

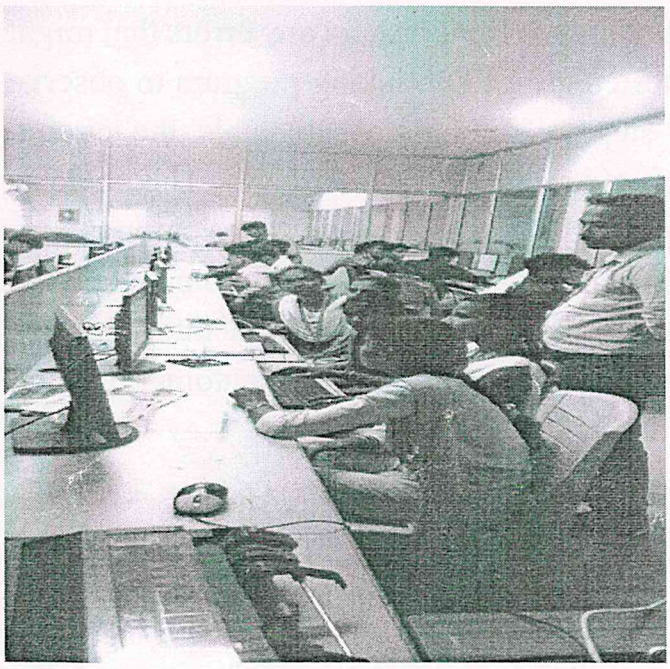

Department of Electrical and Electronics Engineering in association with Eddy Labs, Cuddalore had organized a workshop on "IoT basics and its applications" at Power System Simulation Laboratory on 28.08.2024 Mr. S. Balabakar AP/ECE was the Resource Person and the event started with Prayer Song in the presence of Faculties and students of the department. Third year student Ms. Abinaya gave the welcome address to the Resource Person. Mr.K.Sriram Head of the Department introduced the chief guest and insisted the students to attend the Workshop with great interest throughout the session. The objective of the workshop was to acquaint participants with the concept of Internet of Things (IoT) and provide hands-on experience in integrating hardware components, specifically to create a practical IoT-oriented project. The students provided an overview of IoT, explaining how they work by emitting ultrasonic waves and measuring the time taken for the waves to bounce back after hitting an object.

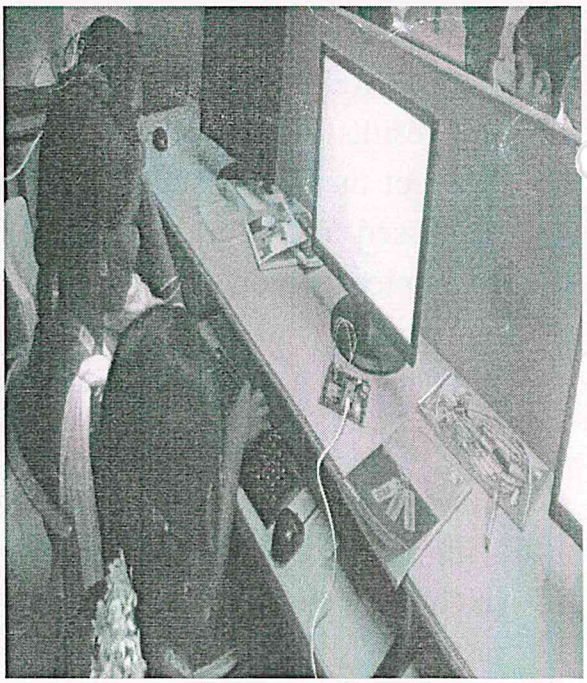

Participants were given Arduino Uno boards and LEDs to practice the concepts they had learned. They were guided step-by-step through the process of setting up the circuit, connecting the components, and writing the necessary code to make the LED blink. This hands-on experience allowed them to grasp the connection between software and hardware. Attendees were taught how to upload the code onto the Arduino board using the Arduino IDE. They learned about the compilation and uploading process, and how to troubleshoot any errors that might occur. After uploading, participants tested the LED blinking program to observe the results. They followed step-by-step instructions to assemble the circuit, connect the wires, and upload the provided code to the Arduino. The students discussed real-world IoT applications that involve LED-like components. Examples included smart lighting systems, environmental monitoring, and home automation, illustrating how basic concepts could be expanded into complex projects. Ideas such as smart traffic management, industrial automation, and healthcare applications were explored

