## CLEANING AND PAINTING PROGRAM

(Creating awareness on waste disposal)

### REPORT

DATE: 06-03-2021

PLACE: Government Higher Secondary School, Thirunavalur.

The National Service Scheme (NSS) of St. Anne's College of Engineering and Technology conducted a one day camp on **creating awareness on waste disposal (degradable and non-degradable separately) and cleanliness** at Thirunavalur, on 6<sup>th</sup> March, 2021. The NSS Programme Officers, faculty members and the NSS volunteers actively involved in cleaning the Government Higher Secondary School premises and its surroundings. The volunteers collected the plastic and other wastes thrown by people and the school students and created awareness among the students and villagers on the importance of cleanliness, removal of all wastes and place them in the respective places. The volunteers also removed the mesquite plants from the school premises which reduce the herbaceous resources and dries the land by sucking the ground water. They painted the desks and benches in the school and carried out to create an awareness on keeping the campus clean and green. This camp instilled in the volunteers and the school students not only to preserve nature by planting trees and protecting them but also to maintain cleanliness in the surroundings. The school authorities appreciated the work of the volunteers and thanked them.
