CAMPUS CLEANING PROGRAMME
REPORT

DATE:08-04-2022

PLACE: St. Anne's College of Engineering & Technology

St. Anne's College of Engineering and Technology, Panruti successfully completed the event of "Campus Cleaning" under the National Service Scheme (NSS) at college campus on 08th April, 2022. Every man need the oxygen for their life and Trees are the foremost source of oxygen as well trees helps to reduce the level of CO₂. As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees has become one of the most important today's aspects. The event was begun with the welcome speech by our NSS Officer and then we all move towards the place where tree plantation took place. A very first tree plant by our Secretary Rev. Sr. Dr. Y. Yesu Thangam in our college premises and then Principal Dr. R. Arokiadass, Vice-Principal Sr. Punitha Jilt also plants a tree. Total tree planted by all others including staffs, volunteers and other students was more than 100 on the day. Then all the NSS Volunteers and students were engaged in this cleaning programme.

The NSS officer Mr.J.Ramesh divided the NSS Volunteers into several groups. Each group members were allocated with a particular area for cleaning. Three groups were asked to collect all the stones from the ground separately in different sacs. The renewable such as dry leaves, twigs, papers etc. and non-renewable wastes such as carry bags, plastic items etc. were collected separately. The renewable waste was collected and burnt. At the end the NSS volunteers were happy and experience proud after the tree plantation event was finished, because it really feels great to do positive for the nature.