The workshop concluded with a Vote of Thanks by Mr.V.Balaji AP/EEE followed with a feedback session Overall, the workshop was so enlightened and it must make a spark within students to get innovated ideas and involved in real time projects.

the various aspects of personality development incorporated into the induction program and its impact on students.

**Creative Arts:**

The inclusion of creative arts in the first-year induction program is aimed at providing a balanced and holistic introduction to the academic environment. This component serves as an outlet for self-expression, encourages creativity, and fosters cultural appreciation among students. Creative arts activities, ranging from visual arts to performing arts, play a pivotal role in enhancing the overall development of students. This report delves into the structure, significance, and outcomes of the creative arts segment of the induction program.

**Sports & Fun Games:**

As part of the induction program for first-year students, sports activities were organized to promote physical fitness, teamwork, and camaraderie among the new students. The sports session was designed to introduce students to the importance of maintaining a healthy lifestyle while balancing academic responsibilities. It also provided a platform for students to showcase their athletic abilities, bond with peers, and foster a sense of community.

**Cultural Program:**

As part of the induction program for first-year students, a cultural program was organized to welcome and introduce new students to the diverse and vibrant campus culture. The program aimed to foster interaction, showcase talents, and create a sense of belonging among students from various backgrounds.

## YOGA:

The purpose of the yoga class was to introduce first-year students to the practice of yoga as a part of their induction program. The goal was to help them relax, improve focus, and promote mental and physical well-being during the transition into college life.

The session started with a brief introduction to yoga, highlighting its benefits in maintaining balance between the body and mind. The instructor emphasized how regular practice of yoga can aid in stress management, improve concentration, and enhance overall health.

## STUDENTS PARTICIPATED IN YOGA

## OUTCOMES:

- The induction program successfully eases students into their new academic setting by familiarizing them with campus resources, faculty, administrative processes, and peer networks.
- Activities like public speaking, group discussions, and presentations significantly boost students' verbal and written communication skills.

- Through the Universal Human Values (UHV) component, students develop a strong ethical foundation, which encourages responsible decision-making and behaviour.
- Engaging in creative arts and mindfulness activities helps students manage stress, maintain emotional balance, and promote relaxation, leading to better mental health.
- Hands-on experiments, field trips, and interdisciplinary projects help students apply the principles of physics and chemistry in real-world scenarios. This enhances their understanding of the subjects and builds problem-solving skills.
- The program equips students with foundational knowledge and skills that prepare them for more advanced coursework in their chosen disciplines, helping them excel in their studies.

# REPORT ON FIRST YEAR INDUCTION PROGRAM

The First Year Induction Program at St. Anne's College of Engineering and Technology aims to welcome new engineering students, familiarize them with the university's culture, and provide essential information regarding their academic journey. Totally, 142 students were participated.

**Objectives of the Program:**

- To orient students to university life and academic expectations.
- To introduce faculty members and support staff.
- To provide information on academic resources, extracurricular activities, and career opportunities.
- To encourage interaction among peers and faculty.

**Program Details:**

The program was conducted for two weeks with the following topics:

**Proficiency Modules in English**:

As part of the induction program for first-year students, an English Proficiency Class was conducted to enhance the language skills of students, many of whom come from diverse linguistic backgrounds. The objective of the session was to improve students' communication skills, particularly in English, which is critical for academic success and career development.

**Department Familiarisation & Department Activity:**

The induction program for first-year engineering students serves as a crucial foundation for introducing students to the engineering department and familiarizing them with its activities, resources, and academic environment. The aim is to ensure a smooth transition from school to college life, promote student engagement, and instil a sense of belonging to the department.

