Menstrual hygiene management is an integral part of the Swachh Bharat Mission Guidelines (SBM-G). The Menstrual Hygiene Management Guideline is issued by the Ministry of Drinking Water and Sanitation to support all adolescent girls and women. The event starts with a knowledge-enriching session with female students of all the years.

This event focuses on creating awareness among female students regarding menstrual hygiene and personal sanitation. Menstruation is a natural, normal biological process experienced by all adolescent girls and women, yet it is not spoken about openly, causing unnecessary embarrassment and shame. India's 113 million adolescent girls are particularly vulnerable at the onset of menarche. At this time they need a safe environment that offers protection and guidance to ensure their basic health, well-being, and educational opportunity are realized.
