He informed the students that the first level of screening is used in the majority of selection processes, whether for a job, higher education, or a competitive exam. He shared very practical and simple solutions to puzzle and number problems. With a demonstration, he talked about how Vedic math can be used to solve a variety of problems. Mr. Manavalan, Assistant Professor, Department of Computer Science Engineering, and Mr. Elangovan, Assistant Professor, Department of Mechanical Engineering, who coordinated the session, did an excellent job. The webinar was attended by 99 students from various courses. The session was very interactive, and the students were kept interested throughout the session.