**Application of Maths:**

As part of the induction program for first-year students, a Mathematics Proficiency Class was conducted to assess and strengthen the foundational mathematical skills required for

academic success in higher education. The session aimed to bridge gaps in students' understanding and ensure that all students, regardless of their prior educational background, are adequately prepared for the rigorous mathematical concepts they will encounter in their respective courses.

**Proficiency Modules in Computer Science:**

As part of the induction program for first-year students, a Computer Proficiency Class was organized to equip students with essential computing skills that are crucial for both academic and professional success. The session aimed to familiarize students with fundamental computer operations, software applications, and internet usage, which are integral to their academic activities and daily tasks in a digital learning environment.

**Application of Physics & Chemistry:**

The inclusion of fundamental sciences such as physics and chemistry in the first-year induction program provides students with an understanding of how these subjects are applied in real-world scenarios. By emphasizing the practical applications of these sciences, the program helps students appreciate their relevance beyond the classroom. This component of the induction program encourages critical thinking, problem-solving, and innovation, which are vital for future academic and professional success.

**Universal Human Values:**

The integration of Universal Human Values (UHV) into the first-year induction program aims to instil ethical principles, foster self-awareness, and nurture a sense of responsibility among students. This component is crucial for developing well-rounded individuals who are not only academically competent but also sensitive to societal and environmental concerns. The UHV module helps students reflect on their personal values, behaviour, and the impact of their actions on society and the world.

## DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

## WORKSHOP ON IMAGE PROCESSING TECHNIQUES USING MATLAB

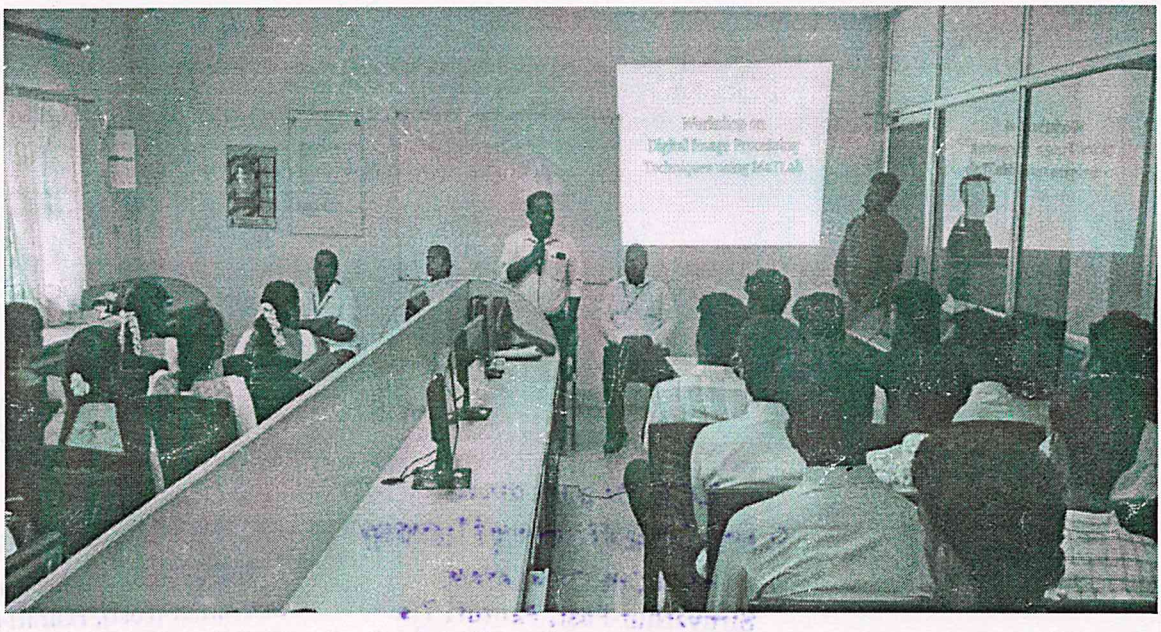

## REPORT

**OBJECTIVES:**

- To enhance the quality of images, extract meaningful information from images, and automate image-based tasks.
- The objective of the workshop is to give exposure to the digital image processing algorithms that are found in the applications such as biometrics, agriculture, communication, and remote sensing.

