11. Read the following passage and answer the questions given.

The Digital Divide

A recent survey has shown that the number of people in the United Kingdom who do not intend to get internet access has risen. These people, who are known as 'net refuseniks', make up 44% of UK households, or 11.2 million people in total.

The research also showed that more than 70 percent of these people said that they were not interested in getting connected to the internet. This number has risen from just over 50% in 2005, with most giving lack of computer skills as a reason for not getting internet access, though some also said it was because of the cost.

More and more people are getting broadband and high speed net is available almost everywhere in the UK, but there are still a significant number of people who refuse to take the first step.

The cost of getting online is going down and internet speeds are increasing, so many see the main challenge to be explaining the relevance of the Internet to this group. This would encourage them to get connected before they are left too far behind. The gap between those who have access to and use the internet is the digital divide, and if the gap continues to widen, those without access will get left behind and miss out on many opportunities, especially in their careers.

- (a) State whether the following are True or False (8 × 1 = 8)
- (i) More people in the UK do not intend to get internet access than before.
 - (ii) The majority of people in the UK are 'net refuseniks'.
 - (iii) Most of those without internet access want to get it.
 - (iv) The minority of the people surveyed in 2005 weren't interested in having internet access.
 - (v) The main reason for not getting internet access is the cost.
 - (vi) High speed internet is not available everywhere in the UK.
 - (vii) Both costs and speeds are increasing.
 - (viii) Many people think that getting the costs down is the key to this problem.

(b) Choose the correct answer from the options given (8 × 1 = 8)

(i) Net Refuseniks constitute _____% of British household's Today.

- (1) 11.2 (2) 44
(3) 70 (4) 50

(ii) The reason for the increasing number of 'net refuseniks' is

- (1) They cannot afford it
(2) They do not have access to high speed internet
(3) They do not have computer skills
(4) They are not interested in getting connected

(iii) The number of people without internet access in the UK has _____ since 2005.

- (1) increased
(2) decreased
(3) remained unchanged
(4) information not available

(iv) Which of the following statements is correct according to the passage?

- (1) High speed access is available in the UK at high cost
(2) High speed internet is not available in the UK
(3) High speed internet access is available at lost cost in the UK
(4) High speed internet access is not available in some parts of the UK

(v) It is important to convince the 'net refuseniks' to get connected because otherwise

- (1) they will be left behind in their careers
(2) they will not understand the relevance of the internet
(3) they will refuse to take the first step
(4) they will not learn computer skills

(vi) The main challenge in convincing the 'net refuseniks' is

- (1) teaching them computer skills
(2) explain the relevance of the internet to them
(3) decreasing the cost of internet access
(4) increasing the speed of access

(vii) The gap between those who have internet access and those who don't have it is known as the

- (1) Broadband access
- (2) Net refuseniks
- (3) Digital divide
- (4) Internet gap

(viii) The ultimate purpose of the survey is

- (1) to calculate the number of net refuseniks
- (2) to create a digital divide
- (3) to measure internet speed and cost
- (4) to persuade people who do not have internet access to get connected