**REPORT:**

The Department of Electronics and Communication Engineering (ECE), in association with the Electronics and Communication Science Association (ECSA) and the Institute Innovation Council (IIC), had arranged a two-day' workshop on digital image processing using MATLAB for third-year students on 27.09.2024 and 28.09.2024 at the VLSI lab. The program commenced with the inaugural event in the presence of our principal, Dr. R. Arokiadass, and Dr. Sr. S. Anita, the head of the department of electronics and communication. Around 50 students had participated and benefitted from this workshop. The workshop was designed to stimulate students' interest in the image processing domain for studying theory subjects as well as for doing a final year project.

On the first day of the workshop, students were taught about the introduction of image processing and the basic programs of image processing in MATLAB. The second day of the workshop, they were taught about the segmentation, edge deduction, and filtering of images, and practical sessions were conducted. This workshop will help the engineering students and enthusiasts/scholars get trained in the MATLAB package in the aspect of image processing. The workshop is designed to stimulate students' interest in the image processing domain by engaging them in a completely purpose-driven study environment with hands-on activities while fostering a sense of curiosity and accomplishment. This will open up a door for programming in image processing. The students' feedback is also good.

**OUTCOMES:**

Upon the completion of the course, students will be able

- To know about the basic programs of image processing in MATLAB.
- To know about the image enhancement, acquisition, and segmentation.
- To know about the filtering of images in image processing.

## ANTENNA DESIGN CHALLENGES USING ANSYS HFSS REPORT

**Resource Person:** Mr. S. Durairaj, AP/ECE,
Mrs. B. Mary Amala Jenni, AP/ECE

**Date:** 03.10.2024 & 05.10.2024

The Department of Electronics and Communication Engineering in association with Electronic and Communication Scientia Association (ECSA) and Institute Innovation Council (IIC) has arranged a two days workshop on **"ANTENNA DESIGN CHALLENGES USING ANSYS HFSS"** for final year (VII-Semester) ECE students.

**Objective:**

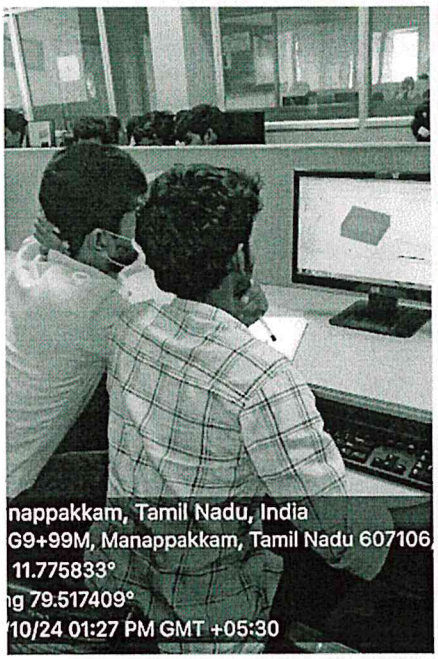

To demonstrate the Introduction to Communication Systems and various types of antenna, which is a powerful and a great platform for building low-cost, but highly capable in antenna design.

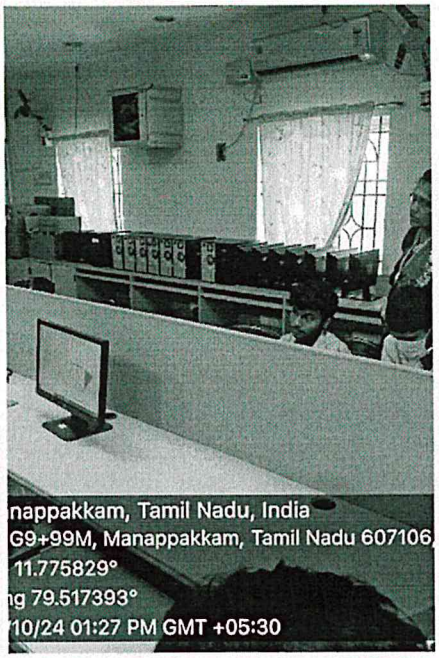

**Outcomes:**

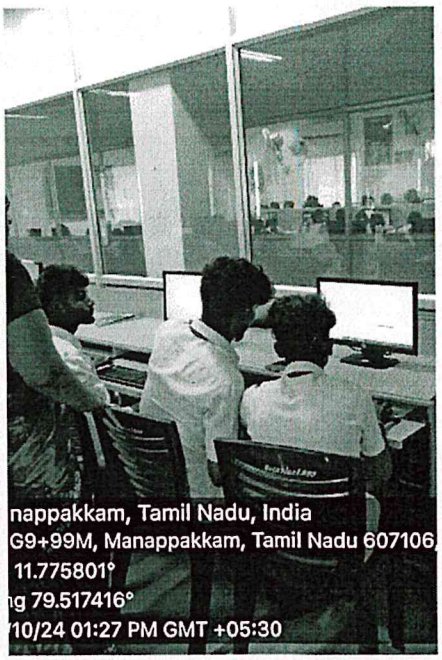

- Students learnt to create interesting applications with basic Antenna Design.
- Students got hands on exposure on working on HFSS to design an microstrip patch antenna using offset feed techniques and inset feed techniques.

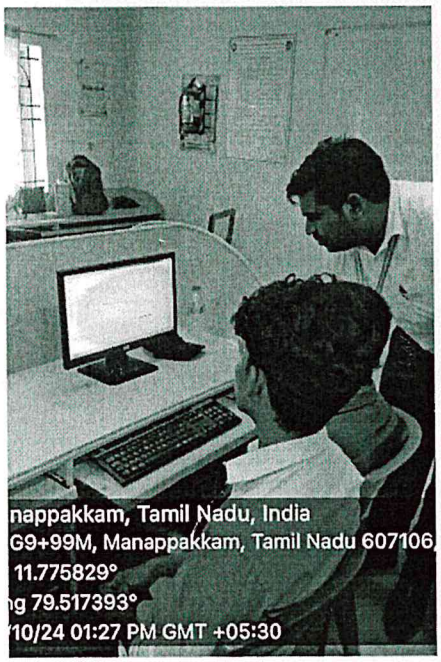

**Report:**

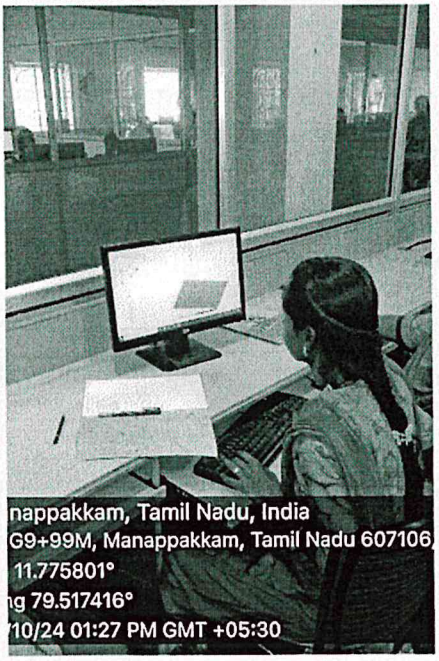

All the final year students of the Department of Electronics and Communication Engineering participated in this workshop. The program commenced with the inaugural event in the presence of our principal, Dr. R. Arokiadass, and Dr. Sr. S. Anita, the head of the department of electronics and communication. Around 25 students participated and benefitted from this workshop. The first day of the workshop, the students were taught about the basics of communication systems with research tools HFSS and designed the Microstrip patch antenna using offset feed techniques which include the calculation part also. The second day, students were taught about Design of Microstrip patch antenna using Inset feed techniques and Assign Excitation and boundary conditions for inset feed techniques. Hands-on training was given. Students were learned to work under the Design of Circular patch antenna using offset feed techniques with different types of meta-materials and smart antennas.

## DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

## WORKSHOP ON ROBOTICS

## REPORT

**OBJECTIVES:**

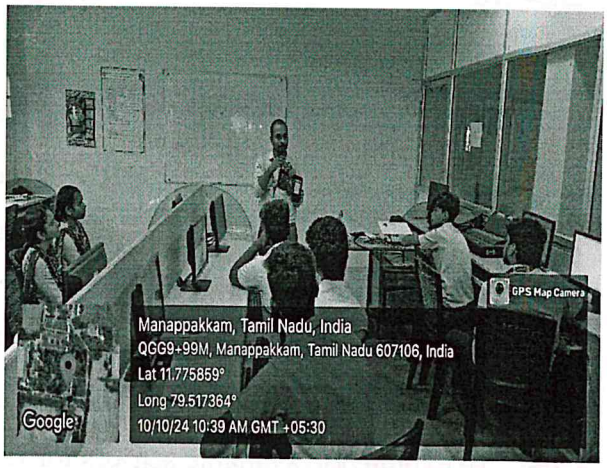

- To provide deep insight into Robotics building blocks.
- To develop Robot assembly & testing skills
- To explore the available sensors for Robotics
- To bridge the gap by providing an opportunity to the participants, so that they can write robotics programs to interface different types of input/output devices with the Microcontroller to do different projects.

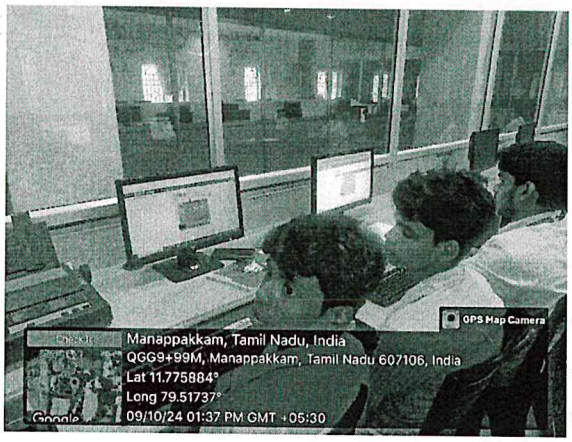

**REPORT:**

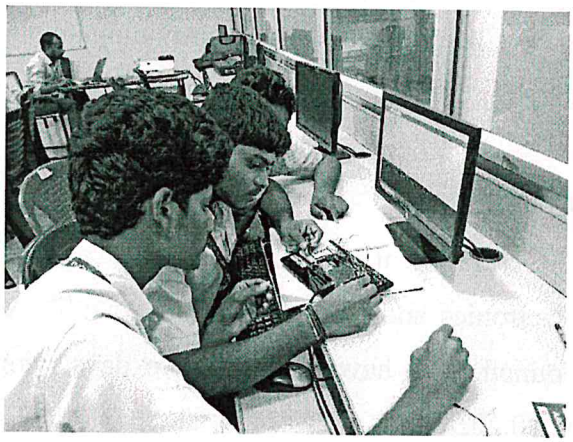

The Department of Electronics and Communication Engineering (ECE), in association with the Electronics and Communication Scientia Association (ECSA) and the Institute of Innovation Council (IIC) have arranged two days' workshop on "Robotics" for second year students on 09.10.2024 and 10.10.2024 at VLSI lab/Embedded lab. The program commenced with the inaugural event in the presence of event coordinator Mr. R. Radhakrishnan, Assistant Professor/ECE & Mr. S. Durairaj, Assistant Professor/ECE. Mr.S. Balabasker, Assistant Professor/ECE, Mrs. B. Samadhana Priya, Assistant Professor/ECE, acted as resource person for this workshop. Around 35 students participated and benefited from this workshop. The aim of the workshop is to make the students learn the basics of robotics and to drive a two-wheeled robot. On the first day of workshop students were taught about the introduction of robotics and how we design online platforms like TinkerCAD and wokwi. Students were also taught Introduction about Arduino UNO, explained about robotics and its application in our day-to-day life, explained basic programs which are done to dump in Arduino for the movement of robots. On the second day of the workshop, they were taught to develop the programs i.e., Software part, of the process of designing robots. Dumping a code to the motor through Arduino IDE software which helps them to move in a particular direction. This workshop will help our students to get trained in Arduino IDE Software. Students were separated into 8 batches and to each batch component to build a two-wheeled robot was given. A competition was also conducted for the students, in which the students had to drive the robot in a particular direction. The resource persons verified all the mini-projects

done by the students and gave their suggestions and comments. All the students were appreciated for their effort in driving the robot. The session ended with students' feedback.

**OUTCOMES:**

Upon the completion of the course, students will be able

- Introduction to Robotics & Robotics Systems.
- Understand about various types of sensory devices their working and applications
- Understanding more about microcontrollers.
- Understanding how Arduino, Raspberry Pi and microcontroller are involved in Robotics.
- Understanding Programming in Arduino

## REPORT OF THE PROGRAMME

Workshop On
**"Non Destructive Testing Techniques"**
on 08h November, 2024

The Mechanical Engineering Department organized a work shop on 8/11/2024 the topic "NDTT (Non Destructive Testing Techniques) with the support from Shri Sai NDT Centre Puducherry. Fifty-four (54) students participated in the workshop. The primary aim of the workshop was to introduce participants to the various techniques used in non-destructive testing and their applications in ensuring the structural integrity and safety of materials, equipment, and components. NDT methods play a critical role in industries such as aerospace, manufacturing, civil engineering, and power generation, offering the ability to detect flaws without compromising the object being tested.

The Non-Destructive Testing workshop provided valuable insights into the various techniques used for material inspection. Participants were able to experience firsthand the methods used to detect defects and ensure the structural integrity of critical components in various industries. The hands-on approach and expert guidance enhanced the participants' technical proficiency and deepened their understanding of NDT's role in ensuring safety and quality in engineering and manufacturing processes.

## DEPARTMENT OF MECHANICAL ENGINEERING

## WORKSHOP ON DIGITAL FABRICATION

A one-day hands-on workshop on digital fabrication (3D Printing, CNC Woodcarving, and Laser Cutting) was conducted on 23rd April 2025 from 10:00 AM to 3:30 PM. The workshop aimed to introduce participants to digital manufacturing technologies that are transforming product design, prototyping, and fabrication. The resource person for the session was Mr.J.Jagan, Chairman – Vector Solutions, Pondicherry, who shared his expertise in rapid prototyping and digital fabrication. He brought along working models of the machines and provided live demonstrations using industry-relevant tools.

**CNC-Woodcarving** involves subtractive manufacturing using a rotating cutting tool controlled by computer code (G-code) to carve designs into wooden surfaces. It is used in furniture design, custom signage, and prototyping. A desktop CNC woodcarving machine was demonstrated. A 2D design was converted into a toolpath using CAM software. The carving process on a wooden block was shown live.

**Laser-Cutting** uses a high-powered laser beam to cut or engrave materials like acrylic, wood, leather, and plastic. It is widely used for precision cutting, signboards, artistic design, and prototyping. A mini laser cutter was used to cut and engrave on acrylic and MDF sheets. Participants saw how different materials require different power and speed settings.

**3D Printing** is an additive manufacturing process where material is deposited layer by layer to form a 3D object from a digital model. It is widely used for prototyping, modelling, and even final product fabrication. FDM (Fused Deposition Modelling) 3D printer was set up. A basic 3D model was loaded, sliced, and printed during the session. Participants observed the complete printing cycle: model import → slicing → machine operation. CAD Design softwares (TinkerCAD, SolidWorks) and Slicing Software (Ultimate Cura) were used. Students understood STL file format, importance of slicing parameters (layer height, infill, and support) and print bed levelling.
